146 Government Notifications.

Colonial Secretariat,
Lagos, 26th April, 1898.

His Excellency the Governor, whilst expressing some amount of satisfaction with the result of the last examination of candidates for apprenticeship to the Public Works Department, regrets that not more than eight candidates presented themselves for the examination, and that of this number not more than four were successful.

As it is proposed to inaugurate both the Technical and Survey Schools with eight pupils each, His Excellency has given instructions for another examination to be held in August next, and trusts that in the meantime the four candidates who were successful at the last examination will continue their studies especially of the branches of mathematics, in which they were examined.

Another entrance examination for the Survey School will also be held in August next.

His Excellency is anxious that the educational establishment of the Colony should prove themselves equal to the task of supplying the required number of pupils for these schools, and hopes that special efforts will be made for this purpose by Managers and Headmasters, as otherwise it will be necessary to invite pupils from abroad.

Enclosure to Circular dated February 26, 1904.

MEMORANDUM on the Position and Duties of the Crown Agents for the Colonies.

The Crown Agents are the commercial and financial agents in the United Kingdom for all the Colonies except those possessing responsible government, and for the Protectorates which are under the control of the Colonial Office. They occupy a similar position with regard to the Protectorates controlled by the Foreign Office.

2. They are directly responsible to the Colonial Governments, but the Secretary of State exercises a general control and supervision over the conduct of their business, and they are from time to time instructed by him on questions of principle and in cases of emergency or of great importance.

3. They are appointed by the Secretary of State for the Colonies, and are paid by fixed salaries settled by him. These salaries and all the other expenses of the office, including pensions, are paid from a fund which is derived from the payments made by the Governments for which the Crown Agents act in return for services rendered. No expenditure from this fund is made without the authority of the Secretary of State. The charges for the different classes of business transacted are fixed by the Secretary of State. The office is self-supporting, and no part of the cost is voted by Parliament. Its accounts are, however, audited by the Comptroller and Auditor-General, and an abstract of them is rendered to the Secretary of State.

4. The volume of the work has increased very greatly in recent years. The office now transacts business for some 44 Colonies and Protectorates, as well as for the West African Frontier Force, the King's African Rifles, the South African Constabulary, and the Uganda and Central South African Railways.

5. When important public works such as railways, harbour works, drainage and water schemes, &c., are projected in the Crown Colonies or Protectorates, the business connected with them in the United Kingdom is entrusted to the Crown Agents. In the case of works carried out by a Colonial Government with the assistance of Consulting Engineers in this country, the Crown Agents are employed to make arrangements for the preliminary surveys and investigations, and for the subsequent execution of the scheme. When the work is to be done by a contractor, they obtain tenders and prepare and enter into the necessary contract. All correspondence between the Colonial Government and the Consulting Engineers regarding such works passes through their hands, and they advise generally the Secretary of State and the Colonial Government on any points of interest or importance which may arise. The Crown Agents are not concerned in the supervision of the works. This is the concern of the Colonial Governments, by whom it is delegated, if necessary, to officers acting under the instructions of the Consulting Engineers. Nor do the Crown Agents give technical advice or act in any way as technical experts, this being the province of the Consulting-Engineers. But in dealing with many Colonies over a long period of time the Crown Agents have accumulated much experience which is at the disposal of all the Crown Colonies, and in this way they are often able to give assistance and advice, so that one Colony benefits by the experience of all.

or iron; building materials; steamers; vessels, boats, and all kinds of marine machinery; telegraph stores of all sorts, including cables; everything required in connection with electric lighting; laboratory stores; and general engineering appliances and stores of every kind and description. The Crown Agents also purchase for the military forces of the Colonies military equipment, guns and rifles, and ammunition of every class, clothing and accoutrements, tents and camp equipment, harness, saddlery, and other requisites. They purchase medicines and instruments for hospital use; coal and other fuel; textile fabrics; explosives; stationery; furniture and household articles; as well as cattle, horses, and other live stock, and many other miscellaneous articles. They also arrange for the preparation of postage, revenue, and judicial, stamps, postcards, registration and postage envelopes, newswrappers, postal orders, cigar and opium bands, currency notes, &c. They also arrange for the shipment and insurance of the goods.

7. Such supplies are obtained either by competitive tender or by direct order according to the quantity or value of the supplies required. Tenders are not usually invited by advertisement; but any firm is put on the list, to be invited to tender, which satisfies the Crown Agents as to its standing and competence. The stores are subjected to inspection by experts before being accepted for shipment. Every precaution is thus taken to ensure that stores of good quality are purchased at the lowest practicable prices.

8. The Crown Agents do not themselves act as experts in these matters. This would be impossible in dealing with materials of such wide variety. They have on their staff technical men able to deal with all ordinary matters, but whenever necessary they obtain advice from Consulting Engineers or other competent advisers.

9. The Crown Agents have no initiative in connection with the inception of engineering works or the purchase of stores. In all cases the initiative rests with the Colonial Government or the Secretary of State, and the functions of the Crown Agents are strictly confined to executing orders which have received sanction either from the Colonial Government or from the Secretary of State. They cannot without the authority of one or other of these initiate or incur any expenditure whatever.

10. In addition to supplying stores, the Crown Agents pay the salaries of officers on leave of absence in England, and the pensions of retired officers and of widows and orphans. They adjust accounts between the various Colonies, and make advances to officers entering the Colonial Service and on leave of absence and pay outfit allowances. They pay also the remittances which officers abroad are entitled to make through Colonial Governments to relatives and dependents. They deal with the correspondence and payments in connection with the estates of deceased officers. In the case of the West and East African Protectorates they pay at home the salaries of the majority of the officers. They pay drafts drawn upon them by the Colonial Governments.

11. The Crown Agents are entrusted with the duty of recommending to the Secretary of State candidates for certain Colonial posts for which technical qualifications are required, and under instructions from the Colonial Office they make the agreements with such officers setting out the terms of their engagement. They also, under instructions from the Colonial Office, take passages to the Colony for all officers entitled to

Agricultural Supplement No. 7.

—:o:—

A meeting of the Council of the Agricultural Union was held at the Secretariat on Friday, the 28th July.

The Acting Colonial Secretary, the Hon. E. A. Speed, presided and there were present the Hon. C. A. Sapara Williams, the Director of Forests and Agriculture, the Government Chemist, the Commissioner for Abeokuta, Mr. C. A. Birtwistle, Mr. J. C. Lucas, and Messrs. J. K. Coker, J. E. Wright, from the Lagos Planters Union, and Mr. A. Edun and Mr. S. J. Peters from the Abeokuta Branch Society, and Mr. J. W. Hoffman from the Oyo Branch Society.

The Chairman said that he much regretted to inform the council that he was unable to bring before them the business which he had hoped to submit for discussion, owing to the illness of the Hon. Secretary who had had to be removed to Hospital at very short notice and could not at present be interviewed.

Attention was called to a minor inaccuracy in the report of the proceedings of the last meeting, it being pointed out that the report admitted of the construction that the members of the Council who supported the resolution of confidence in the Hon. Secretary had signified that they were of opinion that the paragraph in the Lagos Weekly Record to which attention was called obviously referred to the Hon. Secretary.

They desired to disavow any such opinion, without in any way withdrawing the vote of confidence in the Hon. Secretary.

The chairman expressed regret that any misapprehension should have arisen and pointed out that it was extremely difficult to ensure complete accuracy without competent shorthand writers who were unfortunately not available.

The meeting then unanimously confirmed the resolution passed at the last meeting with regard to the postponement of an Agricultural Show till November, 1906.

After a short discussion on the question of the distribution of the grass seeds purchased for experimental purposes, and on the subject of roads in the Agege Ikeja district, the meeting adjourned *sine die*.

ANTHROPOLOGY.

COURSES OF INSTRUCTION.

The Secretary of State has decided that selected candidates for the Tropical African Service may be given a course of instruction in the principles and methods of general anthropology. Arrangements have been made for a series of lectures on this subject to be delivered in connection with the sessions of the Tropical African Services course of instruction at the Imperial Institute. Attendance will be voluntary.

2. Officers attending these lectures, who are not at the same time already attending other lectures at the course, will receive an allowance of 5s. for each day on which they attend one of the lectures, and either 2s. 6d. lodging allowance in respect of each lecture, together with first class fares (two single or one return, where one is available) to and from their homes at the beginning and the end of the course, or, if they travel to and fro on each occasion, actual daily railway expenses, to a maximum not exceeding 2s. 6d. a day.

3. If an officer, who displays aptitude for anthropology, wishes to spend some part of his leave in special study of the subject, and applies to the Governor in the ordinary course before proceeding on leave for the grant of the necessary facilities, he may, on the recommendation of the Governor, be granted allowances in the way of tuition fees, railway fares, lodging and training allowances similar to those given to officers attending a course of entomology. As far as is known at present, such courses can only be profitably pursued (so far as the United Kingdom is concerned) at Oxford, Cambridge or London, and it would be necessary for an officer to produce satisfactory evidence of his having spent his time to good purpose before the allowance would be paid. Should an officer be successful in passing a University examination in the subject, his examina-

AWARD OF KING'S POLICE MEDAL TO No. 1765 SERGEANT MAJOR BAWA ALLAH.

No. 1765 Sergeant Major Bawa Allah.

BILLS OF LADING.

PROPOSED ADDITIONAL CLAUSE IN TIME OF WAR.

Ship-owners have expressed to His Majesty's Government a desire to insert in Bills of Lading a clause to the following effect:—

If and so long as the ship is insured against war risks with a war risk insurance association under or in connexion with a war risks insurance scheme of His Majesty's Government the ship in addition to any liberties expressed or implied in this Bill of Lading shall be at liberty to comply with any orders or directions as to the departure arrival routes ports of call stoppages or otherwise howsoever given by His Majesty's Government or any Departments thereof or any person acting or purporting to act with the authority of His Majesty or of His Majesty's Government or of any Department thereof or by any Committee or person having under the terms of the war risks insurance on the ship, the right to give such orders and nothing done or not done by reason of any such orders or directions shall be deemed a deviation.

The object of this clause would be to cover obligations which are often undertaken to call at ports in the United Kingdom for information, advice or instructions before proceeding on the final stage of the voyage. It has been opposed by shippers who do not realise that this requirement is for security of cargo just as much as for security of the ship, and does not prejudice or sacrifice the interests of the shipper, which indeed it safe-guards.

service of Nigeria to "foundationerships" tenable at Christ's Hospital. One child between the ages of 9 and 11 can be nominated every three years and a presentation is now due. It may be made within two years from the 31st March, 1917. Children nominated for presentation will be required to pass an elementary examination and may be either boys or girls. A certificate of character is required. In addition to those children nominated for presentation, the Donation Governor on behalf of the Government of Nigeria may nominate one child (under 13 years of age), about once in two years, to compete at an examination for "foundationerships" under the same conditions.

In considering applications claims for nominations will be considered in the following order:—

First, the children of officers who have died in the service of Nigeria. Second, the children of officers who have died after leaving that service. Third, the children of officers who have been invalided from the service on small pensions or gratuities. Fourth, the children of officers retired on pension in the ordinary course. Fifth, the children of officers who are still in the service of Nigeria.

No child can be presented unless the parent or parents are in actual need of assistance for the education of their children.

Applications should be addressed to the Central Secretariat, and it is requested that any one who knows of any deserving case will bring it forward for consideration. There are at present no applications under consideration.

OVERSEAS LETTERS—DESPATCH OF DUPLICATE BY FOLLOWING STEAMER.

As it is often difficult to state by what Steamer correspondence posted at certain offices has been forwarded, arrangements have been made by which duplicate letters forwarded to the Assistant Surveyor, General Post Office, Lagos, will be retained until the steamer after that by which the original was despatched.

Any person wishing to avail himself of this facility should enclose the duplicate letter—fully stamped—in a cover addressed to the Assistant Surveyor, General Post Office, Lagos. With the duplicate letter should be enclosed a memorandum stating that the original was posted at.....on .....and requesting
(the same date as the duplicate)
that the duplicate be retained for the next steamer. Sixpence in stamps, the fee charged for the service, should be affixed to the memorandum.

Both letters—the original to the addressee and the duplicate under cover to the Assistant Surveyor, General Post Office, Lagos—must be posted at the same time, otherwise the Assistant Surveyor will not know by which steamer the original was despatched.

The Assistant Surveyor will inform the sender of the name of the steamer by which the duplicate was sent. The duplicate will be sent forward by Registered Post if the sender so desires and prepays the necessary fee.

Although every care will be taken, the Department can accept no responsibility in the matter.

The prepaid rate of postage for letters between Cameroon (British Sphere) and the United Kingdom and British Possessions generally is now 1d. per ounce.

Government Notices.

No. 14.]

The Secretary of State for the Colonies has accepted the resignation by Sir John Eaglesome, K.C.M.G, of the office of Director of Railways and Works, Nigeria.

His Excellency the Acting Governor in making this announcement feels sure that the officers of the Nigerian Service will share with him his deep regret that the Administration has by this resignation lost the valuable services of such a distinguished officer as Sir John Eaglesome.

In acceding to Sir John Eaglesome's request to be allowed to resign, the Secretary of State wrote to him as follows :—

I take this opportunity of conveying to you my cordial appreciation of your long and valuable service, which has been of great benefit, both to Nigeria and to His Majesty's Government.

The period during which you have been associated with the Colony and Protectorate, first in Northern Nigeria and subsequently as Director of Railways and Works before and after the Amalgamation of the Northern and Southern Administrations, has been remarkable for improvements in transport and communications, and especially for the development of Railways. Your success in dealing with the difficult problems of rapid and economical railway construction in remote tropical districts has been recognised by successive Secretaries of State and Mr. Long has no doubt that the present highly satisfactory situation of the Nigerian Railways is largely due to your recommendations on the numerous matters of policy and method brought before you in your capacity as director. The Secretary of State has heard of your approaching retirement with great regret, a feeling which he is confident will be shared by the Governor-General and officers of all branches of the Nigerian Administration.

No. 15.]

His Excellency directs that this notice be published in the widest possible manner throughout Nigeria.

It is with deep regret that the Governor has to announce the deaths, as a result of a Motor accident at Port Harcourt, on the 24th and 25th instant respectively, of Miss E. K. Neville, Senior Nursing Sister, Medical Department and Mr. R. W. Nixon, Treasury Assistant.

Miss Neville joined the Nursing Staff of Northern Nigeria in 1899 remaining until 1902 when she proceeded to South Africa on active service.

In 1909 she joined the Nursing Service of Southern Nigeria and was promoted to the rank of Senior Nursing Sister in 1914. On the outbreak of war she was posted to the Hospital Ship "Appam," and served with the Cameroons Expeditionary Force until May, 1915.

For her services in that Expedition she was highly commended by General Sir Charles Dobell and received the thanks of the Secretary of State.

Miss Neville was decorated with the R.R.C. for her services in the Ashanti war.

By the death of Miss Neville the Administration has lost a thoroughly capable Sister and a very valuable Officer.

Mr. Nixon had been in the Government Service since April, 1912. He was a capable and reliable Officer, keenly interested in his work and had won the confidence and respect of all who knew him.

The Governor also announces with deep regret the death of Mr. F. Campos, 2nd Class Compositor, Printing Department, at Lagos, on the 24th May.

(d) The insurance will be subject to average, so that it is desirable that, whenever possible, the sum insured should represent the full value of the property to be covered in order that any claims for partial loss or damage may not be prejudiced owing to the effects not having been fully insured. It has also been arranged that an officer and his wife living together in the Colony can, if required, be considered as two individuals for the purpose of the insurance of effects.

2. The insurance referred to above does not include the risk of transit to or from Nigeria, and if officers desire to cover their belongings during sea transit the additional premium payable will be 7s. 6d.% for each single journey.

3. In addition to the firm mentioned in paragraph 2 above the following Companies are understood to be prepared to undertake the insurance of the effects of officers of this Government.

(a) Messrs. Morice Tozer & Beck, Limited, of 27 Clement's Lane, E.C.

(b) Messrs. Bray, Sellers and Alt, Limited, of 31 Lombard Street, E.C.

(c) The Royal Exchange Assurance, Broad Street, Lagos, at the special rate of 2s. 6d.% against fire, in respect of household and personal effects of all officials, whether European or African, resident in Nigeria, contained in brick and iron or other well constructed quarters. For officials living in houses of more hazardous construction the rates vary from 5s.% to 7s. 6d.%

(d) The Bank of British West Africa, Limited, as Agents for the Northern Assurance Company, at the rate of 5s.% against loss or damage by fire, in respect of property housed in permanent buildings only.

4. The Crown Agents have recently been asked to endeavour to obtain better terms from Messrs. Glanvill Enthoven & Company, and the Government is in communication with the Royal Exchange Assurance with a view to insurance against risks other than fire.

5. Officers intending to insure their effects should communicate direct with the firms concerned.

(*a*) It is proved to the satisfaction of the Postmaster-General that the loss occurred in the Post and that the packing and securing of the cover was adequate.

(*b*) In the case of the loss of Bank-notes, Money Orders, Postal Orders, Cheques, Coupons, Bonds and similar documents, no compensation will be paid unless they were enclosed in one of the registered envelopes supplied by the Post Office. Particulars sufficient for the identification of such documents must also be furnished.

N.B.—No compensation is paid in any circumstances for the loss of a Postal Order unless the name of the payee and of the office at which payment is to be made have been filled in.

(*c*) No claim for compensation for the loss of any of the contents of a packet will be entertained if delivery of the packet has been accepted without comment.

Compensation payable for loss or damage of insured article.

(*ii*) Compensation for the loss or damage in the post of an insured letter or parcel, will not exceed the amount of the actual loss or damage, and will not be paid at all for a packet containing any prohibited article, or for any packet which has been delivered without external trace of injury and has been accepted without remark; nor does it follow as a matter of course that compensation will be given when loss arises from tempest, shipwreck, earthquake, war, or other causes beyond control. No claim for compensation will be admitted if made more than a year after the packet was posted. The sender of a parcel may waive his claim in favour of the addressee.

No legal liability to give compensation in respect of any packet for which an insurance fee has been paid attaches to the Postmaster-General, either personally or in his official capacity. The final decision upon all questions of compensation rests with the Postal Administration of the country in which the loss or damage has taken place.

Compensation for loss or damage of uninsured parcel.

(*iii*) Compensation may be given for the loss or damage of an uninsured parcel-post parcel under the following conditions:—

(*a*) That the compensation paid will not exceed the value of the contents lost or damaged, and will in no case exceed £1.

(*b*) That the loss or damage occurred while the parcel was in the custody of the Postmaster-General.

(*c*) That the loss or damage occurred through no fault of the sender; for instance, insufficient packing, parcel not secured in such a manner that the contents could not be withdrawn without the cover showing obvious signs of violation, insufficient address, etc.

3

(*d*) Compensation will not be paid for the loss or damage of an uninsured parcel in any circumstances under which it would be refused in the case of a registered or insured letter or insured parcel.

(*e*) The final decision upon all questions of compensation rests with the Postal Administration of the country in which the loss has taken place.

Fragile articles.

3. No compensation will be given for damage to a fragile article whether sent by letter or parcel post.

Damage by water.

Compensation will not be given for damage by water in any case where a parcel was transported for any portion of its journey by "carrier," "runner" or "canoe."

In no case will compensation be given in case of accidents beyond control, or in respect of an article which cannot be accounted for in consequence of the destruction of official documents through a cause beyond control.

MADE in Council this 29th day of January, 1923.

G. O. NUGENT,
Clerk of the Executive Council.

MONEY ORDER BUSINESS.

It is notified for general information that on and from the 1st of November, 1927, the rates of commission on Money Orders issued in Nigeria will be considerably reduced and that the following rates will be brought into force:—

Rates of Commission payable on Money Orders issued for places outside Nigeria:

Payment of a Money Order is subject to the possession of sufficient funds, by the Postmaster of the paying Office, and delay is possible, especially in the case of Orders drawn on small Offices.

The payee (or person presenting the Order for payment) is required to give the name of the Remitter (or person sending the money) and may be required by the Paying Officer to furnish proof of identity before payment is made.

VACANCIES FOR, AND PROSPECTS OF, NURSES-IN-TRAINING.

There are at present a number of vacancies for nurses-in-training with good prospects either as Nurses or as Laboratory Attendants, according to the ability and aptitude of the individual candidate.

The period of training is normally three years, but it is now proposed to institute an examination once a year on the results of which promotion is to be determined. In this way a nurse-in-training may pass the first examination and proceed to 2nd Class Nurse without requiring to complete three years training. He will have the opportunity of passing a higher examination at the end of four years and become eligible for promotion to 1st Class Nurse on a salary of £72-8-112. Later on he may pass examinations by which he will become eligible for promotion to Charge Nurse and still later to Senior Nurse and thus attain a maximum salary of £240 per annum. If, on the other hand, he shows aptitude for it he may be trained for work as a Laboratory Attendant with the prospect at the end of three years of passing an examination and becoming 3rd Class Attendant at a salary of £48-6-78, and in a further two years, again by examination, of promotion to 2nd Class Laboratory Attendant with salary at £88–8–128, and eventually may become a Senior Attendant and rise to a salary of £300 per annum. These examinations are not mere memory tests but demand a good practical knowledge of the examination subjects.

In order to become eligible for accelerated promotion by examination, candidates for the Nursing and Laboratory branches of the subordinate staff will be required to pass an entrance examination in the following subjects :—English Grammar and Composition, Arithmetic (good knowledge of decimal system and of fractions), Writing and General Knowledge. This examination will be based on Form II Government Code and will be equivalent to the Junior Cambridge.

The entrance examination will be held in January next at Lagos, Kaduna, Port Harcourt and Calabar and at other centres should the number of applicants warrant it.

Application should be made before the 31st of December and should be addressed to one of the following :—

Assistant Director of Medical and Sanitary Service, Kaduna.
Assistant Director of Medical Service, Warri.
Assistant Director of Medical Service, Calabar, or
Assistant Director of Medical Service,
Medical Officer, Lagos.

Each application should be accompanied by a certificate of character, and a certificate of the highest standard examination (Government Certificate) passed by the applicant. The accepted applicants will be advised of the time and place of the entrance examination.

Reasonable cost of travelling between their school centre and the place of examination will be refunded to successful candidates on their accepting appointment.

Training College will have the same facilities for accelerated promotion, but with their higher educational attainment their prospect of quick advancement is enhanced, moreover the higher branches of the Medical Subordinate Staff are open to them.

(*b*) Application for appointment may be made at any time by those who have a pass in Government Examination Standard VI, but though accepted they will not be eligible for accelerated promotion by examination until they succeed in passing the entrance examination.

D. ALEXANDER,
Director of Medical and Sanitary Service.

Post Office Notice.

LETTER POSTING BOXES ON NIGERIAN RAILWAY.

Extension of Service.

On and from January 1st, 1929, the service by which unregistered correspondence can be posted in letter boxes fitted to trains will be extended.

Letter posting boxes will be fixed in the Up and Down Boat trains and in the Through Passenger Trains between Apapa, Iddo, Kaduna, Kano and Jos.

These boxes are intended primarily for use at stations where Post Office facilities are not afforded; and in the case of the boat train which stops at principal stations only a late fee of 1d. will be charged on each item posted in addition to the ordinary postage: and letters not fully prepaid will be surcharged double the deficiency. The boxes are cleared by the Posts and Telegraphs Department which hold the keys.

Boat Train Letter Boxes.

There are four boxes in the mail vans on the train leaving Apapa—two in the Kano section and two in the Jos section.

On the Up Boat Train clearances are effected at Kaduna Junction, Kano and Jos. On the Down Boat Train the boxes will be cleared at Apapa only.

A late fee of 1d. additional is levied on each item posted as explained above.

Through Passenger Trains.

Iddo–Kaduna–Kano. There are two boxes fitted in the Guard's Van.

These boxes are cleared at Kaduna and Kano on the up journey, and at Kaduna and Iddo on the down journey.

Kaduna–Jos. There is one box in the Guard's Van.

This box is cleared at Kaduna Junction on the down journey (and any correspondence for offices further south transferred to the connecting Kaduna–Iddo train) and at Jos on the up journey.

G. B. Herben,
Acting Postmaster-General.

COMPARATIVE TABLE—*continued.*

Draft Bill. Clause.	Nigeria Ordinances. Chapter and Section.	Straits Settlements Ordinance. Section.	Remarks.
			in elucidating the meaning of "packet" since a "postal packet" includes both a newspaper and a parcel whilst a "packet" does not. This is very confusing and it has been thought better to adopt in the bill the Straits Settlements definition (Straits Settlements Ordinance section 11 (5)) and merely define "letter" as including post card, leaving the word, in other respects, to bear its ordinary signification.
			(*d*) The definition of "mail bag" in the Straits Settlements Ordinance is more comprehensive than that in Nigeria Cap. 41 and has been adopted.
			(*e*). The definition of "Officer of the Posts and Telegraphs Department" has been shortened and at the same time made equally comprehensive by following the lines of the corresponding definition in the Straits Settlements Ordinance.
			(*f*). Definitions of "Master of a vessel," "Post," "Post Office" and "Postage stamp" are introduced corresponding to those in the Straits Settlements Ordinance.
			(*g*). The term "Postal article" used and defined in the Straits Settlements Ordinance is preferred to "Postal packet" used in Nigeria Cap. 41 and in the Imperial Act. The last 24 words of the Straits Settlements definition have been omitted as unnecessarily narrowing the meaning; this follows the precedent of the Imperial Act's definition of "postal packet."
...	—	3	The words "or taken delivery of by" have been inserted after "delivered to" in two places.
...	Cap. 41 s. 4 (*b*).	4	The Straits Settlements form has been followed.
5 ...	—	—	New, it seems desirable to give this power specifically.

The provisions of the Nigeria Ordinance, which follow much more closely those of the Imperial Act [8 Ed. 7 c. 48. s. 34 (2) and (3)] have been preferred to those of the Straits Settlements Ordinance. In clause 8 (2) the exception in favour of "Letters to be sent out of Nigeria by a vessel not being a packet boat" has been omitted as it opens the door to possible evasions of the privilege on a large scale.
8 (3) ...	„ s. 6.	11 (3).	
8 (4) ...	—	—	Taken from the Imperial Act [8 Ed. 7 c. 48 s. 34 (4).] It is desirable to include a penalty in the Ordinance. Although most of the penalties for offences against the post office law are provided in the Criminal Code, sections 161-182 and section 176 thereof deals with the subject of contravening the exclusive privilege of the Postmaster-General that section does not quite cover all the points covered in the clause in the bill.

SCHEDULE.

SECTION 28.

I do solemnly declare that I have to the best of my knowledge and belief caused to be delivered to the proper officer of the Posts and Telegraphs Department at every postal article and mail bag that were on board the vessel under my command except

DECLARED at the day of , 19 .

.....

Commander.

(Before me.)

Officer of the Posts and Telegraphs Department.

Objects and Reasons

1. This Bill consolidates and amends the law relating to the powers and duties of the Posts and Telegraphs Department. In particular a number of useful provisions have been introduced based on corresponding provisions of the Straits Settlements Post Office Ordinance, 1923 (No. 23 of 1923).

2. The main provisions of both the Post Office Ordinance (Chapter 41) and the Post Office (Fraudulent Uses) Ordinance (Chapter 42) of Nigeria have been retained save where corresponding provisions of the Straits Settlements Ordinance have been considered preferable, but the provisions of the Criminal Code of Nigeria sections 161-182, which deal with offences against post office laws, have not been interfered with, consequently it has not been necessary to introduce into the bill any provisions corresponding to Chapter XIII of the Straits Settlements Ordinance.

3. The Straits Settlements Ordinance also deals with the question of Savings Bank, but this is dealt with in Nigeria under a separate Ordinance (Chapter 43) which it is not proposed to amend.

4. With the ever-growing extension of the activities of the Post Office in Nigeria it is essential that the law on the subject should be kept up to date, and the passing of this bill into law will effect a desirable improvement upon the existing legislation.

5. A comparative table is attached explaining the provisions of the bill in detail.

DONALD KINGDON,
Attorney-General.

COMPARATIVE TABLE.

COMPARING THE PROVISIONS OF THE DRAFT BILL ENTITLED THE POST OFFICE ORDINANCE, 1928, WITH THOSE OF THE NIGERIA POST OFFICE ORDINANCE (CHAPTER 41) AND POST OFFICE (FRAUDULENT USES) ORDINANCE (CHAPTER 42) AND THE STRAITS SETTLEMENTS POST OFFICE ORDINANCE, 1923 (No. 23 OF 1923).

Draft Bill.	Nigeria Ordinances.	Straits Settlements Ordinance.	Remarks.
Clause.	Chapter and Section.	Section.	
1 ...	Cap. 41, s. 1	1 ...	—
2 ...	„ „ s. 2	2 ...	*(a)* The term "contract vessel" is preferred to the Strait Settlements term "contract packet" and to the present Nigerian term "packet boat." It is desirable to avoid the use of the word "packet" as meaning sometimes a vessel and sometimes a package. Owing to the definition given of "vessel" the term "contract vessel" will include an aeroplane or airship. *(b)* The definition of "fictitious postage stamp" is taken from the Straits Settlements Ordinance the scope being extended by including the words "or stamped impression" after "stamp." The inclusion of this definition enables the wording of clause 26 (1) (section 14 of Nigeria Chapter 41) to be simplified. *(c)* The definition of "Letter" is a matter of some difficulty; it is of considerable importance especially in reference to the clause conferring exclusive privilege upon the Postmaster-General (clause 8 of the Bill, section 5 of Nigeria Cap. 41, section 11 of Straits Settlements Ordinance and section 34 of the Imperial Post Office Act, 1908). The Nigeria Ordinance (Cap. 41) defines letter as "'Letter' includes packet." The Imperial Act has, in effect, the same definition for the use of the term in section 34. But "packet" is nowhere defined either in the Nigeria Ordinance or in the Imperial Act although "postal packet" is. The definition of "postal packet" is, however, no help

Obituary.

His Excellency the Governor announces with regret the death of the following :—

Oyewole, Bale of Ibadan, at Ibadan, on the 9th of

The following report on the audit of the accounts of the Lagos Executive Development Board for the period ended 31st March, 1930, together with the cash statement is published for information :—

AUDIT OFFICE,
Lagos, 3rd May, 1930.

LAGOS EXECUTIVE DEVELOPMENT BOARD.

I have the honour to report on the account of the Lagos Executive Development Board for the period February, 1929 to March, 1930.

2. The books of account have been examined and were found in excellent order.

3. The cash book was checked with its supporting vouchers. The Bank Balance was reconciled with the Bank Certificate, and the cash balance was correct.

4. The payment vouchers were examined, contracts were scrutinised and indemnity certificates were seen for all payments on account of acquisitions.

5. The Ledger, in which expenditure is booked under the different items sanctioned by the Board, was checked with the Minute Book where these sanctions are recorded, and the vouchers.

6. Under Section 55 (1) of Ordinance 45 of 1928 the Board may require the Town Council to levy and collect a Town Planning Rate which shall be paid to the Chairman of the Board. This has not been levied yet.

7. The only receipts, except for £20 deposited by contractors, have been sums, totalling £13,734 4s. 8d. paid by the Treasury from Head 48, Loan Works (New Programme), Item 5, Town Planning, Lagos.

8. The actual expenditure up to 31st March, 1930, was £10,074 11s. 11d. but a further amount of £2,670 10s. has been allocated to the Public Works Department for work on the Apapa Roads. No statement of Expenditure had been received by the end of the financial year and the sum is shown as a balance in the Cash Statement.

9. Two amounts were paid to the Lagos Town Council which will have to be accounted for by that Body; they are (i) £230 paid on Payment Voucher 59/1929–30 for drainage work at Alakoro, and (ii) £250 paid on Payment Voucher 125/1929–30 for a new latrine.

10. The following items of expenditure require the Board's sanction :—

	£ s. d.
(I) Ledger Folio 121 Stores and Local Purchases ...	9 0 7
(II) ,, ,, 205 Passages	27 12 0.

11. There appears to be some uncertainty as to the Board's control of its funds. Although the Board did not consider expenditure in connection with the construction of roads at Apapa a proper charge against the funds at the present time, Government directed the Board to pay for the work and accordingly a sum of £2,800 was approved.

12. In section 6 of Ordinance 45 of 1928 it is laid down that the Board shall determine the remuneration to be paid to its officers and servants. After due consideration, having regard to the large sums of money to be controlled and the large contracts to be placed, the Board deemed it necessary to make certain appointments with salaries that they considered commensurate with the responsibilities attaching to them. Government approved most of the appointments but considerably reduced the larger salaries.

E. A. STOODLEY,
Acting Senior Assistant Auditor.

THE POST OFFICE ORDINANCE, 1928,
(No. 31 OF 1928).
AND
THE TELEGRAPHS ORDINANCE,
(CHAPTER 44).

It is hereby notified for public information that the Post Office Guide, 1931 Edition (hereinafter called "the Guide") has been amended by the Postmaster-General with the approval of the Officer Administering the Government, as follows :—

1. By substituting in the place of Sub-paragraph (*b*) of the paragraph headed "Rates of postage" on page 18, the following :—

(*b*) If for delivery in Great Britain, or Ireland, any British Dominion, Colony or Protectorate (other than Nigeria), or Mandated Territory (other than Iraq and Transjordan and Cameroons under British Mandate) or Egypt, or on board one of His Majesty's ships of war, or at a British Post Office or Postal Agency in Tangier or for His Majesty's Forces abroad.	1½d. for the first ounce and 1d. for each succeeding ounce or part thereof.

2. By deleting from the paragraph headed "Treatment of letter packets containing dutiable articles, etc." on page 18 of the Guide, the words "postage at special rates . . . . over 3 lb." and substituting therefor "a Customs clearance fee of 3d."

3. By inserting under the section "Imperial and Foreign Parcels" after the paragraph headed "Parcels imported liable to Customs Dues" on page 35 of the Guide, the following :—

"PARCEL POST—CLEARANCE FEE.

A postal clearance fee of 3d. will be payable in respect of each parcel received by parcels post from overseas, upon which Customs duty is levied."

4. By inserting under the section "Letter Post Regulations and Rates" after the paragraph headed "*Contents to be accessible for examination*" on pages 21–22 of the Guide, the following :—

"SMALL PACKETS SERVICE.

A new class of postal packets termed "Small Packets" has recently been introduced by the Universal Postal Union in the international services, with the object of affording facilities for the transmission of small articles of merchandise in the letter mails. The exchange of small packets is limited to those countries which have agreed to participate in the service.

The rate of postage will be 1½d. per 2 oz. *with a minimum charge of 6d.* Under the international regulations the postage must be fully prepaid by the sender.

The maximum dimensions will be 18 inches in length by 8 inches in width and 4 inches in depth, or if in the form of a roll 18 inches in length and 6 inches in diameter.

The maximum weight for any small packet will be 2 lb.

Dutiable articles may be enclosed in small packets; but otherwise, the prohibitions applicable to the letter post apply also to the service of small packets. In addition the following *are specially* excluded from transmission by the Small Packets Service :—

Letters, notes or documents having the character of actual and personal correspondence (this prohibition does not apply to open invoices reduced to the simplest form, the address of the articles, and the sender's address) ; coin ; bank notes ; currency notes ; negotiable instruments payable to bearer ; platinum, gold or silver, whether manufactured articles or not ; precious stones, jewellery and other valuable articles ; postage stamps, whether obliterated or not.

Small packets containing dutiable articles are subject to the Customs Regulations in the country of destination ; and a postal fee for Customs clearance will be charged on each packet on which Customs duty is levied. This fee for Customs clearance is collected in the country of destination.

The fee for the clearance of all packets received in Nigeria (whether by letter, small packet, or registered post) will be 3d. in respect of each packet upon which Customs duty is payable. No clearance fee will be charged if no Customs duty is payable.

"Small Packets" posted in Nigeria are subject to the regulations laid down for "Samples" (see Post Office Guide, pages 22 and 23). Attention is called to the requirement that "Small Packets" must be made up in such a manner as to be easy of examination. In addition, the name and address of the sender must be shown on the outside of the packet; and each packet should be conspicuously marked "Small Packet" in the left hand top corner.

A green label obtainable at all Post Offices giving particulars of the contents for Customs purposes, must be affixed to each packet, and in addition, if the country of destination so requires, one or more Customs Declarations Forms "C", must be enclosed in the packet.

A list of the countries to which "Small Packets" may be sent and particulars of the number of Customs Declarations required can be seen at all Post Offices.

Small packets may be registered, but cannot be insured."

5. By deleting from page 52 of the Guide the paragraphs headed "Code language messages", "Category A", and from page 53 of the Guide the first twenty-one lines beginning "Category B" and ending ". . . . letters to a word" and inserting these paragraphs to follow the first three lines of page 57 of the Guide.

6. By inserting on page 52 of the Guide in the place of the paragraphs so deleted the following :—

"Code language messages" :—"All words not forming part of any modern European language, or of Latin, Ibo, Yoruba, Hausa or any recognised native language and all unintelligible combinations of letters are considered as Code in Internal Telegrams and are charged for at the rate of *five letters* to a word in the text of a telegram, and as one word each when used in the address."

The foregoing amendments will take effect as from 1st April, 1931.

No. 53.]

THE POST OFFICE ORDINANCE, 1928,
(No. 31 OF 1928).
AND
THE TELEGRAPHS ORDINANCE,
(CHAPTER 44).

It is hereby notified for public information that the Post Office Guide, 1931 Edition (hereinafter called "the Guide") has been amended by the Postmaster-General with the approval of the Officer Administering the Government, as follows :—

1. By substituting in the place of Sub-paragraph (*b*) of the paragraph headed "Rates of postage" on page 18, the following :—

(*b*) If for delivery in Great Britain, or Ireland, any British Dominion, Colony or Protectorate (other than Nigeria), or Mandated Territory (other than Iraq and Transjordan and Cameroons under British Mandate) or Egypt, or on board one of His Majesty's ships of war, or at a British Post Office or Postal Agency in Tangier or for His Majesty's Forces abroad.	1½d. for the first ounce and 1d. for each succeeding ounce or part thereof.

2. By deleting from the paragraph headed "Treatment of letter packets containing dutiable articles, etc." on page 18 of the Guide, the words "postage at special rates . . . . over 3 lb." and substituting therefor "a Customs clearance fee of 3d."

3. By inserting under the section "Imperial and Foreign Parcels" after the paragraph headed "Parcels imported liable to Customs Dues" on page 35 of the Guide, the following :—

"PARCEL POST—CLEARANCE FEE.

A postal clearance fee of 3d. will be payable in respect of each parcel received by parcels post from overseas, upon which Customs duty is levied."

4. By inserting under the section "Letter Post Regulations and Rates" after the paragraph headed "*Contents to be accessible for examination*" on pages 21–22 of the Guide, the following :—

"SMALL PACKETS SERVICE.

A new class of postal packets termed "Small Packets" has recently been introduced by the Universal Postal Union in the international services, with the object of affording facilities for the transmission of small articles of merchandise in the letter mails. The exchange of small packets is limited to those countries which have agreed to participate in the service.

The rate of postage will be 1½d. per 2 oz. *with a minimum charge of 6d.* Under the international regulations the postage must be fully prepaid by the sender.

The maximum dimensions will be 18 inches in length by 8 inches in width and 4 inches in depth, or if in the form of a roll 18 inches in length and 6 inches in diameter.

The maximum weight for any small packet will be 2 lb.

Dutiable articles may be enclosed in small packets; but otherwise, the prohibitions applicable to the letter post apply also to the service of small packets. In addition the following *are specially* excluded from transmission by the Small Packets Service :—

Letters, notes or documents having the character of actual and personal correspondence (this prohibition does not apply to open invoices reduced to the simplest form, the address of the articles, and the sender's address); coin; bank notes; currency notes; negotiable instruments payable to bearer; platinum, gold or silver, whether manufactured articles or not; precious stones, jewellery and other valuable articles; postage stamps, whether obliterated or not.

Small packets containing dutiable articles are subject to the Customs Regulations in the country of destination; and a postal fee for Customs clearance will be charged on each packet on which Customs duty is levied. This fee for Customs clearance is collected in the country of destination.

The fee for the clearance of all packets received in Nigeria (whether by letter, small packet, or registered post) will be 3d. in respect of each packet upon which Customs duty is payable. No clearance fee will be charged if no Customs duty is payable.

"Small Packets" posted in Nigeria are subject to the regulations laid down for "Samples" (see Post Office Guide, pages 22 and 23). Attention is called to the requirement that "Small Packets" must be made up in such a manner as to be easy of examination. In addition, the name and address of the sender must be shown on the outside of the packet; and each packet should be conspicuously marked "Small Packet" in the left hand top corner.

A green label obtainable at all Post Offices giving particulars of the contents for Customs purposes, must be affixed to each packet, and in addition, if the country of destination so requires, one or more Customs Declarations Forms "C", must be enclosed in the packet.

A list of the countries to which "Small Packets" may be sent and particulars of the number of Customs Declarations required can be seen at all Post Offices.

Small packets may be registered, but cannot be insured."

5. By deleting from page 52 of the Guide the paragraphs headed "Code language messages", "Category A", and from page 53 of the Guide the first twenty-one lines beginning "Category B" and ending ". . . . letters to a word" and inserting these paragraphs to follow the first three lines of page 57 of the Guide.

6. By inserting on page 52 of the Guide in the place of the paragraphs so deleted the following :—

"Code language messages" :—"All words not forming part of any modern European language, or of Latin, Ibo, Yoruba, Hausa or any recognised native language and all unintelligible combinations of letters are considered as Code in Internal Telegrams and are charged for at the rate of *five letters* to a word in the text of a telegram, and as one word each when used in the address."

The foregoing amendments will take effect as from 1st April, 1931.

IV.—CONDITIONS.

1. The Postmaster-General undertakes to install the Exchange lines and maintain them in good order. Repairs will be effected with all possible dispatch, but the Postmaster-General will not be held liable in damages or otherwise for any delay in such repair or for any loss or damage occasioned by the total or partial interruption of the line, nor will any abatement be made from the subscription unless the line shall have been totally interrupted for a continuous period of at least fourteen days. The line will be considered to be in working order unless notification to the contrary be made by the subscriber.

2. The Postmaster-General, while reserving to himself the right to require any intending subscriber to enter into an agreement to hire a line for a period not exceeding five years, will normally be prepared to install an Exchange line upon the subscriber paying *in advance six months' rental* from the date of the connection and to continue the service subject to the following conditions:—

3. *Payment of rental.*—(*a*) After the lapse of the period for which the initial rental has been paid subscriptions are payable half-yearly in advance, the second payment will be, however, only for the period up to the following 30th of June or 31st of December as the case may be. For the convenience of subscribers a demand notice will be issued two weeks prior to the 30th of June or 31st December but if, at the end of the half-year, a subscriber shall have omitted to pay the rental for the ensuing half-year, notwithstanding any failure to issue or receive a demand notice, the Postmaster-General may disconnect the subscriber from the Exchange and remove the Exchange line from the subscriber's premises without further notice.

(*b*) The subscriber will be required to pay on demand all fees and charges on account of additional facilities or in accordance with certified expenses incurred under these conditions. If such fee or charge is not paid within fourteen days of the date upon which it becomes due or of the date of the certified account, the Postmaster-General may disconnect the subscriber from the Exchange and may remove the Exchange line from the subscriber's premises without further notice.

(*c*) Should an Exchange line be disconnected in terms of the foregoing regulations the subscriber will be required to pay a fee of one pound before it is reconnected.

4. *Cessation of Hiring.*—A subscriber is required to give at least one month's notice in writing of his intention to discontinue the hiring of an Exchange line, or to pay one month's rental in lieu of notice. In no circumstances will any part of the first half-yearly rental be refunded.

5. *Alterations and Removals.*—A subscriber may, upon giving reasonable notice, have his Exchange line altered or removed to other premises upon payment on demand of the certified expenses of such alteration or removal and upon the understanding that should such alteration or removal increase the rental in accordance with the scales prescribed in Section I, the subscriber shall be liable for the payment of such increased rental as from the date the alteration or removal is effected.

6. *Responsibility for Damage.*—The subscriber shall pay on demand the certified amount of the damage to any part of the Exchange line on the subscriber's premises which may be destroyed or damaged by fire or accident or by reason of any lack of proper care on the part of the subscriber. The Postmaster-General may disconnect the subscriber from the Exchange and remove the line from the subscriber's premises if he allows his Exchange line to be wilfully damaged or destroyed or put to any illegal or improper use.

7. *Care of Exchange Lines.*—The subscriber shall take proper care of the Exchange line and shall not make any alteration to it without the authority of the Postmaster-General, who may disconnect the subscriber from the Exchange and remove the line from the subscriber's premises if the connections of the apparatus or lines have been tampered with or altered without authority.

8. *Restriction of Use.*—The subscriber shall not permit his Exchange line to be used by any person other than himself, his household, clerks and servants. If the subscriber allows his line to be used otherwise than for his own business or private purposes, or if improper language is used to the Exchange operators or any other person by the subscriber or any person using his line, the Postmaster-General may disconnect the subscriber from the Exchange and remove the line from the subscriber's premises.

9. *Vacation of Premises.*—If the subscriber vacates the premises in which the Exchange line is fitted the Postmaster-General shall be at liberty to recover the Exchange line and hold the same for safe custody or to remove the Exchange line or to rent the same to another person without in any way affecting the subscriber's liabilities.

10. *Deposits.*—The Postmaster-General will reserve to himself the right to require any subscriber to deposit a sum of money in respect of calling fees and trunk calls.

11. *Certified Accounts.*—Any notice or certified account which may be given or rendered by the Postmaster-General shall be deemed duly given or rendered if left at the subscriber's premises, or if placed in his private letter Box, or if sent by registered post to his usual or last known place of address.

12. *Access to Premises.*—The subscriber shall grant to the Postmaster-General and officers of the Posts and Telegraphs Department every facility in his power for the construction, maintenance and examination of the Exchange line and will permit the Postmaster-General and his officials at all reasonable times to have free access to the subscriber's premises for these purposes.

13. *Definitions.*—In these conditions:—

(*a*) The expression "Subscription" includes subscriptions for extension lines or additional apparatus or additional mileage.

(*b*) The expression "certified" means certified over a signature purporting to be the signature of an officer of the Posts and Telegraphs Department; and such certificate shall be conclusive evidence of the matters certified without proof of the signature of such officer or of his appointment.

(*c*) The expression "subscriber's premises" means and includes any premises where the Exchange line is installed.

"412. European Officers of the Administrative Service and of the Education and Police Departments (exceptions *infra*) if appointed before the 1st of January, 1929, are required to pass the Lower Standard Examination in a native language before they are eligible for confirmation in their appointments or for promotion. *Exceptions* are those Administrative Officers who were appointed to the Secretariats before the 19th of April, 1917, and in the Education and Police Departments, confirmed officers transferred from those Departments in other Colonies, or those selected to fill special posts for which a knowledge of a native language is, in the opinion of the Head of Department, not necessary.

"412A. The European Officers mentioned in General Order 412, if appointed after the 1st January, 1929, but before the 1st of July, 1931, are required to pass within the first twelve months of their service a Progress Examination in a native language consisting of—

(*i*) the translation of simple sentences into the native language;

(*ii*) the reading of a simple passage in the native language with correct pronunciation and intonation and with a knowledge of its general meaning.

Such officers will be also required to pass the Lower Standard Examination before they are eligible for confirmation in their appointments or for promotion.

"412B. The European Officers mentioned in General Order 412, if appointed after 1st of July, 1931, will (in place of the Progress Examination) be examined by their Resident or Head of Department or a suitable officer nominated by either, towards the end of their first six months of service : no definite syllabus will be laid down but the object of the test will be to ascertain the progress that has been made in a native language ; the result of this test will be shown in the officer's Confidential Report. Such officers will be also required to pass the Lower Standard Examination before they are eligible for confirmation in their appointments or for promotion.

"412C. Success in the Lower Standard Examination within the first year of service will automatically carry exemption from the Progress Examination, or, if within the first six months, from the test laid down in General Order 412B."

21.] GENERAL ORDER 413. *Add* as last sentence "Such Officers appointed or transferred as above, but after the 1st of July, 1931, will take the test described in General Order 412B which will have the same effect as the Progress Examinations in this General Order."

22.] GENERAL ORDER 414. *Add* as last sentence "Confirmed officers transferred after the 1st July, 1931, will be required to take the test described in General Order 412B instead of the Progress Examination."

23.] *Delete* GENERAL ORDER 445(a).

24.] *Delete* GENERAL ORDER 459 (i) (a).

By His Excellency's Command,

G. HEMMANT,
Chief Secretary to the Government.

The Bill as amended by the Report having passed through Committee with two further amendments, one of which was carried by twenty-two votes to fifteen and the other unanimously, the Council resumed.

An amendment proposed by the Honourable the Banking Member (Mr. L. M. Herapath) and seconded by the Honourable the Member for Shipping (Provisional) (Mr. F. Bateman Jones) having been withdrawn, on the motion of the Honourable the Acting Chief Secretary to the Government, seconded by the Honourable the Treasurer, the Bill was read a third time and passed.

THE NATURAL PRODUCTS (INDUSTRIES PROMOTION) ORDINANCE, 1931.

The Honourable the Attorney-General, seconded by the Honourable the Director of Agriculture moved that a Bill entitled "The Natural Products (Industries Promotion) Ordinance, 1931" be read a second time but on the motion of the Honourable the Commercial Member for Calabar the motion for the second reading was withdrawn and the second reading of the Bill deferred until the next meeting of the Council.

ANNOUNCEMENT.

His Excellency announced that the restoration to the Estimates of provision for the census did not imply any lack of appreciation by Government of the work of the unofficial members or any intention to restrict their work by the use of the official majority and that in accordance with the undertaking given by Sir Hugh Clifford the matter would be referred to the Secretary of State before any expenditure was incurred, under this item.

The Council adjourned at 12.35 p.m. sine die.

AIR MAILS: OUTWARD FROM ENGLAND.

It is notified for general information that until further notice, the outward air mail from England, etc., will reach Lagos at 1.00 p.m. on Fridays instead of 1.00 p.m. on Thursdays.

9th November, 1936.

GAZETTE NOTICE No. 1502.

POST TELEGRAMS.

The attention of the public is directed to the facilities described below for forwarding telegrams by post.

2. Arrangements have been made by which members of the public who have missed a post, or who wish to send a short message more quickly than by the ordinary postal service, can send this message by means of a telegram so addressed that it will be forwarded by post from the telegraph office of receipt to the place named in the address. Similar arrangements have been made in connection with the ocean mail and air mail services.

3. The procedure is as follows:—

(*a*) *Telegrams for onward transmission by ordinary Mail.*

The word "Post" must be inserted *before* the address, and the name of the office at which the telegram should be posted, *after* the address. For example: A telegram for Kabba addressed "Post Brown Trader Kabba Lokoja" would be transmitted by telegraph to Lokoja and sent to Kabba by post. No postage is charged, but the words "Post" and "Lokoja" are included in the number of words and charged for.

If the message has to be posted to a place outside Nigeria, postage at the ordinary letter rate must be prepaid. For example on a message addressed "Post Brown Strand Palace Hotel London W.C. Lagos" a postage charge of 2d. would be collected in addition to the ordinary fee. Similarly a message can be sent by registered post and the words "Post Registered" inserted before the address on payment of an additional registration fee of 3d.

(*b*) *Telegrams for onward transmission by Air Mail.*

The word "Pam" instead of "Post" must be inserted before the address. For example "Pam Brown Strand Palace Hotel London W.C. Kano". Full air mail postage must be prepaid in addition to the telegraph charges. Similarly a message can be sent by registered post by Air mail and the word "Pamr" inserted. For example "Pamr Brown Strand Palace Hotel London W.C. Kano". The registration fee of 3d. is charged in addition to the air mail postage and inland telegraph charges.

4. The full postal address must be given in all cases. An abbreviated telegraphic address cannot be accepted.

5. Telegrams for onward forwarding by post must be handed in in sufficient time to reach the terminal post office before the outgoing mail is closed. According to the present arrangements the homeward Air Mail plane leaves Kano on Fridays at 7.0 a.m. and post telegrams for inclusion in this mail must reach Kano before 5.0 p.m. on Thursdays. This service enables correspondents who have missed the normal posting (or have a later message for the Air Mail) to send a short message home.

E. C. CREWE,
Postmaster-General.

Answer :—

The Hon. the Director of Medical Services:

(*a*) Nine Government Sanitary Inspectors. Twelve trained Native Administration Inspectors. Seventeen part-trained Native Administration Inspectors.

(*b*) Government Staff—Six at Ibadan and three at Oshogbo. Native Administration Staff: (*i*) Trained—Two at Ilesha, and one each at Ibadan, Ikire/Apomu, Ikirun, Iwo, Gbongon, Ede, Ejigbo, Ogbomosho, Oyo, and Ife. (*ii*) Part-trained—Eleven at Ibadan, three at Oshogbo, and one each at Ipetu Modu, Ipetu Ijesha, and Ibokun.

The Hon. the Member for the Oyo Division (Mr. N. D. Oyerinde):

79. (*a*) To ask whether it is a fact that native hunters are using carbide lights at night to hunt in Ogun-Owe Forest Reserve?

(*b*) Whether any steps are being taken by the Government to protect the animals in the Forest from wanton destruction by the hunters?

Answer :—

The Hon. the Chief Secretary to the Government:

(*a*) It is suspected that poachers from Ogbomosho employ this illegal method of hunting in the Owe River region of the Upper Ogun Forest Reserve, an area in which effective supervision is exceedingly difficult.

(*b*) Yes, Sir. As regards the locality referred to in the first part of the Question the Native Administration has stationed there a forest warden, and success is attending his efforts to prevent trespass in the Reserve by hunters from other districts. It is from such persons more than from local hunters that animals in the forest require protection.

The Hon. the Second Lagos Member (Dr. C. C. Adeniyi-Jones):

80. In view of the educational value of newspapers, to ask whether Government will not favourably consider a reduction in the inland rate of postage on printed matter to enable newspapers to be more cheaply circulated through the post?

Answer :—

The Hon. the Financial Secretary:

The present postage rate for printed matter is halfpenny per two ounces. This rate is considered to be sufficiently low to permit of the ready circulation of newspapers and does not appear to call for reduction.

The Hon. the Second Lagos Member (Dr. C. C. Adeniyi-Jones):

81. (*a*) To ask whether it is a fact that at some stations the number of Public Works Department European Executive Engineers are equal to, or actually exceed, the number of European Inspectors over whom, and whose duties, the Engineers are to exercise supervision? If the answer be in the negative,

(*b*) Will the Honourable the Director of Public Works kindly state the number of European Executive Engineers and European Inspectors, respectively, posted in each of the following stations:—Kano, Jos, Zaria and Ibadan?

(*c*) Of these Engineers and Inspectors how many are seconded to the service of Native Administrations and how many are engaged in the service of the Public Works Department?

(*d*) What is the total cost of the Public Works Department Recurrent and Extraordinary Works, and that of the Native Administrations, respectively, now being done in the above-mentioned stations?

Answer :—

The Hon. the Director of Public Works:

(*a*) Yes. It need hardly be pointed out that the work of an Executive Engineer does not consist entirely, or even mainly, of the supervision of Inspectors.

(*b*), (*c*) and (*d*) Do not therefore arise; but for the information of the Honourable Member the following statistics are given.

STAFF.

The Hon. the Second Lagos Member (Dr. C. C. Adeniyi-Jones):

*82. (*a*) Is it a fact that there are two Africans, on the clerical establishment of the Public Works Department, each with a salary of £400 *per annum*, and a record of about twenty-five years service? If so,

(*b*) Will the Honourable the Director of Public Works kindly make a statement indicating the work on which each of them is at present engaged? As well as the duties each has been performing during the last five years? And

(*c*) Whether by their length of service, training, experience and proved efficiency they have not yet earned their eligibility to fit them for the post of Assistant Accountant, Assistant Storekeeper or Office Assistant? If they have,

(*d*) Will the Honourable Member kindly state in full the reasons for his inability, up to the present, to recommend them for one or other of these posts?

Answer:—

The Hon. the Director of Public Works:

(*a*) Yes, Sir.

(*b*) Of these two Chief Clerks, one supervises and is responsible to the Chief Storekeeper for Public Works Department Unallocated Stores Accounts. He has performed these duties for the last five years. The other has been employed as follows during the last five years:—

	From
Area Accountant, Lagos	12.9.32
Office Assistant, Public Works Department Headquarter Office	15.1.34
Area Accountant, Lagos	5.4.34
Area Accountant, Port Harcourt ...	28.5.34, to date.

(*c*) I regret that neither of these clerks is considered fit for promotion to the posts in question.

(*d*) Does not arise.

The Hon. the Second Lagos Member (Dr. C. C. Adeniyi-Jones):

83. (*a*) To ask whether the damage to the grounds of the Apapa Aerodrome which resulted in the submergence, in part, of one of the machines of the Imperial Airways Limited, has been made good? And if so,

(*b*) At what cost to the revenue? And under whose immediate direction and supervision?

The Hon. the Member for the Rivers Division (Mr. S. B. Rhodes):

17. In view of the judgments delivered by the West African Court of Appeal on the 22nd day of December, 1935, in Shule Akuse *versus* Fatumo, and on the 1st day of June, 1937, in Okparaeke and Ukabam *versus* Okamibo, whether Government will take necessary steps to re-draft section 25 (*c*) of the Native Courts Ordinance, 1933?

Answer:—

The Hon. the Chief Secretary to the Government:

The question of re-drafting section 25 of the Native Courts Ordinance, 1933, is under consideration.

The Hon. the Member for the Rivers Division (Mr. S. B. Rhodes):

18. (*a*) As officers of the Police Force conduct prosecutions in the Protectorate Courts will Government say whether they are supplied with full sets of the Laws of Nigeria including the various Supplements up to 1936?

(*b*) If the answer is in the negative will Government take the necessary action to see that this is done in the future?

Answer:—

The Hon. the Chief Secretary to the Government:

(*a*) No, Sir, not at present.

(*b*) Steps have been taken for the consolidation of the laws. Arrangements will be made when the consolidated laws are published to supply a copy to the office of every Superior Police Officer in the Police Force and to every Police Station. The costs of reprinting now a sufficient number of the existing volumes to make the above issue possible is not considered justified, as they would be out of date on the publication of the volumes of the consolidated laws.

The Hon. the Member for the Rivers Division (Mr. S. B. Rhodes):

19. Is Government now prepared to consider the question of the granting of scholarships to students of the Yaba Higher College who have passed their London University Intermediate Examination in order that they will be able to complete their studies in England?

Answer:—

The Hon. the Chief Secretary to the Government:

The question is already receiving the consideration of Government. One such scholarship has recently been granted to an African Master at the Higher College, Yaba, to enable him to take the degree of Bachelor of Science at London University.

The Hon. the Member for the Rivers Division (Mr. S. B. Rhodes):

20. (*a*) Was there an Inquiry held by the Honourable the Director of Transport over the recent Colliery Labourers strike?

(*b*) If so will Government lay on the table the proceedings together with the report?

Answer:—

The Hon. the Director of Transport:

(*a*) It is assumed that the Honourable Member refers to a stoppage of work by tub-boys at the Iva Valley Mine which occurred on the evening of Friday the 10th of September. His Honour the Chief Commissioner, Southern Provinces, interviewed representatives of the tub-boys on the following morning when they explained that their action was due to a report that one of their number had been assaulted by a European Overman. When they were assured that the alleged assault would be investigated by the Police they agreed to return to work on the next shift and expressed regret for their action in stopping work without first submitting their grievance to the proper authorities. There was a partial resumption of work the same afternoon and by Monday the 13th of September conditions were normal. In the circumstances no formal inquiry was held by the Honourable the Director of Transport but proposals are under consideration for the formation of councils to ensure that any grievances of the Colliery staff may be promptly ventilated.

(*b*) Does not arise in view of the reply to (*a*).

The Hon. the Member for the Rivers Division (Mr. S. B. Rhodes):

21. (*a*) Is Government satisfied with the services rendered by the Medical Assistants posted to outstations?

(*b*) If the answer is in the affirmative will Government consider the advisability of training Africans for the post of Assistant Nursing Sisters?

Answer:—

The Hon. the Director of Medical Services:

(*a*) Only six Medical Assistants have been qualified for more than two years and while it is too early to express a definite opinion as to their capabilities, it may be said that their services generally have been satisfactory.

(*b*) The higher grades of Nurse perform the duties which would be appropriate to an Assistant Nursing Sister, and it is not considered necessary or desirable to create a further grade in the nursing service.

The Hon. the Member for the Rivers Division (Mr. S. B. Rhodes):

22. Is it a fact that in the month of August, 1937, between 300 and 400 women of Oka Village in the Okigwi Division left the village at midnight and migrated to the village of Umudim in the Owerri Division without the knowledge of a single male inhabitant of the Oka Village?

(*a*) If the answer is in the affirmative will Government investigate and ascertain the reason for such migration?

(*b*) Also whether such an exodus of women at midnight without the knowledge of the men is possible?

Reply not yet ready.

The Hon. the Second Lagos Member (Dr. C. C. Adeniyi-Jones):

23. (*a*) How many persons were wounded at the dynamite explosion reported to have occurred at Abeokuta on the 6th of March last? And how many died from their wounds?

(*b*) Are warnings regularly given to secure the safety of persons in and about the neighbourhood when blasting operations are in progress? If so, in what form?

(*c*) Were any warnings given on the above date? And in what form?

(*d*) How then were the casualties that day accounted for? And what compensation, if any, was awarded?

Answer:—

The Hon. the Chief Secretary to the Government:

(*a*) No dynamite explosion resulting in death or injury to any person is known to have occurred at Abeokuta during the present year.

(*b*), (*c*) and (*d*) Do not arise.

The Hon. the Second Lagos Member (Dr. C. C. Adeniyi-Jones):

24. (*a*) To ask whether the flat rate charge of 1½d. per half ounce for letters, and one penny per postcard, for Empire Air Mails on the South African route, foreshadowed in the *London Daily Telegraph* of June 22nd, 1937, did come into operation? And when?

(*b*) And whether the question of the extension of a similar rate across the continent from Khartoum to Lagos, will not be considered by Government?

Answer:—

The Hon. the Chief Secretary to the Government:

(*a*) Yes, Sir; on the 24th of June, 1937.

(*b*) Arrangements for the participation of the West African Colonies in the Empire Air Mail scheme are at present under consideration.

The Hon. the Second Lagos Member (Dr. C. C. Adeniyi-Jones):

25. (*a*) What is the number of private property owners whose properties at Suru Lere have been acquired since the Lagos Executive Development Board began the redistribution of holdings in that area?

Ijora Wharf	18 „

NOTE:—The above Harbour Draughts are published as a guide to Pilots, but, owing to constant changes taking place, modification may be necessary at any time without notice. The handling of vessels at or near maximum draught is difficult and should not be attempted except at or near High Water.

2. The attention of Masters is specially drawn to the necessity of trimming their ships upright and without a list as a vessel's hull when at or near draught limit lies very close to the bottom.

G. W. TRINICK,
Harbour Master.

Govt. Notice No. 1129

GOVERNMENT OFFICIALS PROCEEDING TO THE UNITED KINGDOM

By paragraph 4 (*f*) of Public Notice No. 11 of 1942 (as amended by Public Notice No. 40 of 1942) Government officials of European descent proceeding to any place outside Nigeria except the Union of South Africa are exempted from the necessity of obtaining exit permits. It is important, however, in the case of Government officials proceeding to the United Kingdom, that it should be obvious from the description in their passports (under "Profession" on page 2 of British passports) that they are in the service of the Crown; "medical officer", for example, is not an adequate description.

2. Officers intending to proceed to the United Kingdom whose passports do not comply with the above requirement should submit them to the Assistant Immigration Officer, Lagos, for inspection. Officers are reminded that in no circumstances may a passport be amended or altered except by a Passport Officer and that any unauthorised alteration to a passport renders it invalid.

ACCOMMODATION AT KADUNA

It is notified for general information that the sole available accommodation for civilian visitors to Kaduna is four rooms in the Rest House. Intending visitors who require accommodation should not therefore come to Kaduna until they have verified that such accommodation is available. Recent changes in house distribution make billeting impossible.

Govt. Notice No. 1333

NIGERIA COCOA MARKETING BOARD

1948-49 Cocoa Season Prices

The Nigeria Cocoa Marketing Board has fixed the following naked ex-scale port of shipment prices for cocoa during the 1948-49 cocoa season :—

	Standard weight cocoa (Main Crop) (per ton)	*Light weight cocoa (Light Crop) (per ton)*
	£	£
Grade I ..	120	115
Grade II ..	115	110
Grade III ..	105	100
Grade IV ..	90	85

The Board also announces that :

(*a*) for the two seasons following the 1948-49 season, there will be a guaranteed *minimum* naked ex-scale port of shipment price for Grade I Main Crop cocoa of £100, and for Grade II Main Crop cocoa of £95, and

(*b*) that towards the end of the 1948-49 season it will consider, in the light of the results of that season and the future market prospects, the possibility of extending this guarantee to cover the 1951-52 season.

The only reservation to which this guarantee is subject is that, in the event of war or other circumstances which would prevent the Board from selling the cocoa crop overseas, the guarantee would be subject to reconsideration.

It is further announced that after the 1948-49 season the Board will not purchase Grade IV cocoa.

2. The above decisions have been reached by the Board after consultation with its Advisory Committee, its Marketing Company in London and the Government, and the Board wishes to make known the main considerations and facts which it has taken into account in forming its price policy for the 1948-49 season and the seasons immediately following.

3. Demand for cocoa on the world markets at present exceeds supply and this situation may well continue for the next three or four years. World cocoa prices are thus at present abnormally high and it is most improbable that they will continue indefinitely at their current high level. The price policy which the Board followed throughout the past season has been to maintain a fairly wide margin between its buying and selling prices in order to accumulate sufficient funds to enable it to fulfil its primary purpose, namely price stabilisation.

By the end of the 1947-48 season the funds of the Board will have reached such substantial proportions that without further large additions these funds will be sufficient to provide an adequate measure of price stabilisation and also to finance various agricultural and other schemes for the benefit of the cocoa farmer, the details of which will be published shortly. In fixing prices for the coming season, therefore, the Board formed the view that the price which the producer should receive should be related closely to world market prices so far as they can be foreseen. At the same time, the Board was bound to consider that the fixation of prices at levels higher than those adopted would not only be unjustified on a prudent view of the market, but would have an inflationary effect which would do much to offset the benefit to the producer by causing all-round increases on the prices of consumer goods.

The actual prices finally fixed by the Board are those advocated by the representatives of the cocoa farmers on the Board's Advisory Committee ; they are the prices which, in the view of the Board, are consistent with ordinary prudence and the desire of the Board that the farmers should now benefit directly from the present and prospective prices obtainable overseas.

4. The stabilisation of prices at satisfactory levels will from now on be an intergal part of the Board's price policy. Minimum prices for Grade I and Grade II Main Crop cocoa are guaranteed from the opening of the new season as far ahead as 1951, and possibly until 1952, and it is the desire of the Board and the Advisory Committee that all connected with the cocoa industry in Nigeria, and in particular the cocoa farmers, should understand the full significance of this far-reaching and beneficial measure. It means that for the next three seasons (and possibly for a fourth season), cocoa producers are immune from the effects of a possible fall in the price of cocoa on overseas markets. During these seasons, whatever the world level of cocoa prices may be, the naked ex-scale port of shipment prices for Main Crop cocoa in Nigeria will not be less than £100 per ton for Grade I and £95 for Grade II. The actual prices payable by the Board for all grades will continue to be fixed each season, as at present, in the light of the most up-to-date information, and, should favourable marketing conditions continue, the prices for the two grades mentioned might well be higher than the minimum prices now guaranteed.

It would be unwise on the part of producers and others connected with the industry to conclude that the Board expects to be able to pay the minimum prices now guaranteed for an indefinite period after 1951. The level of world cocoa prices has fallen during the past year but is still exceptionally high and will almost certainly decline further. It is also reasonable to expect that the world cocoa supply position will improve in relation to demand. New sources of supply are being developed by other countries and a few years hence world supplies may be appreciably more plentiful than at present. To maintain port prices in Nigeria at the level guaranteed over the next three seasons (and possibly a fourth season), the Board may be obliged to make a call on its stabilisation reserve. The Board is confident that its existing funds will be adequate to enable it to pay the minimum prices now guaranteed up to and inclusive of the 1950-51 season but obviously its price and stabilisation policy will need review from time to time thereafter in the light of the conditions which may then obtain.

5. The Board and its Advisory Committee wish to emphasise that the Nigerian cocoa producers can themselves do much, during the present favourable conditions, to render the future of their industry secure by improving quality and so establishing the reputation of Nigerian cocoa on the world markets. The Board will further these aims by financing schemes which the Department of Agriculture will operate and which are designed to study growing conditions, increase the yield per acre and reduce the incidence of the diseases which threaten the industry. The success of these schemes will depend in large measure on the whole-hearted co-operation of the producers and the Board believes that it can rely on the cocoa farmers to lend their full support to projects which will benefit their interests so materially. The Board is also confident

that the Nigerian cocoa farmers will appreciate the vital importance to the industry of eradicating swollen shoot and other diseases, and that they will readily co-operate in their own vital interests in the preventive measures now being undertaken.

Some progress in improving the quality of Nigerian cocoa has already been made. During the past season the tonnage of Grade I cocoa marketed amounted to 49 per cent of the total crop as compared with 23 per cent during the previous season, and the Board hopes that this gratifying trend will be maintained and increased in the new season. As stated in paragraph 1 above, the Board has decided that the purchase of Grade IV will be discontinued at the end of the 1948-49 season as it is considered that by that time production methods will have so improved as to eliminate this low grade cocoa.

Closing and Opening of the Seasons

6. There is every indication of an early season and the Board, on the advice of the Advisory Committee, has resolved that the 1947-48 season will close at midnight on the 2nd of September, 1948, and that the 1948-49 season will open at midnight on the 22nd of September, 1948.

Govt. Notice No. 2069

NOTICE TO EXPORTERS No. 2/1948

The attention of exporters is drawn to changes in procedure, which will have immediate effect, regarding certain forms which require to be completed at the time of export.

Attention is also drawn to the interpretation of certain sections of these forms and explanations are set out hereunder.

1. *Export Licence and Application Form.*—Paragraph 7 will in future read "Value of the Goods."

By value of the goods will be meant the net proceeds of the sale of the goods to the purchaser abroad. The net proceeds correspond to the amount of sterling or currency eventually repatriated. Bankers receiving the proceeds certify the amount received on page 3 of N.C.D. 3 Form.

2. *N.C.D. 3 Form.*—Paragraph 4 "Amount to be received in payment, stating in what currency."

The amount to be received in payment will be the net proceeds of the sale of the goods to the purchaser abroad. The amount will be shown either in sterling or in the currency of the country to which the export has taken place.

If the shipper is the agent of his own firm or subsidiary company in the United Kingdom or is the agent of the principal in the United Kingdom he will nevertheless be responsible for completing in paragraph 4 the net amount of the proceeds which will be received by his principal.

Form N.C.D. 3 complete will in future be lodged with Customs at the same time as the exporter lodges the Export Bill of Entry. The N.C.D. 3 Form should be pinned to the Export Bill of Entry. Customs will in future retain both pages 1 and 3 of the form and forward them to the Nigerian Exchange Control. Page 3 will be returned by the Nigerian Exchange Control direct to the exporter. The exporter will then be required to lodge page 3 complete as to bank certificate within six months.

3. *Export Bill of Entry.*—Value f.o.b. The value of the exports will be the cost of the goods to the purchaser abroad, including export duties, handling and all other relative charges, up to the time of their delivery on board the exporting vessel.

In the case of sales to the purchaser on an f.o.b. basis the value of the exports should not be less than the net proceeds to be repatriated as shown in paragraph 4 of the N.C.D. 3 Form.

Where the goods have been sold to the buyer on a c.i.f. basis the proceeds which will be repatriated as shown in paragraph 4 of the N.C.D. 3 Form will be greater than the f.o.b. value of the export. To arrive at the f.o.b. value it will be necessary to deduct the cost of freight and insurance from the c.i.f. proceeds.

Where the shipper is the agent of his own firm or subsidiary company in the United Kingdom or is the agent of the principal in the United Kingdom he will nevertheless be required to compute the value f.o.b. on the basis on which the goods have been purchased by the buyer in the country to which the goods have been exported.

By Command,
J. J. THORBURN,
Colonial Secretary.

Colonial Secretary's Office,
Lagos, 18th January, 1907.

Piassava is made from the outside skin or bark of the Mimbo or Timbo palm. After the tree has been exhausted of its yield of Mimbo it is left for some three or four weeks, during which period the outer skin or bark, owing to natural decomposition parts from the vegetable-like stem of the palm, and turns a deep shade of brown. It is allowed to putrify when the tree is cut down and the manufacture of the Piassava proceeded with. Each tree only yields one layer of this fibrous bark, the stem inside being composed of hard vegetable matter. When the bark has reached the proper stage it is put into water and left there for five or six days to further rot. It is taken out when the fibre is loose and falling away, when the next process is commenced and is very simple indeed.

Pieces of bark of a common cane are cut into strips, the ends niched with a matchet, converting it into a rough sort of comb, and the coarse brown fibre is taken a strand at a time and drawn through the clefts, the result being to clean the fibre from all the vegetable matter originally adhering to it leaving it clean and almost ready for commercial purposes. It is then placed out in the sun and most carefully and thoroughly dried. Very white fibre is useless and only the brown shades, from the light to the deep colour are used, the latter being the very best and containing all the strength and suppleness which makes Piassava such a valuable fibre.

When making, the important points to be observed are:—

That the Piassava is properly dried, otherwise it rots in transit, and next that all the very white fibre is discarded, otherwise the market price is affected.

It is prepared for shipment in bundles of about five feet in length each a hundredweight. The bundle is made in a rough skeleton frame being bound together with 2 ply United Kingdom cord, while around the centre is sewn a piece of hessian on which the necessary marks for shipment are put.

Dear Sir,

I now send you the following information relating to (1) the larvæ, pupæ and moths from the Experimental Cotton Farm at Ibi, Muri Province, Northern Nigeria, which you forwarded with your letter dated the 23rd December 1910, and (2) the fly hatched out from the pupa of one of the same moths, received with your letter of the 7th January 1911.

The moths have been identified at the Natural History Museum as *Sylepta derogata* Fabr. belonging to the family *Pyralidae* and sub-family *Pyraustinae*. They have a very wide habitat extending from West Africa throughout Asia to Australia. The pest is well known in India, where it is termed the "cotton leaf roller," and some times does considerable damage, especially to young plants. The insect feeds on various plants chiefly of the order Malvaceæ, such as cotton, *Hibiscus* sp. *Urena lobata*, and the hollyhock (*Althæa rosa*).

In India, the period of hibernation is commonly passed by insect as a resting larva rather than as a pupa. The pest can be checked by destroying the resting larvæ between the end of one season and the beginning of the next by ploughing the land after the crop has been collected and before the moths emerge. Comparatively few individuals survive the period of rest and waiting, and hence the number of moths at first is very small.

The most effective method of treating the pest therefore, is to collect and destroy every rolled leaf with its caterpillar as soon as it is seen, from the beginning of the season. When a crop becomes badly attacked, the best mode of treatment is to apply Paris green or lead arsenate which may either be sprayed on to the plants or dusted on dry.

A full account of the habits and life-history of the pest is given by Maxwell-Lefroy in "Memoirs of the Department of Agriculture in India, Entomological Series, Vol. II, No. 6."

The second specimen, the fly, has been identified as one of the parasitic Hymenoptera of the family Ichneumonidæ, genus Xanthopimpla. It is at present impossible to determine the species.

Very little is known as to the particular insects attacked by the numerous species of the parasitic *Hymenoptera* in the tropics, but it is quite likely that *Sylepta derogata* is among the normal hosts of this species of Xanthopimpla.

I am,
Yours faithfully,
(Sgd.) WYNDHAM R. DUNSTAN.

EXTRACT FROM ANNUAL REPORT AGRICULTURAL DEPARTMENT BRITISH EAST AFRICA FOR 1909-1910.

THE method of tapping Ceara trees in British East Africa is briefly, as follows:—The loose bits of bark or other material on the trunks of

is found to be crude carbolic acid diluted to about 3% its bulk with water. The solution is rubbed on to a section of the trunk of the tree, as high up as the operator can reach, and immediately incisions are made in the bark at distances of from four to six inches apart. The implement most frequently used is an ordinary table knife having a sharp thin end. The latex quickly coagulates and is then either collected in balls, or wound round a stick like a rolling pin from which it is removed with a knife and has then the form of a fairly thin sheet. The rubber is washed in water to remove impurities and then placed in a cool airy place away from the sun to dry. It is much improved by being passed through a washing or "creping" machine and rubber growers in the Protectorate are now considering the importation of such machines.

Acting Chief Secretary.

Chief Secretary's Office,
Zungeru, Northern Nigeria,
30th April, 1912.

216 Post Office Notices.

FROM time to time complaints are received from persons who have lost money, usually in the form of Postal Orders, during its transmission by post. As, in nearly every case, it transpires that had proper precautions been taken, the loss would probably not have occurred, officials and others sending money through the post should bear the following in mind:—

Money may be forwarded in two ways—

1. By Postal Order.
2. By Money Order.

Postal Orders—Should wherever possible contain both the name of the person to whom they are payable and the name of the office of payment. If the name of the office of payment be inserted, the risk of loss by theft is reduced to a minimum. Counterfoils should always be retained by the sender. Inability to quote the number of an Order renders it difficult, if not impossible, to make any useful enquiry regarding its disposal.

Money Orders—Involve slightly more trouble than Postal Orders but they are much safer, the possibility of loss in the Post being practically nil.

W. HUDSON,
Acting Postmaster General.

General Post Office,
Zungeru, 4th April, 1912.

engine failures or persons dying in railway limits from natural causes.

3. (*a*) It is the duty of every Railway servant to report to the nearest Station Master with as little delay as possible any accidents which may come to his notice.

(*b*) The Station Master will at once transmit these particulars by telegram to the nearest European Traffic Officer.

(*c*) The Traffic Officer thus receiving the report will, in the case of Class (A) accidents, at once send copy of the report to the General Manager, the Superintending Engineer, the Traffic Superintendent, the Locomotive Superintendent, and all officials mentioned in the working Time Table, also, in the case of fatal, accidents only, to the Political Officer in charge of the District in which the accident occurred and the Police Officer. The Medical Officer should be informed immediately of any serious injury to person.

(*d*) He will also arrange, in consultation with the Shed Foreman, for the departure of the breakdown and relief trains, and will if necessary intimate the time of departure of such train to the Political Police and Medical Officers concerned. It will be the first duty of railway officers to proceed at once to the scene of the accident, do what is necessary to assist the injured (if any) and to re-establish communication. A Medical Officer should accompany the relief train, or, if this not possible every effort should be made to convey him to the scene of accident as soon as possible. In the case of Class (B) accidents he will only transmit (by telegram) copy of the report to the Railway Officials enumerated in the Working Time Table.

(*e*) On receipt of the telegram intimating Class (A) accidents and in the event of a joint enquiry being held, it will be the duty of the Traffic Superintendent to give intimation to all officers concerned, including the Political and Police Officers of the

particulars in the case of loss of life, or injury, of the names of those killed and injured, and also appendices giving damage to permanent way, track or bridges and to locomotives and rolling stock, with the approximate cost of damage in each case.

7. In the case of serious train accidents involving loss of life, serious injury to person or serious damage to property, a copy of the findings of the Committee with remarks by the General Manager and by Heads of Departments will be forwarded to Government for information and any further action it may wish to take.

Director of Railways.

in the laboratory or on a larger scale elsewhere, does not encourage belief that the employment of the bacillus he describes is likely to be of material service in setting up among rats a disease that will lead to their extermination. To effect this object it is necessary that the bacillus employed should retain a fatal degree of virulence throughout a considerable series of transferences from rat to rat. M. Danysz recognises that his bacillus does not fulfil this condition; and attempts to meet the difficulty by the renewal, at intervals of 10 days, of the stock of infective matter laid out for rats to feed upon. Unfortunately, the migratory habits of rats are believed to lead to their leaving a neighbourhood in which serious mortality has appeared among their comrades. In such cases the epidemic would rapidly exhaust itself owing to the tendency of the bacillus to lose its virulence at an early stage in its transference from the body of rat to rat. The application of the method, therefore, to a locality in which Plague had broken out, might only lead to the migration to localities as yet uninfected, of rats which might carry with them to these localities the infection of Plague itself.

In any more general endeavour, however, to exterminate rats in localities free from Plague, the risk referred to would not exist; and it is possible that, with careful attention to the precautions insisted on by M. Danysz, considerable destruction of rats might be brought about if neighbouring localities were to combine in simultaneous conduction of the experiment. It is, however, doubtful whether complete extermination of rats would be attained. In M. Danysz's sewer experiment, eight rats out of 200 remained alive on the 18th day after introduction of the first batch of infective material into the sewer; and this notwithstanding introduction of fresh material on the 8th day. Nor does it seem safe to assume that 192 rats perished in the course of the experiment, inasmuch as the eight that remained alive effected their escape, owing to negligence of the custodian. If therefore there was other negligence (unknown to M. Danysz) more rats may have escaped: for only 80 dead bodies of rats were discovered in the sewer, owing perhaps in part, but it may be not entirely, to survivors having eaten those that had succumbed. Be this as it may it would seem that some rats display a considerable degree of immunity to the bacillus; and it is to meet this difficulty that M. Danysz advises resort to his method especially in the breeding seasons, since young rats are more susceptible. Nevertheless the actual difficulties experienced by M. Danysz, as well as by M. Abel (as quoted), indicate that, although the method may not be without value, it cannot be as yet regarded as likely to ensure extermination of rats.

CIRCULAR.

DOWNING STREET.
30th October, 1900.

SIR,

In continuation of my Circular Despatches of the 15th February, 1st May, and 2nd September, 1899, I have the honour to inform you that the Government of New Zealand has decided to adopt the Imperial Penny Postage scheme for letters from the 1st January, 1901.

I have also to state that the New Zealand Government has expressed a desire to enter into a similar arrangement with any British Possession which may not as yet have joined the penny postage scheme.

I have the honour to be,
SIR,
Your most obedient, humble Servant,
J. CHAMBERLAIN.

The Officer Administering
the Government of Southern Nigeria.

MISCELLANEOUS.

probably all cases, may be prevented, by preventing oneself from being bitten by an infected anopheles.

Prevention may be secured—

1. By avoiding all bites of mosquitos.
   - A. By living in rooms to which the entrance of mosquitos is completely shut off by thin meshed gauzes to windows, doors, &c.
   - B. By sleeping under adequate mosquito curtains—the anopheles generally bites in the night or evening.
2. By avoiding sleeping or living near native huts in regions favourable for malaria. Although the natives become acclimatised to the disease as they grow up, and the adults do not suffer from malaria, the organism is very frequent in the blood of native children, and anopheles in or near native huts are very commonly infected. Hence anyone who sleeps in or even near native quarters runs the risk of being bitten by an infected anopheles and of catching malaria.
3. By preventing malarious persons from being bitten by mosquitos. A non-infected anopheles is harmless; it is only when it has fed on blood of a malarious person that it can propagate malaria.

The above are the most important means of prevention, but much may be done by diminishing the number of anopheles. These very frequently breed in small pools, and puddles of water on the ground—puddles mostly of a fairly permanent description, kept filled by the rain and not liable to scouring out during heavy showers. Hence, if these pools are filled up or otherwise abolished, the number of anopheles may be largely diminished, and the chance of infection correspondingly lessened.

The increase of anopheles is also diminished by pouring kerosene, &c., on their breeding pools.

These measures should not be neglected, but the most important steps are:—

1. To avoid sleeping or living near native huts or other haunts of malaria-infected anopheles.
2. To avoid being bitten by infected mosquitos, which is best effected by avoiding all mosquito bites.

ANNUAL REPORT ON THE POSTAL AND TELEGRAPH DEPARTMENT FOR THE YEAR 1903.

I have the honour to submit the Annual Report on the working of the Post and Telegraph Department for the year 1903 with Tables A, B 1, 2; C, D, E.

2. *Offices.*—The number of offices was not increased during the year.

3. It was arranged for stamps to be sold by the District Commissioners at Bende and Afikpo for the convenience of traders who are not near a Post Office or Postal Agency.

4. *Statistics.*—The total number of letters, post-cards, book and sample packets dealt with during the year throughout the Protectorate was 742,034 as compared with 553,909 in the previous year, shewing a marked increase of 188,125 during the year.

1901	494,325
1902	553,909
1903	742,034

5. *Parcel Post.*—The number of parcels dealt with amounted to 13,718, shewing an increase of 2,600 over the year 1902, and 4,404 over 1901.

1901	9,314
1902	11,118
1903	13,718

The value of imports by parcel post was—

1902	£4,042
1903	5,206

or an increase of £1,164 on which was collected duty during—

1902	£366
1903	474

shewing that the advantages of the Parcel Post System are gradually being appreciated by the Public.

6. *Money Order.*—The Money Order transactions continued to improve over previous year, there being an increase of £6,121 in issues, but a decrease of £67 in receipts, due to the decreases in receipts from Stamp Collectors. *Vide* Tables C and E. The following shews the increase in comparison with the years 1901, 1902, and 1903.

	1901	1902	1903
Issues ...	£21,089	£22,948	£29,069
Receipts..	2,124	3,226	3,159

From Table E it will be observed that the increases in issues have been principally to the United Kingdom (£2,232,) and the West African Colonies (£3,369).

Table C shews the increases and decreases at the various stations in the Protectorate.

7. *Registration.*—On reference to Table D it will be found that the number of registered letters received and despatched continued to shew a steady increase; especially is this the case with letters despatched which shew an increase of 4,172 over the year 1902, or more than double the increase in number despatched in 1902 over 1901.

8. *Revenue.*—The Postal Revenue of £4,605 9s. 3½d. was made up as under:—

	£	s.	d.
Sale of Stamps	4,189	15	2½
Taxed Correspondence ...	15	15	9
Money Order Commissions	370	16	0
Void Money Orders ...	18	13	4
Express Delivery of Telegrams	1	13	3
Postage and Official paid Correspondence ...	8	15	9
	£4,605	9	3½

9. On reference to Table D it will be observed that the revenue derived from the sale of stamps was less than during the year 1902, there being a decrease of £338, although it was more than in the year 1901; this decrease is due to the abnormal sale of Southern Nigeria Queens Head issue during the year 1902 to Stamp Collectors.

10. If the amount received from Stamp Collectors for the years 1902 and 1903 is eliminated, it will be found that there was an increase of £1,200 in stamps sold to the general public. I have already remarked on the increase of the Money Order transactions under the head of Money Orders.

The other sources of revenue call for no special remark. There was a total decrease in revenue of £240 17s. 1½d. in comparison with the year 1902.

11. *Inter-Protectorate Mail Services.*—These mail services by launch, canoe, and runners were not increased in number, but were improved by more runners being employed during the year. They work satisfactorily and are greatly appreciated.

12. *Postal Union.*—The Protectorate was included in the Postal Union during the year.

13. *Insurance.*—The insurance of letters up to a maximum of £60 was inaugurated during the year.

14. *Telegraph.*—During the year the Telegraph line was under construction between Bonny, Egwanga, Eket, and Old Calabar.

15. *Staff.*—There was an increase in staff due to the employment of a Telegraph Superintendent and of five Telegraph Operators.

16. I consider that it is absolutely necessary that an Inspector should be appointed to travel between the different Post Offices throughout the Protectorate.

17. All Postal Clerks are expected to become telegraph operators so as to make them more useful to the Department.

18. I should like to record the zealous manner in which I have been assisted by Mr. King during the year under review.

PROTECTORATE OF SOUTHERN NIGERIA.

Vol. VI. CALABAR, FRIDAY, SEPTEMBER 15, 1905. No. 28.

THE SECRETARY'S OFFICE,
CALABAR.
15th September, 1905.

The following Circular Despatches from the Secretary of State are published for general information.

By Order.
H. BEDWELL.
Acting Secretary.

CIRCULAR.

DOWNING STREET,
11th July, 1905.

SIR,

With reference to my Circular of the 29th April last respecting the authority given to the Indian Government to sanction grants of the Indian Order of Merit in future without previous reference to the Colonial Governments concerned when the cost involved would be borne by Colonial funds, I have the honour to inform you that the Government of India has proposed that the Order of British India should similarly be granted without previous reference to this country, and that I have assented to the proposal so far as it may concern any Colony or Protectorate whose finances are under the control of His Majesty's Government.

The Order of British India was instituted as an award to Indian Native Officers for long and honourable service. I am informed however by the India Office that it is also conferred for excellent service in the field, and that their proposal refers only to such appointments; and I have to request that it may be noted that, in the event of Indian Native Officers being borrowed for service in the Colony under your Government, the Government of India will have authority to sanction the award of the Order, as in the case of the Order of Merit, at Colonial expense, without previous reference to this country or to the Colony.

I have the honour to be,
Sir,
Your most obedient, humble servant,
ALFRED LYTTELTON.

The Officer Administering
the Government of Southern Nigeria.

CIRCULAR.

DOWNING STREET,
17th July, 1905.

SIR,

In continuation of my predecessor's Circular despatches of the 20th of December, 1898, 15th February, 1st May, and 2nd of September, 1899, 30th of October and 29th of November, 1900, and the 28th of April, 1902, respecting the adoption of the Imperial penny postage scheme by certain colonies, I have the honour to inform you that an arrangement has been concluded with the Government of Australia, under which the Commonwealth Postal Administration will admit without surcharge letters posted in the United Kingdom or any British Colony or Possession, postage on which has been prepaid at the rate of 1d. per half ounce. The arrangement applies equally to British New Guinea, Lord Howe Island and Norfolk Island.

This reduction will not, however, at present apply to letters from Australia, postage on which to any part of the Empire will be at the rate of 2d. per half ounce.

I have the honour to be,
Sir,
Your most obedient, humble Servant,
ALFRED LYTTELTON.

The Officer Administering
the Government of Southern Nigeria.

No. 385.] The following Report on Barrel Transport from the Government of Sierra Leone is published for general information.

By Command.

W. FOSBERY,
Acting Colonial Secretary.

Colonial Secretary's Office,
Lagos, 12th September, 1906.

REPORT ON STEEL BARREL ROLLERS.

The above Barrels have now been in use since March 24th. Two of the largest of these barrels have each traversed a hundred miles of road, along fifty of which they have each conveyed over ten tons of cement; they have required no repairs and as far as one can judge are still as good as new.

The largest barrels hold 1,600 lbs of cement or 680 lbs. of kernels (136 lbs. equal a bushel of raw kernels). Ten men can pull a barrel loaded with cement and four men a barrel loaded with kernels. Yesterday afternoon five men who had already helped to bring a barrel of cement 3½ miles and returned with the empty barrel to Bullom, brought the same barrel back again loaded with kernels the 3½ miles in 2 hours 25 minutes, they were neither tired nor heated and said that they would have come much quicker only the kneels in the "harness" hurt them, and the ruts and holes in the road "handicapped" the barrel. This morning four of those men took the barrel of kernels back to Bullom in 2 hours and 20 minutes. Before they started I adjusted and padded the harness. On arriving at Bullom they were neither blown nor tired, and I asked each man separately whether he would rather pull the barrel or tote a hundred pounds of kernels on his back? they were all clamorously unanimous in favour of the barrel, and seemed amused at my asking such a ridiculous question. These men have been toting cement in the barrel for the past month and have learnt the value of it as a means of easy transport, but they had not tried the harness before, which at the lowest estimate gives a man 50 per cent. more pulling power; up hill they can keep a steady even pace, whereas without the harness they slip and walk backwards to pull as in a tug of war, and they frequently have to stop and rest.

On a properly graded and finished road I estimate that 8 men with harness could easily pull a barrel of cement along at a rate of two miles an hour, and four men a barrel of kernels at a similar rate.

The 31 miles of road used for the above experiment is only levelled in places, three miles being only cleared and grubbed and hills levelled off portions are on sidelong ground, and where stumps have been removed the recent rains have made large shallow holes and there are frequent short little grades of 1 inch.

The four men who pulled the barrel of kernels were arranged as follows:—

One man with handle to guide and also to pull when necessary; one man on each side, each with a rope to his waist pulling both from his neck and waist and also with a rope over his shoulder; and a fourth man behind to help to push the barrel up extra steep grades and to change about with the man with the handle. The harness should be padded on the back of the neck and where the straps cross at the waist, epaulettes should also be attached to the neck strap. The four men who pulled the barrel were rather below the average both in weight and strength.

(Sgd.) WALTER E. MAY.

Sierra Leone,
6th May, 1906.

Extract from "The Agricultural News" of The West Indies, Volume V, No. 114, page 277.

COPRA.

There are upwards of sixty varieties of cocoa-nuts known, and care should be taken to select those which bear fruit in the greatest number, and of the best oil-producing quality. They should be planted about 25 to 33 feet apart, and where the climate is at all dry, should be sunk in pits 3 or 4 feet deep, which will serve to retain the moisture. Some 5,000 to 10,000 nuts, according to the size, are requisite for the production of 1 ton of copra. It is calculated in the South Pacific that a cocoa-nut palm in full bearing is worth about 4s. per year. This would give a return of about £14 per acre.

an intimate mixture of calcium carbonate and clay with a small proportion of sandy material. The sand was mainly quartz grains but some felspar grains were also present.

RESULTS OF EXAMINATION.

The following are the results of the analysis of a representative portion of the sample:—

Silica	SiO_2	15.14	per cent.
Alumina	Al_2O_3	0.52	"
Ferric Oxide	Fe_2O_3	2.01	"

The Limestone has a composition intermediate between those of "hydraulic limestone" and natural cement material, as is shown by a comparison of the above figures with the following analyses:

		Hydraulic limestone From Teil, France.	Natural cement material from Septeria, Sheppey, England.

IMPERIAL INSTITUTE,
(South Kensington, London, S.W.,)

REPORT ON LIMESTONE FROM ILORIN, SOUTHERN NIGERIA,

BY

PROFESSOR WYNDHAM R. DUNSTAN, M.A., F.R.S. (DIRECTOR).

A Sample of this limestone was forwarded to the Imperial Institute by the Governor of Southern Nigeria with a letter No. 13, dated the 20th September, 1906, in which it was requested that the suitability of the material for the preparation of lime for building purposes might be ascertained.

A copy of a report by the Engineer in charge of the Lagos Railway, Ilorin Extension (Survey), was enclosed which stated that deposits of this limestone occur at various points between miles 112 and 123 upon the proposed line of Railway between Oshogbo and Ilorin.

DESCRIPTION OF SAMPLE.

The sample consisted of a number of irregular concretions, somewhat porous, but on the whole very compact and tough. It appeared to consist of

Water	H_2O	—	1.30

TECHNICAL TRIALS.

In order to determine the suitability of this material for making mortar and cement the following trials were made.

A sample was burnt at a full red heat (about 1,100°C).

The resulting quicklime slaked well and developed much heat.

A test block made from the slaked material set fairly rapidly, after the manner of hydraulic lime. After being left for three days in a moist atmosphere the block was sufficiently hard to be placed in water and after 11 days immersion it was tested and found to break at a pressure of 60 lb. to the square inch. A hydraulic lime of slightly higher tensile strength could probably be obtained by heating the crude material to a somewhat higher temperature than 1,100°C. The block had a smooth white surface and the lime would therefore be quite suitable for use as a cementing material for building stone.

A mortar made from a mixture of one part of the slaked lime with three of quartz sand was treated in the same way as the above but the block obtained in this case was rough and porous and broke under a stress of 7 lb. to the square inch. The best results as mortar will probably be obtained by using the lime alone or with only a small proportion of sand.

The sample was not large enough to enable full tests of its cement making properties to be made, but a small powdered sample heated to 1,500°C gave a cement clinker which appeared to be of normal quality.

It is probable that on burning on a large scale especially if the temperature be high, two products will be obtained (1) hydraulic lime, (2) a clinker having the properties of a cement. The latter would be classed as 'grappier' cement, which would have to be ground to a fine powder for use.

4. Vessels entering should round this buoy on their port hand, and steer a course for the boat houses on the main land beach, and a good leading mark will be found by keeping the small Mission House half way up the hill in a line between the two boat houses but a little to the Southward.

After steering this course until arriving to within 3 ship's length of the boat houses a course should be steered for Oron, ample water being found close to main land shore.

5. The anchorage will be off the German Factory where there is plenty of water for ships to swing to their anchor.

6. I have found another channel by crossing straight over to main land from the South end of Parrot Island and I have also marked this channel with a beacon and buoy but do not recommend it whilst the Oron Crossing is open.

7. I proceeded to Oron on the 19th inst. in the German Steamer "Paul Woermann" to verify some bearings and crossed the shallows with a minimum depth of 15½ feet one hour before H. W. This Steamer took in 80 tons cargo from the German Factory and left the next day drawing 14.3 feet and crossed a little after half tide.

SUPPLEMENT
TO
GAZETTE No. 72 OF 18th DECEMBER, 1907.

Post Office Annual Report for the Year, 1906.

No. 339/1096/1907.

GENERAL POST OFFICE,
LAGOS, SOUTHERN NIGERIA,
1st August, 1907.

SIR,

I have the honour to submit my Annual Report on the Postal Department of this Colony and Protectorate for the Year ended 31st December, 1906.

REVENUE.

It is satisfactory to note that there has been a considerable increase in revenue, the amount collected during the year being £13,616 2s. 3d. as compared with £10,561 19s. 1d. collected in the preceding year.

Appendix "A" furnishes a detailed statement of the revenue collected at the various stations and the amounts collected under the several heads of revenue during 1905 are also given.

There are increases recorded under all the principal heads of revenue, "Lapsed Money Orders," "Sale of Postal Notices," and "Rent of Letter Boxes" showing small and unimportant decreases. The increase of £2,052 11s. 2d. in sales of postage stamps is undoubtedly due to a great extent to the general increase in Postal business, but the fact that Customs duties on articles imported through Parcels Post were from the 1st May collected by means of postage stamps must be taken into account.

Similarly postage stamps have to some extent been used for Telegraphic and Judicial purposes, but in the absence of accurate and reliable returns of the amount to be so accounted for, I am unable to state the actual revenue derived from sale of stamps for postal purposes only. I am however taking steps to enable me to supply this information in future reports.

EXPENDITURE.

The total expenditure recorded during the year under review was £13,483 14s., but these figures must be taken as approximate.

From the 1st January to 30th April, the Post and Telegraph Departments were under one head, and a portion of Telegraph expenditure under item "Personal Emoluments" appears to have been included and on this account it is not possible to furnish a comparative statement of the expenditure with that of previous years.

POSTAL MATTER DESPATCHED AND RECEIVED.

Appendix "B" furnishes a statement of the estimated number of Letters, Post-cards Newspapers, Book Packets and Parcels dealt with during the year.

Appendix "C" furnishes a comparative statement of Postal Matter received and despatched from and to the United Kingdom, West African Colonies and Internal Offices during the last five years and from which it will be observed that the number of articles of all descriptions passing through the Post Office continues to increase.

ORDINARY CORRESPONDENCE.

It is estimated that the total number of ordinary Letters, Post-cards, Newspapers and Book Packets dealt with during the year was 1,701,466 being 214,711 in excess of the number dealt with in the previous year.

REGISTERED CORRESPONDENCE.

In this branch, there is a large increase recorded, 90,501 registered letters and other articles having passed through the Post Office as compared with 69,642 in 1905. There is an increase thus shown of 20,859.

The system of insuring letters has never been used by the public to any great extent and in the year under review the number of letters insured was 21 less than in 1905. The totals for the years 1905 and 1906 are 101 and 80 respectively.

This decrease may be attributed to the confidence reposed by the public in the registration system, the loss of a registered article being of rare occurrence.

RETURNED LETTERS.

The work of this branch is assuming large dimensions and it now claims a considerable portion of a senior clerk's time.

The total number of letters and other articles dealt with by the Returned Letter Office was 6,340. Of these 580 were registered some of which contained cash, money orders and drafts to the extent of £43 and which in each case was returned to the senders. Postage Stamps in many cases were found enclosed in letters and were likewise returned.

RATE OF POSTAGE ON INTERNAL LETTERS.

The following rate of postage on Internal Letters was adopted during the year:—
1d. per ounce or part thereof. This had been the rate previously in force in Southern Nigeria, but the Lagos rate was 1d. per ½oz.

PARCEL POST.

The facilities afforded for importing articles through the parcels post appear to be fully appreciated and the system is largely used by both Europeans and Natives.

Appendix "C" furnishes a comparative statement of parcels received and despatched from and to the United Kingdom, West African Colonies and Internal Offices during the last five years, from which it will be gathered that the business of this branch continues to steadily increase.

The total number of parcels dealt with during the years 1905 and 1906 is as under:—

In 1905	31,048
In 1906	35,636
Increase in 1906	4,588

The system of insurance of valuable parcels was taken advantage of in 2,308 cases during the year.

The following rates of postage on internal parcels were adopted during the year:—

Not exceeding 3lb.	4d.
Exceeding 3lb. and not exceeding 7lb.	8d.
" 7lb. " " 11lb.	1s.

Previously the rates were 3d. per pound or part thereof.

MONEY ORDERS.

Two new Money Order Offices were opened during the year at Ibadan and Jebu Ode respectively.

Appendix "D" furnishes a statement of Money Orders issued and received in 1906 and in the preceding year, the transactions of each Province being shewn separately.

The total value of Money Orders issued in 1906 exceeded that of the previous year by £2,586 14s. 10d. and the value of Orders received was £2,395 3s. 2d. in excess of 1905.

Appendix "E" furnishes a comparative statement of Money Order business transacted with the United Kingdom, West African Colonies and Internal Offices during the last five years and a comparative statement of Money Order transactions at each Office during the past five years is shewn in Appendix "F."

The transactions between this Colony and Protectorate and the United Kingdom amounted to £2,735 14s. 1d. less than in the preceding year, but this is more than accounted for by the large increase of £3,623 18s. 0d. in the value of Postal Orders sold, the latter being now more generally used than Money Orders for remitting small amounts.

The decrease of £9,573 4s. 9d. shewn in the value of transactions with West African Colonies is due to all Offices in the Central and Eastern Provinces now being treated as Internal Offices and a corresponding increase is shewn in the value of transactions with Internal Offices.

It is satisfactory however to note that notwithstanding the fact that £3,623 18s. had been diverted from the Money Order to the Postal Order system, there is still a total increase of £4,979 18s. in Money Order transactions.

POSTAL ORDERS.

The Postal Order system which had been introduced in the Western Province in March, 1905, had not been used by the public to the extent anticipated and this was probably due to the fact that the rate of commission on Money Orders was lower than the poundage on Postal Orders. An increased rate of commission on Money Orders was approved and steps were taken to bring the facilities afforded for remitting small sums by means of Postal Orders more prominently to the notice of the public, with the result that the sales during the latter half of the year realized £3,111 7s. 4d. as compared with £1,577 6s. 2d. sold during the first six months.

Appendix "G" shows the number and value of Postal Orders sold and paid during the years 1905 and 1906. The value of those sold in 1906 amounted to £4,688 13s. 6d. as compared with £1,064 1os. 6d. in the preceding year. The value of Postal Orders paid in 1906 amounted to £972 5s. as compared with £382 18s. 4d in the previous year.

MAIL SERVICES.

The Inland Mail Services continue to work satisfactorily and during the year new services between the following places have been established:—

Itu—Aka	Weekly services, performed by canoes and runners.
Itu—Ikot-Ekpene	
Ikot-Ekpene—Uyo	
Sapele—Kwale	Weekly services, performed by runners.
Benin City—Ifon	
Benin City—Agbor	

The following services formerly performed by canoes have during the year been replaced by launch services:—

Bonny to Akassa,
Bonny to Degema, *via* Bakana.

A Weekly Mail Service between the Eastern and Western Provinces is greatly needed and I hope that in the near future it may be possible to provide for such a service, which would I am sure be appreciated by all classes of the community.

The regular Ocean Mail Service performed by the ships of Messrs. Elder Dempster & Co., both outwards and homewards has been well maintained during the year and greater punctuality in the arrival of the outward mail steamers has been observed than in previous years.

STAFF.

On the 1st May, 1906, the Amalgamation of the Colony of Lagos and the Protectorate of Southern Nigeria was effected and the Administrative Staff of this Department was transferred from Calabar to Lagos, the latter having been made Headquarters of the new Administration.

On the 14th May, I was appointed Postmaster-General of the Colony and Protectorate and assumed my duties on that date.

On the 28th October, I left the Colony on leave and handed over temporarily to Mr. Finch, Deputy Director of Telegraphs. Mr. T. F. Burrowes, Provincial Collector of Customs, assumed control of the Department on 8th November and continued to act as Postmaster-General until the 8th April, 1907, when I returned to the Colony.

Consequent on the transfer *en masse* of all Postal Records and Accounts, the work of the Department was for a time somewhat dislocated and fell into arrear, but by the end of the year order had been restored and the business of the Department was being satisfactorily conducted. I am pleased to add that the members of the Administrative Staff worked willingly and well both during and out of Official hours in order to bring the work up to date.

The Native Staff consisted of 42 Clerks, 4 Learners, 12 Postmen, 5 Messengers, 2 Mail Guards and 5 Labourers. The duties of Postmasters at the various stations were performed by 19 of these Clerks.

The lack of efficiency shewn by many members of the Native Staff is to be regretted and tends to impede the progress of the Department. It is difficult to get Officers to realize that Post Offices are established for the convenience of the public and not merely as a means of providing a livelihood for certain individuals. The duties of the Post Office are undoubtedly more arduous than those of other Departments, the staff being frequently required to work during unofficial hours and also on Saturday afternoons and Sundays, and for these reasons perhaps, the better and more intelligent class of men do not care to accept appointments in this Department.

In the Central and Eastern Provinces, Officers were paid extra for working overtime and provision has been made for this system to be extended to the Western Province from the commencement of 1907. It is hoped that this may to some extent tend to attract a more desirable class of applicants when vacancies occur.

I have the honour to be,
Sir,
Your obedient Servant,
P. L. H. ARCHER,
Postmaster-General.

THE HONOURABLE
THE COLONIAL SECRETARY,
LAGOS.

THE COLONIAL POSTMASTER UNDER SECTION 21 OF THE POST OFFICE ORDINANCE.

[*Statute Laws Revision Ordinance 1908, First Schedule, Chapter CXXIV.*]

Approved by the Governor in Council on the 14th day of July, 1908.

I.—INLAND CORRESPONDENCE.

1. The term "Inland Correspondence" means correspondence posted within the Colony and Protectorate of Southern Nigeria and addressed to some place in the Colony and Protectorate of Southern Nigeria.

Inland Correspondence is divided into the following classes:—

(*b*) Post-cards.
(*c*) Printed Papers and Book Packets (including newspapers).
(*d*) Parcels.

A.—LETTER POST.

2. The prepaid rate of postage is as follows:—

Not exceeding 1 oz. in weight ... 1d.

A letter posted unpaid is chargeable on delivery with double postage; a letter insufficiently paid, with double the deficiency.

No letter may exceed two feet in length, one foot in width, or one foot in depth.

B.—POST-CARDS.

3. The prepaid rate of postage on every post-card is one half-penny, and on every reply post-card one penny. A Post-card posted unpaid is chargeable on delivery with a postage of one penny.

4. Cards used as post-cards must be made of ordinary cardboard, not thicker than the material used for the thickest official post-card, and not thinner than the material used for the thinnest. They may not exceed 5½ inches in length by 3½ inches in width, or be less than 4 inches in length by 2¾ inches in width.

5. Nothing may be attached to a post-card except:—

(*a*) Stamps in payment of postage or stamp duty;
(*b*) A gummed label (not to exceed 2 inches long and ¾ inch wide), bearing the name and address of the person to whom the card is sent;

(*c*) A similar label bearing the name and address of the sender of the card; and
(*d*) Engravings, illustrations, drawings, and photographs, on very thin paper and completely adherent to the card.

6. The articles specified in paragraphs (*c*) and (*d*) may be affixed either to the back of the card or to the left hand half of the address side. The right hand half of the address side is reserved exclusively for the postage stamp and the address.

7. A post-card may not be folded, nor may it be cut or altered in such a way as to reduce the size below 4 by 2¾ inches.

A post-card may not be fastened against inspection in any way, or enclosed in a cover of any kind.

A packet posted without a cover may not be fastened or otherwise treated so as to prevent easy examination.
(*e*) No Printed Paper or Book packet may contain or bear any communication in the nature of a letter not expressly allowed by these rules.

Foreign and Colonial Post—Re-direction

Parcels.

(i)—ORDINARY CORRESPONDENCE.

(*a*) No additional postage will be charged upon ordinary correspondence if re-posted not later than the day after delivery.

(*b*) This principle however does not exempt from additional postage correspondence which, though fully prepaid for the first transmission, is re-directed to a country to which *the postage is higher than that originally prepaid.*

(ii) REGISTERED CORRESPONDENCE.

(*a*) Registered letters or packets, on being re-directed, may not be dropped into a Letter Box, but must be taken to a Post Office to be dealt with as registered. No additional postage or registration fee will be charged upon them if the correspondence is presented for re-registration not later than the day after delivery; but if it is presented after that time, it will be treated as freshly posted, and fresh postage and registration fees will be payable.

(*b*) Correspondence either ordinary or registered which appears to have been opened and tampered with will be chargeable as freshly posted and unpaid.

(iii)—PARCELS.

117. Parcels arriving in this country and re-directed from one address to another in the Colony and Protectorate of Southern Nigeria are liable to additional postage at the Inland rate for each re-direction except where the original and second address are both within the delivery of the same Post Office and the re-direction is made within the period of free re-direction. A parcel will not, however, be delivered free of charge to a person who has previously refused to accept it and for re-direction from a Returned Letter Office a second postage is invariably charged.

118. In the case of parcels for Government Officers who have been removed from one Station to another in the Colony, no re-direction fee will be charged where such parcels are re-directed within two months of the date of such Officers leaving the station to which the parcels were originally addressed.

119. A parcel re-directed from one country to another is charged the full postage.

C.—UNDELIVERED PARCELS.

120. If a parcel addressed to a place abroad cannot be delivered the sender is advised, provided that his address is given on the parcel or on the forms prepared by him at the time of posting, and his instructions for the disposal of the parcel are then communicated to the Post Office at which the parcel is lying.

121. Parcels returned from one country to another incur fresh postage at the ordinary rates, and payment of the postage in advance may be required.

122. A parcel received from abroad which is unclaimed or cannot be delivered within 6 months of the date of its arrival is, unless of a perishable nature, either returned to the sender, if he so requests, or disposed of in such a manner as the Postmaster-General thinks fit.

Foreign and Colonial Post—Late Fees—Registration.

D.—LATE FEES.

123. Correspondence which is too late for the advertised time for the closing of a mail will be accepted under the following conditions:—

IN THE EASTERN AND CENTRAL PROVINCES.

(i) Ordinary Letters with a prepaid late fee of 1d. in addition to the ordinary postage will be accepted to within 45 minutes of the advertised time of the steamers departure.

(ii) Registered Letters with a prepaid fee of 4d., in addition to the ordinary postage and registration fee, will be accepted to within two hours of the advertised time of the steamers departure.

IN THE WESTERN PROVINCE.

(iii) Registered Letters with a prepaid late fee of 4d. in addition to the ordinary postage and registration fee, will be accepted *only at the General Post Office, Lagos*, during the hours of 4 to 6 p.m., on the advertised dates for the closing of mails by the regular mail steamers.

Note.—All late fee letters must be handed in over the counter of the Post Office and not posted in a letter box.

E.—POSTAL NOTICES.

124. The latest information in connection with the despatch and arrival of Foreign and Colonial mails, &c., will be regularly supplied to subscribers thereto.

125. The annual subscription payable in advance, is 6s. per annum or any part thereof. Subscriptions become due on 1st January in each year, and if not renewed within 15 days of that date the supply will be discontinued.

G.—SUPPLEMENTAL SERVICES.

A.—REGISTRATION.

126. Registration is applicable to all correspondence, except Parcels, subject to the limitations referred to in the Imperial Post Office Guide.

127. Parcels for places abroad cannot be registered, although in many cases they may be insured.

128. The fee chargeable for Registration to places abroad is 2d.

(i)—INDEMNITY FOR LOSS.

129. Except in cases beyond control (*e.g.*, tempest, shipwreck, earthquake, and war) the Postmaster-General undertakes to pay an indemnity of £2 or 50 francs when it is proved to his satisfaction that a letter or packet duly admitted to Registration has been entirely lost whilst in his custody.

(ii)—CONDITIONS OF REGISTRATION.

130. No article addressed to initials or in pencil is admitted to Registration.

131. Every letter presented for Registration must be enclosed in a strong envelope, securely fastened.

132. No registered article marked on the outside with the declared value of the contents may be sent to a country of the Postal Union unless it is insured and Postmasters are instructed to refuse to receive articles which are so marked.

133. Registered articles must be prepaid as regards both postage and registration fee.

134. Articles to be registered must be given to an officer of the Post Office, and a receipt obtained for them; they must on no account be dropped into a Letter Box.

(iii)—ACKNOWLEDGMENT OF DELIVERY.

135. The sender of registered or insured correspondence addressed to any Foreign Country or British Colony in the Postal Union, or of an insured parcel addressed to any place to which the insurance system extends, may obtain an acknowledgment of its delivery on application at the office of posting, either at the time of posting or subsequently. The fee is 2½d. which must be paid on application by stamps affixed by the sender to a form provided for the purpose. Inquiry as to the alleged loss or non-delivery of a registered or insured packet or insured parcel should also be accompanied by a fee of 2½d. and should, if possible, be made upon the form used in applying for an acknowledgment of delivery. If it is found that the postal service is in fault, the inquiry fee will be refunded.

B.—INSURANCE.

136. The insurance system applies to Akassa, Bonny, Brass, Calabar, Degema, Forcados, Idah, Ibadan, Lagos, Onitsha, Opobo, Sapele and Warri only.

137. The limits of insurance vary in the different countries and British Possessions; limits for which letters and parcels can be insured are shown in the Imperial Post Office Guide.

138. Subject to the foregoing paragraph, the maximum limit for which postal packets can be accepted in this country for insurance is £120, and the fees payable for insurance are 5d. for the first £12, and 2½d. for each succeeding £12, or part thereof where the packet is transmitted to the United Kingdom or the West African Colonies, but where postal packets are forwarded to the United Kingdom for transmission to other countries, a fresh insurance becomes payable for each transmission.

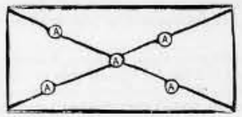

139. Insured letters and parcels have all the safeguards of the registration system; and subject to the following regulations, compensation will be paid if they or any of their contents are lost in the post.

140. The letters to which the insurance system is applicable are those which contain bank notes, bonds, coupons, securities and other documents of the kind. Post-cards, Packets of Printed Papers, or "Commercial Papers," Sample, Packets, or Letters which contain articles other than documents, cannot be insured.

141. Objects of value which cannot be sent in insured letters may, in most cases, be forwarded by Insured Parcel.

142. Letters intended for insurance must be presented at the counter of a Post Office. They must not be dropped into a Letter Box or handed to a Postman or Mail Guard. Insured letters must not be addressed to initials or in pencil.

143. Every letter tendered for insurance must be enclosed in a strong cover, which must be securely fastened and sealed with fine wax, in such a way that it cannot be opened without either breaking the seals or leaving obvious traces of violation. Envelopes with black or coloured borders must not be used. Seals must be placed over each flap or seam of the cover of a packet; and if the packet is tied round with string or tape, a seal must be placed on the ends where they are tied. The seals on an ordinary envelope should be placed as shewn below :—

144. All the seals on an insured letter or parcel must be of the same kind of wax (or lead in the case of parcels), and must bear distinct impressions of the same private device. Coins must not be used for sealing; and the device must not consist merely of straight, crossed, or curved lines which could readily be imitated.

145. Parcels containing coin or bullion (not to exceed £5 in value, except in the case of coins clearly intended for purposes of ornament), watches, jewellery, or any article of gold or silver, must be enclosed in strong boxes or cases, which must be sewn up, or otherwise fastened, in wrappers of linen, canvas, strong paper, or other substantial material. In such cases, the seals must be placed along the edges of each joint or loose flap at distances not more than three inches apart. The address of such parcels must be written on their actual covering.

146. If a letter or parcel tendered for insurance does not, in the opinion of the officer of the Post Office to whom it is tendered, fulfil the foregoing conditions as to packing and sealing, it is his duty to refuse to insure it. Nevertheless, the onus of properly enclosing, packing, and sealing the packet lies upon the sender; and the Post Office assumes no liability for loss arising from defects which may not be observed at the time of posting.

147. The amount for which a letter or parcel is insured must be written by the sender both in words and in figures at the top of the address side of the cover, thus:—"Insured for fifteen pounds (£15). No alteration or erasure of the inscription is allowed. If a mistake is made, the entry must be completely obliterated and an entirely new one made by the sender. The amount must also, in the case of a parcel, be entered on the despatch-note, if one is used. When the insured letter or parcel is addressed to a Foreign Country, the currency in which is different to that in Southern Nigeria, the amount for which it is insured must also be expressed in francs and centimes. This conversion must be effected by the Post Office.

148. No letter or parcel can be insured for more than its actual value, or for more than the sum entered in the Table of Rates against the name of the Country or Colony to which it is addressed referred to in the Imperial Post Office Guide. A letter or parcel, the contents of which have no saleable value may, however, be insured for a nominal sum in order to obtain the safeguards of the registration system. Over Insurance is an obstacle to compensation.

149. The fee must be prepaid, in addition to the full postage, by means of postage stamps, which the sender must affix to the cover. As

few stamps as possible should be used to prepay the postage and insurance fee. They must not be folded over the edge of the cover, and when more stamps than one are used, they must be affixed with spaces between them.

150. A certificate of posting must always be obtained by the sender, who may also obtain an acknowledgment of the delivery of a letter, on application at the office of posting, either at the time or subsequently.

151. Letters bearing on the outside a declaration of the value of the contents cannot be transmitted by post to places abroad unless they are insured.

152. Parcels containing Coin, Watches, Jewellery, or any article of gold or silver, unless insured for at least part of their value, and for as much of the journey as the regulations permit, cannot be sent by Parcel Post. Any such parcel posted uninsured will generally be returned to the sender.

153. A compulsory registration fee of 4d. will be collected on the delivery of every uninsured parcel received from places abroad and found to contain coin, watches, jewellery, or any article of gold or silver.

154. Letters which, although addressed to a country or place to which the insurance system does not extend, have been irregularly insured, will be forwarded as registered letters; and if they or their contents are lost in the post, the regulations as to the compensation payable in the case of registered letters will be applicable.

155. Compensation for the loss in the post of a letter or its contents, or for the loss or damage of a parcel, will not exceed the amount of the actual loss or damage, and will not be paid for at all for a packet containing any prohibited article, or for any packet which has been delivered without external trace of injury and has been accepted without remark; nor does it follow as a matter of course that compensation will be given when loss arises from tempest, shipwreck, earthquake, war, or other causes beyond control. No claim for compensation will be admitted if made more than a year after the packet was posted. The sender of a parcel may waive his claim in favour of the addressee.

156. No legal liability to give compensation in respect of any packet for which an insurance fee has been paid attaches to the Postmaster-General, either personally or in his official capacity. The final decision upon all questions of compensation rests with the Postal Administration of the country in which the loss has taken place.

157. The insurance system also applies to letters and parcels from the countries which are parties to the insurance system, but those from other places abroad cannot be insured. Letters for H.M. ships abroad cannot be insured even when they are addressed to a port to which the insured letter system extends.

158. Any insurance effected contrary to the foregoing regulations is invalid.

159. All Postal regulations heretofore in force in the Colony and Protectorates of Southern Nigeria relating to the subject matter of the foregoing Regulations are hereby revoked.

Colonial Postmaster.

Greatest length and girth combined 6 feet.

For example:—

A parcel measuring 3 feet 6 inches in its longest dimensions may measure as much as 2 feet 6 inches in girth, *i.e.*, round its thickest part; or a short parcel may be thicker; thus, if it measure no more than 3 feet in length, it may measure as much as 3 feet in girth, *i.e.*, round its thickest part.

(iii) PREPAYMENT AND POSTING.

13. The postage on a parcel must be prepaid.

14. A parcel should not be posted in a letter box. It should be presented at the counter of a Post Office, and the sender should see that the weight, size and postage are in order before leaving. If posted irregularly, it will:—

(1) If fully prepaid at the rate applicable to any other post and admissible by that post be forwarded as a letter, printed paper or book packet.

(2) If insufficiently prepaid at the rate applicable to any other post, but otherwise admissible by that post, be charged with double the deficiency or with deficient postage at the Parcel Post rate together with a fine of a penny, whichever is the less.

A certificate of posting may be obtained for an unregistered parcel.

Parcels are neither accepted for transmission nor delivered on Sundays.

(iv.) ADDRESSES.

15. (*a*) The address of a parcel must be clearly written in English in characters in ordinary use in Southern Nigeria. A parcel bearing an address otherwise written will not be accepted unless a translation of the address can be added.

(*b*) The address should be written on the parcel itself, and not merely on a label, which may become detached.

(*c*) The sender's address should appear either inside the parcel or on the cover. In the latter case it must be kept distinct from the address to which the parcel is sent.

E.—GENERAL POSTAL RULES.

A.—PROHIBITED ARTICLES.

16. The transmission through post of the following articles is prohibited:—

Any postal packet:—

(1) Consisting of or containing any indecent or obscene print, painting, photograph, lithograph, engraving, book or card, or an indecent or obscene article,

Prohibited articles, if tendered for transmission, will be refused, or if detected in transit, detained. They are liable to be dealt with in such manner as the Postmaster-General may direct, and the sender is in some cases liable to prosecution.

17. Insecurely packed packets come within the category of articles "likely to injure other postal packets in course of conveyance" and will not be accepted for transmission by post.

B.—MAKE UP OF CORRESPONDENCE.

be charged for at the prepaid rate. Correspondence which appears to have been opened or tampered with will be chargeable as freshly posted and unpaid.

(c) Whenever it may be thought necessary, a receipt may be required from the addressee of a re-directed letter, packet or parcel at the second address.

(ii.) REGISTERED CORRESPONDENCE.

(a) Registered correspondence, on being re-directed, may not be dropped into a letter box, but must be taken to a Post Office to be dealt with as registered. No additional registration fee will be charged if the correspondence is presented for re-registration not later than the day after delivery; but if it is presented after that time it will be treated as freshly posted, and fresh registration fees will be payable. As regards postage, the rules given above apply.

(b) If any registered packet when re-directed, instead of being given back to the Post Office to be dealt with as registered, is dropped into a letter box, it is treated in all respects as a letter intended for registration but irregularly posted (see page 7 paragraph 35 (a).)

(iii) OFFICIAL RE-DIRECTION.

Notices of removal and applications for correspondence, including parcels, to be re-directed, must in all cases be duly signed by the persons to whom the letters are to be addressed. Such notices and applications should be given to the local Post-master.

D.—POSTE RESTANTE.

20. The Poste Restante is intended solely for the accommodation of strangers and travellers, and even they may not use the Poste Restante for more than two months.

21. The words "to be called for" or "Poste Restante" should appear in the address of correspondence intended for the Poste Restante.

22. Correspondence addressed to initials, or to fictitious names, or to a christian name without a surname, is not taken in at the Poste Restante, but is sent at once to the Returned Letter Office for disposal.

23. Correspondence may not be re-directed from a private address to a Poste Restante in the same town.

24. All persons applying for Poste Restante correspondence must furnish sufficient particulars to prevent mistakes and to ensure the delivery of the correspondence to the person to whom it properly belongs.

25. Letters, &c., addressed to a Post Office at a seaport town for a person on board a ship expected to arrive at that port are kept two months.

26. At the expiry of two months, correspondence addressed to the Poste Restante or to be called for is sent to the Returned Letter Office for disposal.

27. Poste Restante correspondence, however, which bears a request for its return within a specified time (not exceeding the Official period

of retention), if not delivered, is dealt with in accordance with such request.

E.—PERIOD OF RETENTION OF UNDELIVERED CORRESPONDENCE.

28. Correspondence from places abroad which is not delivered within two months after its arrival is sent to the Returned Letter Office for disposal.

29. Correspondence posted internally is kept for one month, after which it is sent to the Returned Letter Office for disposal.

30. Correspondence, the addressees of which have refused to take delivery, is sent at once to the Returned Letter Office for disposal.

F.—DISPOSAL OF UNDELIVERED CORRESPONDENCE.

(i) LETTERS.

31. An undelivered inland letter, bearing the full name and address of the sender printed or written upon the outside, shall be returned direct and unopened. Other undelivered inland letters shall be sent to the Returned Letter Office, where they are opened and returned, if containing the full name and address of the senders. If they contain neither sender's name and address nor any enclosure of importance, they shall be destroyed. Letters found to contain anything of value are to be recorded, and, if returned, are to be compulsorily registered. Letters from abroad are returned unopened to the country of origin after a brief detention in the Returned Letter Office.

(ii) POST-CARDS, PRINTED PAPERS AND BOOKS PACKETS.

32. Undelivered post-cards, printed papers and book packets are dealt with as follows.

(1) Those bearing on the outside the name and address of the sender with a request for their return in case of non-delivery, are sent back direct from the office of destination.

(2) Those bearing on the outside no request for return in case of non-delivery are disposed of.

(iii) PARCELS.

33. Parcels remaining undelivered for one month will be advertised in the Government Gazette and if not claimed within one month from the date of publication, they will be dealt with as follows:—

(i) The sender of a parcel bearing his name and address will be communicated with as to its disposal and if returned to him a fresh rate of postage will be charged thereon, payment for which may be required in advance.

(ii) A parcel which has not the name and address of the sender is disposed of as the Postmaster-General may decide.

(iii) Perishable articles will be dealt with as may be requisite.

F.—SUPPLEMENTAL SERVICES.

A.—REGISTRATION.

The ordinary registration fee is 2d. in addition to the postage.

(i) INSTRUCTIONS FOR REGISTERING.

35. (*a*) Everything intended for registration must be handed to an officer of the Post Office, and a certificate of posting, bearing an acknowledgment that the fee for registration and compensation has been paid, must be obtained. Nothing intended for registration must be dropped into a letter box. If, contrary to this rule, a packet bearing the word "Registered," or any other word, phrase, or mark to the like effect, is dropped into a letter box, it will be compulsorily registered (see paragraph 38).

(*b*) The packet must be made up in a reasonably strong cover appropriate to its contents, and must be fastened with wax, gum, or other adhesive matter. It is not sufficient merely to tie the packet with string. This does not, of course apply to post-cards, or to printed papers and book packets prepaid at ½d. rate which must be open for inspection whether registered or not.

(*c*) If it be desired to secure compensation for damage to a packet (other than a parcel), the packet must bear the words "Fragile, with care." These words should appear on the face of the cover above the address. Any officer to whom a packet is tendered for registration is to refuse to register it, if the packing is, in his opinion, obviously inadequate. Compensation may, however, be refused if the packet is accepted and afterwards found to have been imperfectly packed.

(*d*) The address of the packet must be clearly written in English, in characters in ordinary use in Southern Nigeria. A packet bearing an address otherwise written will not be accepted unless a translation of the address can be added. The packet must be marked in the bottom left-hand corner with the word "Registered," and, when the fee exceeds 2d., with the amount of the fee proper to the value up to which the sender desires to secure compensation, (see page 8 paragraph 41) thus:—Registered, 4d; Registered, 8d;

(ii) ACKNOWLEDGMENT OF DELIVERY OF REGISTERED CORRESPONDENCE.

36. The sender of registered correspondence may obtain an acknowledgment of its delivery on application at the office of posting, either at the time of posting or subsequently. The fee is 2½d. which must be paid on application, by stamps affixed by the sender to a form provided for the purpose.

37. Enquiry as to the alleged loss or non-delivery of a registered packet should also be accompanied by a fee of 2½d. and should, if possible, be made upon the form used in applying for an acknowledgment of delivery. If it is found that the Post Office is in fault, the enquiry fee will be refunded.

(iii) COMPULSORY REGISTRATION.

38. Packets which contain Coin or Jewellery and also all Inland correspondence bearing the word, "Registered," or any other word, phrase, or mark to the like effect, written or impressed on the cover are, if posted without registration, subjected to Compulsory Registration, and are charged on delivery with a registration fee of 4d., less any amount prepaid for registration.

39. Any packet which is found open in the post, or cannot be delivered, and which is found to contain an uncrossed postal order in which the name of the payee has not been inserted, a cheque or dividend warrant not crossed or made payable to order, a banknote, postage stamps, or any article (other than coin or jewellery), of a value in each

case exceeding 10s. will be subject to registration, and be chargeable with a registration fee of 2d.

No compensation is given in respect of correspondence compulsorily registered.

B.—COMPENSATION FOR LOSS OR DAMAGE.

40. The Postmaster-General is not legally liable for any loss or inconvenience which may arise from the loss, damage, delay, non-delivery, or mis-delivery of anything sent by post, and he does not, in any circumstances, pay compensation in respect of unregistered letters, post-cards, printed papers, or book packets. But subject to the rules stated below, he pays compensation voluntarily and as an act of grace for correspondence of the following descriptions:—

(i) REGISTERED CORRESPONDENCE (INCLUDING PARCELS).

41. The fees payable over and above the postage, and the respective limits of compensation, are as follows:—

Fee.	Limit of Compensation.
	£
2d.	5.
3d.	20.
4d.	40.
5d.	60.
6d.	80.
7d.	100.
8d.	120.

These fees include the ordinary registration fee of 2d.

The highest amount of compensation payable is £120.

42. Compensation in respect of money of any kind (Coin, Notes, Orders, Cheques, Stamps, &c.,) will only be given in those cases in which the money is enclosed in one of the Registered Letter envelopes sold by the Post Office and the packet is tendered for transmission by Registered Letter Post. The compensation given in respect of Coin will in no case exceed £5.

43. Compensation for damage to a packet sent by Registered Letter Post will only be given in those cases in which the packet is conspicuously marked with the words "Fragile with Care."

44. No application for compensation in respect of loss or damage of any Postal article will be entertained unless made within one year of the date of posting: after this term the applicant has no right to any compensation.

(ii) UNREGISTERED PARCELS.

45. The maximum limit of compensation is £1.

No compensation is given in respect of Money of any kind sent by Parcel Post, whether *registered* or *unregistered*, or in respect of Jewellery (Watches, Jewels, Gold, Silver, &c.) sent by Parcel Post *unregistered*.

46. In order to secure compensation in respect of the loss of a Parcel, a Certificate of Posting should be obtained by the sender when the parcel is posted.

(iii) GENERAL RULES.

47. (*a*) It must appear that the loss or damage occurred in the post and did not arise wholly or in part by the fault of the sender, as for instance, from insufficient packing, inadequate fastenings, loss of "tie-on" label, &c.

(*b*) The compensation given will not exceed the value of the article lost or the damage sustained. The right is reserved of reinstating the contents of the packet instead of giving pecuniary compensation.

(*c*) In the case of damage or loss of contents the packet should be retained for inspection as nearly as possible in the state in which it was delivered. If complaint be made that the contents of the packet have been abstracted, the cover must be produced. After the delivery of a packet has been effected no claim for compensation in respect thereof will be entertained.

(*d*) In the case of Bank Note, Money and Postal Orders, Cheques, Bonds, and similar documents, particulars sufficient for their identification must be furnished.

(*e*) No compensation either for loss or damage is given in respect of a packet containing anything not legally transmissible by post or a packet not posted in the manner prescribed; or in respect of glass, crockery, greases, liquids or semi-liquids, colouring powders, eggs, fish, ment, fruit, or vegetables sent by Letter Post.

(*f*) No compensation is given for damage to any packet (whether sent by Letter Post or Parcel Post) containing eggs, soft fruit, any liquid or semi-liquid, or articles of an exceptionally fragile nature.

(*g*) No compensation is given for injury or damage consequential upon, *i.e.*, indirectly arising from, the loss, damage, delay, non-delivery, or mis-delivery of anything sent by post.

(*h*) Without prejudice to any of the preceding rules, the Postmaster-General will, if he thinks fit, refuse to give compensation for loss or damage on any ground on which a common carrier might in like case claim exemption from legal liability.

(*i*) The final decision upon all questions of compensation rests with the Governor.

48. In the Rules as to Registration and Compensation—

The term "money" means and includes—

(*a*) Coin. (*b*) Paper money.

The term "Coin" means and includes coins of all kinds, whether or not current in Southern Nigeria or elsewhere.

(*b*) Money Orders and Postal Orders.

(*d*) Exchequer bills, bank post bills, bills of exchange, promissory notes, cheques, credit notes which entitle the holder to money or goods, and all orders and authorities for the payment of money whether negotiable or not.

(*e*) Bonds, coupons, and securities for money whether negotiable or not.

The term "jewellery" means and includes:—

(*a*) Gold or silver in a manufactured or unmanufactured state (not electro or other plated goods).

(*c*) Diamonds and precious stones; and

(*d*) Any article of a like nature which, apart from the workmanship, has an intrinsic or marketable value.

G.—MISCELLANEOUS.

(i)—VERIFICATION OF SURCHARGES.

49. When a person to whom correspondence has been delivered has reason to think that it has been improperly charged as being over weight, it should be taken to a Post Office to be weighed before being opened. Unless this course is followed, no question as to the correctness of the surcharges can afterwards be entertained.

(ii)—EXCEPTIONAL DETENTION OF CERTAIN CORRESPONDENCE.

50. The Postmaster-General has power to delay the despatch or delivery of Printed Papers and Book Packets, Post-cards, and Parcels, when it is necessary to do so in order to secure the due despatch of the letter mails, and also to delay parcels when he considers it expedient for their safety and protection to do so.

(iii) POSTMASTERS AND THE PUBLIC.

51. No information can be given respecting letters or any other postal packets except to the persons to whom they are addressed, and in no other way is official information of a private character allowed to be made public.

52. Officers of the Post Office are not allowed to return any letter, parcel, or other postal packet to the writer or sender or to any one else or to delay forwarding it to its destination according to the address, even though such a request be written thereon.

53. Postal Officials are not bound to make change when receiving a payment although they are instructed to meet the requirements of the public in this respect as far as may be practicable and when money is paid at the Post Office, whether as change or otherwise, no question as to its right amount, goodness, or weight can be entertained after it has been removed from the counter.

(iv) EVASION OF POSTAGE.

54. Nothing sent through the post may contain an enclosure which is directed to a name and an address different from the name and address borne on the cover, and which is enclosed with the intention of evading postage. Any such forbidden enclosure if observed, is liable to be taken out and forwarded to the addressee, charged with separate postage at the prepaid rate.

(v) RETURN OF CORRESPONDENCE.

55. The first duty of Postmaster-General is to deliver correspondence as addressed, and he cannot intercept correspondence once posted, or return it to the senders.

(*b*) Abbreviated Addresses registered for Telegrams should not be used for letters.

(*c*) Nothing may be written or printed on the address-side of correspondence which, either by tending to prevent the easy and quick reading of the address, or by inconvenient proximity to the postage stamps, or in any way, is likely to embarrass the Post Office in dealing with it. Contravention of this regulation may result in correspondence being withheld from delivery.

(vii) HOURS OF BUSINESS.

57. All Post Offices are open to the Public for the transaction of business between the hours of 8 a.m. and 11 a.m., and 1 p.m. and 4 p.m., except on Saturdays, when the hours observed are 8 a.m. to 12 noon, and at such other times as the closing and delivery of mails may necessitate, due notice of which is in each case given to the public.

(*f*) Letters concerning goods or merchandize sent by common known carriers, to be delivered with the goods which such letters concern without hire or reward, or other profit or advantage for receiving or delivering such letters.

(*g*) No person, however, is authorised to make a collection of such excepted letters for the purpose of sending them in the manner above described; and any person so doing is liable to a forfeit of £5 for every letter, and of £100 for every week the practice is continued.

59. The following persons are expressly forbidden to carry a letter or to receive or collect or deliver a letter, although they shall not receive hire or reward for the same:—

on every reply Post-card 2d. A Post-card from a place abroad, if unpaid, is chargeable with a postage of 2d.; if partially paid, with double the deficient postage the surcharge in no case exceeding that on a wholly unpaid Post-card.

67. Cards used as Post-cards must be made of ordinary card-board not thicker than the material used for the thickest official Post-card and not thinner than the material used for the thinnest. They may not exceed 5½ inches in length by 3½ inches in width or be less than 4 inches in length by 2¾ inches in width.

68. Reply-paid cards of private manufacture, must display the title "Post-card" on the address side, but this title is not obligatory for single cards of private manufacture. Reply halves of reply-paid cards must bear the words "Post-card" and "Reply."

69. A Post-card must not be folded, cut, or otherwise altered, nor may it be enclosed in a cover of any kind.

70. The right-hand half of the address side of a Post-card is in all cases reserved for the address of the recipient, for the postage stamp necessary for prepayment, which should so far as possible be placed in the upper right-hand corner, and for postal directions (such as "Registered," "Acknowledgment of Delivery," &c.); but the left-hand half of the address side as well as the back may be used by the sender for the purpose of a written communication, or may be otherwise disposed of, subject to the restrictions mentioned below.

71. Nothing may be attached to a Post-card except:—

(*a*) Stamps in payment of postage or stamp duty;

(*b*) A gummed label (not to exceed 2 inches long and ¾ of an inch wide) bearing the name and address of the person to whom the card is sent;

(*c*) A similar label, bearing the name and address of the sender of the cards; and

(*d*) Engravings, illustrations, drawings and photographs on very thin paper and completely adherent to the card.

The articles specified in paragraphs (*c*) and (*d*) may be affixed either to the back or the left-hand half of the address side.

72. Cards addressed to certain countries which are referred to in the Imperial Post Office Guide, a copy of which is available for public use at each Post Office in the Colony and Protectorate, are still required to bear the title "Post-card," on the address side, and are not allowed to have photographs, &c., affixed to them.

73. If any of the foregoing rules relating to a Post-card be infringed, the card will be treated as a letter, unless it is eligible for transmission as a printed paper.

74. Reply halves are available for transmission to the country of origin, and to that country alone, provided that they were in the first instance received attached to the other half. If addressed to other countries they are treated as unpaid Post-cards. Ordinary international Post-cards of one country posted in another are treated as unpaid Post-cards.

C.—PRINTED PAPERS AND COMMERCIAL PAPERS.

(i) POSTAGE AND DEFINITION.

75. The prepaid rate of postage on Printed Papers for all places abroad is ½d. per 2 oz., and on Commercial Papers is 2½d., for the first 10 oz., and ½d. per 2 oz., thereafter.

76. If only partly prepaid they will be chargeable on delivery with double the deficiency; if unpaid they will be stopped. Insufficiently prepaid Printed Papers from places abroad will be chargeable on delivery with double the deficiency, the surcharge in no case exceeding 1d. per 2 oz., and insufficiently prepaid Commercial Papers with double the deficiency, the surcharge in no case exceeding 5d. up to 10 oz., and 1d. per 2 oz. for heavier weights.

80. Anything not being of glass, usually attached or belonging to any of the before-mentioned articles, in the way of binding, mounting, or otherwise and anything convenient for their safe transmission by post may also pass at the rate applicable to such articles, provided it is contained in the same packet.

81. The products of the copying press and typewriter are not admitted at the rate for printed papers; nor, as a rule, are printed papers, the text of which has been modified after printing, either by hand or by means of a mechanical process, or marked so as to constitute a conventional language.

82. The following exceptions to this rule are allowed:—

(*a*) Printed circulars may be dated in manuscript or by a mechanical process, and the signature of the sender, his trade or profession, and his address may be added. A packet posted without a cover may not be fastened or otherwise treated so as to prevent easy examination. It may, however, be secured with string.

87. In order to secure the return of packets which cannot be delivered the names and addresses of the senders should be printed or written outside.

of parcels (pars. 11 and 12 page 2) apply also to parcels for the above named places.

94. The rates of postage, maximum dimensions and weight for parcels vary in other countries and British Possessions. These various rates, &c., are shown in the Imperial Post Office Guide.

95. Foreign and Colonial parcels cannot be registered, but they may be insured under the conditions specified on page 21.

96. The sender of each parcel is required to make for Customs purposes upon a special form (which can be obtained at any Post Office) an accurate statement of the nature and value of the contents and other particulars.

97. Undervaluation of the contents or failure to describe them fully renders parcels liable to seizure, and the addressees to prosecution under the Customs Ordinance.

(ii) CUSTOMS DUTY AND CHARGES ON DELIVERY.

98. All parcels are liable to be opened for Customs examination; and their contents are subject to Customs duty according to the laws of the Colony and Protectorate.

99. The duty is ordinarily collected from the addressee on delivery but may be paid by the sender in the case of certain countries referred to in the Imperial Post Office Guide if the parcel be handed in either at Lagos, Calabar or Forcados Post Office.

100. The amount of Customs duty due on each parcel will be collected in postage stamps which must be affixed by the addressee to the Parcel Post Notification and Receipt Form before delivery of the parcel can be made.

101. The Customs Examining Officers have power to open and verify the declared value and contents of any parcel *where there is reason for believing that the same have been wrongly stated* but the parcel must afterwards be properly tied up and sealed with the Customs seal. Before any parcel can be so examined the addressee should be notified and the parcel examined in his presence or in the presence of his representative.

102. In Stations where there are no Customs Officials, the duties will be assessed and the parcels examined by the Postal Officers under the foregoing conditions.

(iii) PREPAYMENT.

103. The postage on Parcels must be fully prepaid.

(iv) PACKING AND SEALING.

104. No compensation is paid for damage to articles insufficiently packed.

105. For parcels containing liquids and substances which easily liquefy two receptacles must be used. Between the inner receptacle, which contains the liquid, and the outer one, which should be of strong wood or metal, space must be left all round, and this space must be filled with bran, sawdust, or other absorbent material.

106. Celluloid, unmanufactured or in sheets, must be well packed in strong wooden boxes, and articles composed wholly or partly of celluloid must be in a packing not less strong than stout card-board and the nature of the goods must be shewn on the parcel.

107. A parcel for a Foreign Country should be so sealed by the sender that it cannot be opened without breaking the seals or leaving an obvious trace of violation. The seals should bear the impression of a private device of the sender.

(v) DELIVERY OF PARCELS.

108. Parcels are not, like letters, delivered at the residences of the addressees. Notice of the arrival of a parcel is sent to the addressee, who must claim it at the Post Office where it is lying.

(vi) REGULATIONS AS TO ALL PARCELS.

109. Where they are not in conflict with the foregoing rules, the general regulations of the Inland Parcel Post apply to Foreign and Colonial Parcels.

(vii) COMPENSATION FOR LOSS OR DAMAGE OF UN-INSURED PARCELS.

110. The Postmaster-General will (not in consequence of any legal liability, but voluntarily, and as an act of grace) give compensation for the loss or damage of uninsured parcels sent by Parcel Post between this country and the United Kingdom, West African Colonies and other countries referred to in the Imperial Post Office Guide when such loss or damage takes place while the parcels are in his custody, and does not arise from any fault or neglect of the senders or from the nature of the contents. The compensation paid will in no case exceed £1.

F.—GENERAL POSTAL RULES.

A.—PROHIBITED ARTICLES.

111. The general regulations in regard to articles which may not be transmitted by the Internal Post apply also to the External Post. There are special prohibitions applicable to particular countries concerning which full information is given in the Imperial Post Office Guide.

112. No parcel is admissible which contains base or counterfeit coin, articles infringing trade-mark or copyright laws, anything liable to become offensive or injurious through decay during the time ordinarily occupied in transmission, unless enclosed in a hermetically sealed tin, or any article or substance specially prohibited from importation into the country or colony to which the parcel is addressed. A list of such prohibitions is given in the Imperial Post Office Guide.

113. Coin, Watches, Jewellery, or any article of Gold or Silver cannot be sent by Parcel Post to any country included in the insurance system unless they are insured for at least a part of their value and packed and sealed in accordance with the special regulations found under the heading of Insurance (page 21).

114. Coin (unless clearly intended for purposes of ornament) or bullion exceeding £5 in value cannot be sent from this country to places abroad.

115. Liquid celluloid cannot be sent by post.

B.—RE-DIRECTION.

116. Correspondence may be re-directed to the same addressee at another address either by an Officer of the Post Office or by an agent of the addressee after delivery under the following conditions:—

Money Order or Postal Order is to be drawn. These particulars may be written on the back of the packet if there is not room for them to be written clearly on the front. No erasure or alteration of the entry of the amount is allowed. An incorrect entry must be completely obliterated and a fresh entry made:

(*b*) fill up a request form (Form C.O.D. No. 1) which is supplied by the Post Office, which includes a declaration that the Cash on Delivery packet is sent in fulfilment of an order. If the sender desires to correct the entry of the Trade Charge he must make out a fresh form.

(*c*) prepay the Cash on Delivery fee by affixing 3d. in postage stamps to the request form. The ordinary postage and other charges must, of course, also be prepaid.

He must then hand in the packet at the counter, where he will receive a certificate of posting (see Rule II., 10), which he will be required to give up when he presents the Money Order or Postal Order to be cashed (see Rule VIII. (a)).

2. RELATION OF TRADE CHARGE TO INSURED VALUE.

11. It is not necessary that a Cash on Delivery parcel should be insured, or that, if insured, the amount of the insurance should be the same as the amount of the Trade Charge, but in the case of loss, the amount of indemnity will be governed, without regard to the amount of the Trade Charge, by the ordinary rules relating to parcels, insured letters, or registered packets.

3. PARCELS—RELATION OF TRADE CHARGE TO DECLARED VALUE.

12. The amount of the Trade Charge must not exceed the amount of the declared value together with the postage and the fees payable on the parcel in connexion with the Cash on Delivery Service.

4. ACCEPTANCE FOR POSTING IN PRIVATE BAGS.

13. Cash on Delivery packets cannot be accepted for posting in private bags.

5. CASH ON DELIVERY PACKETS POSTED OUT OF COURSE.

14. If a Cash on Delivery packet is posted out of course in a letter box or left on the counter without the necessary forms, the sender, if he is known, will be communicated with in order that he may comply with the usual procedure in respect of Cash on Delivery packets; and if he declines to do this, or if no reply is received from him within six days, the packet will be returned to him. If he is not known, the packet will be sent to the Returned Letter Office, the reason being written on the cover.

6. IRREGULAR ACCEPTANCE.

15. If a Cash on Delivery packet has been irregularly accepted (1) for a country to which the Cash on Delivery service does not extend, or (2) bearing a Trade Charge which exceeds the maximum prescribed in the country of destination (see Table in the Imperial Post Office Guide), or (3) lacking some essential particulars, it will be treated as indicated below:—

(*a*) If the irregularity is discovered at the Office of posting, the packet will be returned to the sender, if known, in exchange for the certificate of posting. If the sender is not known, the packet will be sent to the Returned Letter Office, the reason being shown on the cover.

(*b*) In every case in which the irregularity is discovered at an office other than the Office of posting, the packet will be sent to the Returned Letter Office.

7. REQUEST FORMS.

16. A separate Cash on Delivery Request Form must be made out by the sender for each packet, and in other respects each Cash on Delivery packet must be treated separately. A supply of the Cash on Delivery Request Forms may be furnished to Firms or persons regularly sending Cash on Delivery packets, for preparation before the packets are presented for transmission.

8. CHARGES IN COUNTRY OF DESTINATION.

17. (*a*) The Money Order or Postal Order commission and any Cash on Delivery fee chargeable in the country of destination will be deducted abroad from the amount collected.

(*b*) Full particulars, so far as they are shown in the Table in the Imperial Post Office Guide, will be given to the sender if he asks for information. In regard to other charges, such as Customs dues and charges for re-direction, the ordinary procedure will be followed.

9. CONVERSION OF MONEY.

18. Any conversion of money that may be necessary will be effected at the Office of Exchange.

10. CERTIFICATE OF POSTING.

19. A special certificate of posting must be given for each Cash on Delivery packet in substitution for the usual certificate of posting. This Cash on Delivery certificate, as well as the counterfoil, must be filled up by the accepting officer. The amount of the Trade Charge should be written in words, so far as the pounds are concerned. The serial number of the packet should be written on the certificate in the space provided for the purpose.

11. LABELS.

20. (*a*) Every Cash on Delivery packet must have affixed to it an orange-coloured triangular label (C.O.D. Form No. 2) which is supplied by the Post Office, bearing upon it the initials "C.O.D."

(*b*) Every parcel must also bear the ordinary parcel post label of the Office of origin, and any other labels required under the ordinary regulations.

(*c*) Every insured letter or registered packet must bear the usual registration number.

III.—DELIVERY.

1. PAYMENT BEFORE DELIVERY.

21. It is strictly forbidden to give up a Cash on Delivery packet, to open it at the request of the addressee, or to allow the addressee to open it until the Trade Charge and any other charges due have been paid. But the addressee will see from the entry of the packet the name and address of the sender, who (see Rule II., 1 (b)), must have sent the packet in fulfilment of an order.

2. NO RECEIPT.

22. No receipt will be given for the Trade Charge collected on a Cash on Delivery packet.

3. CHEQUES NOT ACCEPTED.

23. Cheques will not be accepted in payment of Trade Charges.

4. DELIVERY IN SPECIAL CIRCUMSTANCES.

24. Cash on Delivery packets will not be delivered in private bags unless the amount of the Trade Charge has been previously remitted. In any other cases the packet will be delivered over the counter of the Post Office.

IV.—NON-DELIVERY.

1. TREATMENT OF UNDELIVERED PACKET AT DELIVERY OFFICE.

25. (*a*) If the addressee or his representative refuses to pay the Trade Charge, if an answer cannot be obtained, or if, from any other cause, payment of the Trade Charge is not made within a reasonable time, a notice will be sent to the addressee, stating (1) that the packet will be retained at the Office of Delivery for fifteen days exclusive of the day of arrival, during which time it may be obtained on application.

(*b*) If at the expiration of fifteen days delivery has not been effected, the packet will be sent to the Returned Letter Office.

2. TREATMENT IN RETURNED LETTER OFFICE OR OFFICE OF EXCHANGE.

26. (*a*) Letters, &c.—In case of refusal on the part of the addressee or his representative to pay the Trade Charge, a Cash on Delivery packet, other than a parcel, will be returned to the Post Office of the country of Origin at the first opportunity after it reaches the Returned Letter Office, instead of being retained there for a prescribed period; but the usual period of retention will be observed when the return of the packet results from a cause not connected with the Trade Charge.

(*b*) Parcels.—If, after a Cash on Delivery parcel has reached the Returned Letter Office, the sender, on being consulted, has given instructions for it to be presented again, a fee of 3d. for such further presentation is to be collected from the addressee, in addition to any other charges.

(*c*) An undelivered packet which has been sent to the Returned Letter Office may be claimed by the addressee at any time prior to its return to the office of origin and delivery effected on payment of a fee of 3d. in addition to all other charges, &c., which may be due thereon.

V.—CANCELLING OR REDUCING TRADE CHARGE AFTER POSTING.

1. CERTIFICATE OF POSTING TO BE PRODUCED.

27. The sender of a Cash on Delivery packet may arrange for the Trade Charge to be reduced or cancelled, upon payment of a fee of 6d.

In such a case the sender must produce the original Certificate of Posting at the Office at which the packet was posted and fill up and sign the printed Form (Cash on Delivery No. 3,) which is supplied by the Post Office and to which a Postage stamp or stamps in payment of the fee must be affixed.

2. CANCELLING OR REDUCING TRADE CHARGE ON UNDELIVERED PARCEL.

28. If the sender of a Cash on Delivery parcel desires to reduce or cancel the Trade Charge after he has received from the Returned Letter Office notice of the non-delivery of the parcel, the procedure set forth in Section 1 of the present rule should be followed; but the Cash on Delivery Form No. 3, after completion, should be attached to the notice of non-delivery and sent directly to the Returned Letter Office under registered cover. The notice of non-delivery should be endorsed by the Postmaster to the effect that the amount of the Trade Charge entered on the certificate of posting has been reduced or cancelled, as the case may be.

VI.—RE-DIRECTION.

29. The general rules which apply to the re-direction of parcels, insured letters, and registered packets received from places abroad apply to Cash on Delivery packets; but the following special rules must also be observed:—

1. RE-DIRECTION BEFORE DELIVERY.

30. If the packet has not been delivered no fee will be chargeable for such Cash on Delivery service as is performed in such a case.

2. RE-DIRECTION AFTER DELIVERY.

31. (*a*) A Cash on Delivery packet which has been delivered may be re-directed as a Cash on Delivery packet only if the Cash on Delivery service extends to the Office, Colony or Country in which the new address is situated. In such a case, the further transmission must be regarded as a fresh transaction, so far as the Cash on Delivery service is concerned, a new Request Form must be prepared and a new Cash on Delivery fee must be paid. Care must then be taken that all marks relating to the original Cash on Delivery service are erased from the packet. No further charge for postage should, however, be made in those circumstances in which re-direction is free under existing rules.

(*b*) A Cash on Delivery packet delivered at its place of original address may, however, be re-directed as an ordinary postal packet; but care must be taken that all entries and marks proper to the Cash on Delivery service are covered over or completely erased.

3. RE-DIRECTED PACKET IRREGULARLY POSTED.

32. A Cash on Delivery packet which, after delivery, is irregularly posted in a letter box to be re-transmitted without Cash on Delivery service, will be treated like any other parcel or registered packet irregularly posted; but all special Cash on Delivery entries, labels, &c., should be effaced.

VII.—REMITTANCE OF TRADE CHARGE TO THE SENDER OF THE PACKET BY MONEY ORDER OR POSTAL ORDER.

1. AMOUNT TO BE REMITTED BY POSTMASTER OF DELIVERY OFFICE.

33. (*a*) When the Trade Charge has been received from the addressee, the Postmaster will remit the amount to the sender by means of a Money Order or Postal Order drawn in his favour on the Office which was specified on the packet, deducting from the amount the Money Order or Postal Order Commission at the usual rate, and also a fee for the Cash on Delivery service according to the following scale:—

	Fee.
When the Trade Charge does not exceed £5	6d.
When the Trade Charge exceeds £5 but not £10	9d.
When the Trade Charge exceeds £10 but not £15... ...	1s.
When the Trade Charge exceeds £15 but not £20 ...	1s. 3d.

(*b*) Postal Orders (with stamps affixed to make up odd amounts up to five pence) will be used where possible for remitting the amount to the sender whenever, after the authorised deductions (collection fee and poundage on Order), the amount to be remitted does not exceed £2. 2s. 10d. the maximum amount which can be remitted by two Postal Orders with stamps affixed.

VIII.—PAYMENT OF MONEY ORDER OR POSTAL ORDER TO SENDER OF PACKET.

34. (*a*) The sender of a Cash on Delivery packet will receive in a closed envelope a Money Order or Postal Order representing the Trade Charge collected abroad less the Commission on the Money Order or Postal

It will thus be seen how large a majority of cases must be left to the decision of the Native Chiefs by themselves. They are for the most part, men of no literary education at all and can only be guided by a sense of fairness and their knowledge of native law and Custom. The very small number of appeals points to the fact that on the whole their sense of justice is satisfactory. The percentage of appeals and reversals of judgment is less than one in 500.

Appeals from the Minor Courts go to the Native Council to which they are subordinate, and appeals from the Native Council go to the Supreme Court if leave be given by a Commissioner. This system has worked well hitherto and the increasing demand for establishment of new Native Courts shows the trust and confidence which the Courts enjoy among the native population.

54. Great difficulty is experienced in obtaining reliable Clerks for the Native Courts, and unfortunately many Clerks have been unable to withstand temptations which have come in their way and have received severe sentences for embezzling the funds of the Courts, blackmailing would-be litigants, and other nefarious habits.

PRISONS.

55. At the commencement of the year the Prisons in the Eastern Province contained 1,449 Prisoners (Convicted 1,174 and 275 Unconvicted). 6,818 were admitted during the year and 2,524 remained at end of the year.

The conduct of the Prisoners has on the whole been good and they have been chiefly employed on Road making, Brick making, Sanitary work, Grass cutting, etc.

In the Calabar Prison, a tailoring establishment is carried on and Prisoners are also employed making baskets and mats and doing a certain amount of carpentery. The value of the Prisoners' earnings at this Prison is reckoned at £3,314.

56. The general health of the Prisoners at outstations, with the exception of Bendi and Aro-Chuku where some cases of dysentery occurred, has been good. At Calabar, an out-break of beri-beri and dysentery caused considerable mortality amongst the Prisoners. 64 Beri-Beri patients were transferred to Afikpo for change of air with the result that only two died and the remainder are rapidly improving in health.

CIVIL POLICE.

57. The authorized establishment of Police in the Province was 380 all ranks, but 338 was the actual strength on the 31st December, 1907, recruiting having stopped and vacancies not being filled during the last few months, to meet the proposed reduction of the Force for 1908, when the Police will be relieved of Prison duties in the Outstations, and be enabled to devote more time to instruction and training.

58. The force is armed entirely with ·303 Martini Enfield carbines taken over from the Southern Nigeria Regiment.

Property to the value of £615 was reported as stolen and through the activity of the Police property to the value of £371 was recovered.

POSTAL SERVICE.

60. The Post Offices in the Province are at Calabar, Opobo, Bonny, Degema, Brass and Akassa, with Postal Agencies at Duke Town, Creek Town, Norah Beach Opobo, Opobo Town, Aba, Buguma, Bakana and Nsokpo. Postal Orders and stamps can also be obtained at Eket, Obubra, Bende, Afikpo, Owerri, Ikom, Aro-Chuku and Ikot-Ekpene.

61. There has been a decrease in the quantity of mails received and despatched from the Province during the year which can be attributed to the transfer of the seat of Government to Lagos. Totals for the years 1906 and 1907 are as under:—

	1906.	1907.
Despatched.		
Letters and Post Cards	201,357	138,663
Other articles	28,060	11,907
	229,417	150,570
Received.		
Letters and Post Cards	164,243	133,696
Other articles	74,776	62,593
	239,019	196,289

62. There has also been a decrease in number of parcels despatched but an increase in those received:—

	1906.	1907.
Parcels Despatched.		
Insured	30	29
Ordinary	651	546
	681	575
Parcels Received.		
Insured	173	345
Ordinary	1,274	1,563
	1,447	1,908

63. The value of Money Orders issued and received also shows a decrease:—

Issued.		Received.	
1906.	1907.	1906.	1907.
£	£	£	£
21,230	21,730	3,247	2,594

which is explained by the fact that Postal Orders were introduced during the year and sold to the value of £4,845.

64. On the 1st of October rate of postage of letters to Foreign countries was altered from 2½d. per ½ oz. or part thereof to 2½d. per oz. and 1½d. for every additional oz., or part thereof and United Kingdom and certain British possessions from 1d. per ½ oz. to 1d. per oz. or part thereof.

PUBLIC WORKS.

65. I am glad to be able to record that the Provincial Office of this Department has now been re-organized and generally placed on a sound footing. Excesses on Works, so common in previous years, have almost entirely disappeared and in many instances savings on votes have been effected.

66. The chief works executed are enumerated below :—

Drainage and Sanitation of Duke Town—Expenditure £1,980.

The improvement of Duke Town, Calabar, has been continued with evident success and before long this town will be a model of neatness and cleanliness. More Latrines have been erected at a cost of £241 and the reclamation of swamp is nearing completion.

Materials have been ordered for extension of Telephone Service to the Factories which will be erected in 1908—cost £500.

Drains on Government Hill have been remodelled and repaired cost £200.

Quarters for 20 Police have been built cost £200.

£282 has been spent on materials for a Slaughter House which is to be erected over the river in Duke Town in 1908.

Materials have also been ordered for a Wharf for Duke Town which is to cost £400, and will be erected in 1908.

The Spring from which the inhabitants of Duke Town derive their water supply has been contained by a 9″ brickwall, providing a reservoir of about 65,000 gallons of water, at a cost of £200.

Brick Store has been built at Eket, cost £185—saving of £15.

Jalousies added to Afikpo bungalow, cost £114—saving £4.

Sergeant Quarters erected at Afikpo cost £180.

£176 has been spent on Establishment of New Stations and nearly Quarters for New Stations. Under the latter, brick bungalows at Ahoad have been commenced and will be completed in March next.

The approved Expenditure under Public Works Extraordinary ar £21,450 and actual Expenditure to £13,237. Out of vote of £4,000 for Crad for Calabar only £23 was brought to account during the year, and of £2,50 House at Akassa £267 was Expended.

Transport Store at Esu Itu £250 and Stable for Commissioner o Calabar £50 were not taken in hand.

67. Expenditure under Works and Buildings—Recurrent totalled £ expenditure being £6,776, exclusive of materials and Stores issued on re amounted to £1,328 whereas only £200 was provided in Estimates.

The greater part of these Stores were supplied to Native Courts. Exp Roads and Bridges Recurrent equalled that approved under Estimates, viz. addition, the Public Works expended £1,000 transferred from Roads E metalling roads at Calabar.

68. The output of timber during the year from the Government S Etehetim shows a great improvement on that of previous years. 10,939 cu been turned out at a cost of 2/5 per cubic feet. Arrangements are being ma timber reserve as the reserve at Etehetim is now practically denuded of s from which timber worth the trouble and expense of production can be obta

69. Brickmaking has been carried on at Etehetim, Uyo, Degema and satisfactory results. The cost per thousand at Etehetim has been reduced to

Bricks made during the year—	Etehetim	222,500
	Uyo	70,000
	Degema	205,430
	Obubra	16,000

70. The Public Work Steam Barge "Etehetim" has been run most from a financial point of view and done excellent work transporting Public W ment stores up the Cross River, etc. Her earnings for the year shew a p over expenses.†

Generally speaking, excellent work has been done throughout the Native Courts in the Province, the members evincing a keen interest in their duties and attending the sittings with regularity. The following extract is taken from the report on the Ikot-Ekpene District in which the District Commissioner, Mr. Hargrove, describes the light in which the Native Court is regarded by the Ibibios—

"The native here delights in the Court, regarding it I am"
"afraid, to a great extent as a new and civilized means of"
"worrying his fellow creatures, as well as a means by which"
"he may recover his goats or his manillas, or whatever he"
"may be claiming. But let him be the party summoned and"
"he will look at it from a very different standpoint—in many"
"cases he will flatly refuse to come to the Court and have to"
"be arrested."

PRISONS.

47. At the end of the year there were 19 Prisons in the Eastern Province in which 10,519 prisoners were confined during the year, who have been chiefly employed on road-making, brick-making, mat and basket-making, sanitary work generally, etc. In Calabar Prison, a Tailoring Department is carried on.

The value of Prison labour is stated to be £15,419.

48. The general health appears to have been fairly good, and at Calabar, the following extract from the report of the Senior Medical Officer shews the improvement which has been effected in this respect:—

"The prison which for so many years has been a source of"
"much anxiety to Medical Officers has ceased to be such."
"Beri-beri has vanished. Dysentery which was responsible"
"for so many deaths has ceased in its epidemic form and only"
"sporadic cases now shew themselves."

49. A night school has been started at Calabar for the Prison Staff which has been well attended and the Staff generally take a very deep interest in the instruction imparted to them, the benefits of which are already noticeable.

POLICE.

50. The authorized establishment was 340, all ranks and the actual strength at the end of year 333. This number includes one Assistant Commissioner of Police at Lagos (shortly expected) one temporarily transferred to the Central Province, and one on leave. The strength shews a reduction of 40 in comparison with the establishment of previous year, due to the taking over by the Prison Department some of the duties in connection with the Gaols, formerly performed by constables. The Police Department still continues to mount guards on Prisons at Out-stations.

The actual number of Constables who fired the prescribed course was 96, the results being as follow:—

Marksmen 2, 1st Class 25, 2nd Class 10, 3rd Class 59. The average score was 14·16.

52. The total number of prosecutions instituted in the Police and District Courts throughout the Province was 2,337 resulting in 1,689 convictions, and 595 dismissals, leaving a balance of 53 awaiting trial at Assizes. Of the above total, 2,162 cases were tried summarily, and 175 were committed to Assizes.

WEIGHTS AND MEASURES.

53. Inspections under the Weights and Measures Ordinance have been made by the Commissioner of Police throughout the Province during the year, and Certificates of Justness issued as they became due.

Altogether 113 Certificates were issued, and the sum of £46 4s. 3d. collected and paid into Revenue. This amount is smaller than that realized during the previous year, though the number of inspections was much larger, owing to reduced scales of fees laid down in the Schedule under the new Ordinance, which came into force on the 31st March, 1908. No prosecutions were instituted during the year.

POSTAL.

54. The Post Offices in the Eastern Province are at Calabar, Opobo, Bonny, Brass and Akassa.

There are Postal Agencies at Duke Town, Creek Town, Itu, Ikot-Ekpene, Owerri, Afikpo, Eket, Bakana, Buguma, Opobo Town, and Oron, the agents of which receive remuneration varying between £6 to £24 per annum. Also at Obubra, Bende, Ikom, Aba and Norah Beach, (Opobo), the duties at these latter stations being performed by members of the native staff as part of their ordinary work. Stamps are also on sale at Aro-Chuku, Ibi, Okigwi and Ikang.

A postal agent is stationed at Nsokpo for the purpose of forwarding mails between Bonny and Inland Stations.

A small launch service was established between Calabar and of Creek Town and has been of considerable advantage to residents both Stations.

55. There has been a large increase in the amount of correspondence dealt with during the year 1908 as compared with the previous year, totals being as under:—

Despatched.	1907.	1908.
Letters and Post Cards ...	178,039	202,258
Other articles	15,022	14,658
Total	193,061	216,916

Other Articles	75,407	82,031
Total	246,220	242,367

56. There has been a decrease in the number of parcels despatched but an increase in the number of parcels received:—

Parcels Despatched.	1907.	1908.
Insured	190	125
Ordinary	3,027	2,275
Total	3,217	2,400

Parcels Received.	1907.	1908.
Insured	669	521
Ordinary	8,081	8,963
Total	8,750	9,484

57. There is a decrease in the value of Money Orders issued and received which is, however, easily explained by the fact that Postal Orders have become very popular and the public are availing themselves of this cheaper means of remittance. Arrangements were made during the year for the direct exchange of Money Orders between Southern Nigeria and German West African Colonies. The value of Money Orders issued and received are as follow:—

Money Orders.	1907.	1908.
	£	£
Issued	20,611	12,200
Received	2,594	1,517

58. There has been a large increase in the value of Postal Orders issued and paid:—

Postal Orders.	1907.	1908.
	£	£
Issued	4,880	12,308
Paid	012	1,834

Savings Bank business was established during the year and 124 deposit accounts were opened representing a total deposit of £1,810. Thirty-one accounts were however closed and the sum of £372 including interest, withdrawn.

During the year the rate of Postage on Inland Parcels was increased to 7d., 11d., and 1s. 3d. for parcels weighing 3 lbs., 7 lbs., and 11 lbs. respectively.

59. The cash on delivery system was introduced during the year, an arrangement whereby senders of postal packets exchange between the United Kingdom and the Colony can have the value of contents collected from the recipients and remit to them by Money Order or Postal Orders. It is however premature to express an opinion as to what extent the public will avail themselves of the system which, for the present, is confined in this Province to Calabar only.

TELEGRAPHS.

60. The approximate number of messages dealt with during the year compared with the previous year was:—

1908.	1907.	Increase.
71,672	32,256	39,416

61. The Cables over the Cross River, Opobo River and Andoni River have been renewed and are now in satisfactory order.

62. The work of clearing the line in forest area has made good progress and interruptions have not been numerous and were speedily adjusted.

63. The extension of telegraph line from Ikot-Ekpene to Bende was commenced on 10th November and completed by end of the year to Erriam, a distance of 14 miles, leaving 22 miles to reach Bende. Very creditable work, considering only one European Foreman supervised it.

64. A Telephone Exchange has been inaugurated at Calabar and during the year 26 Government Offices and 7 Private Firms have been connected.

There remain 9 more private subscribers to be connected in 1909, which work should be completed early in February.

The Government School at Ohumbele was moved to Aba in May. Three new Government Schools at Okuni, Oloko and Mbarakom are almost completed and will be opened in a few weeks.

The following examinations have been held in this Province :—

Examination.	Date.	Number of Candidates.	Passed.
Civil Service Clerical Examination	February ...	22	13
Teachers Examination	May	5	3
Pupil Teachers Examination ...	„	32	30
Survey School Entrance Examination	June	3	Not yet known.

There is still a lack or properly qualified teachers in the Government Schools. The necessity of staffing schools with Pupil Teachers where they have no means of obtaining instruction enabling them to pass their examinations, necessarily tends to limit the number of qualified teachers.

Sewing classes for the girls have been started at Oban by Mrs. Talbot and are much appreciated.

FORESTRY AND AGRICULTURE.

The following extract is taken from the half yearly report of the Provincial Forest Officer, Eastern Province.

* * * * * *

"*Regeneration of Forests*:—Natural regeneration—The great bar to anything like normal regeneration is the native rotation system of farming. Afforested land is dis-afforested every year for fresh cultivable areas. Even where standards are left standing their natural regenerative tendency is nullified by a return to the same area for cultivation in four or five years when all the new growth is cleared for farming purposes. The attention of Administrative Officers has been drawn to the Rule relating to Timber Section 48. The rigorous application of this section is sufficient to ensure better natural regeneration. The Honourable Provincial Commissioner, Eastern Province has emphasized my efforts with administrative Officers regarding the stringent application of this section to minimise wasteful felling and protect regenerating standards and the resultant vegetation therefrom."

"*Plantation regeneration*:—A large quantity of Elaeis guineensis seed (soft shell) has been distributed and a large quantity has been collected for distribution to be transplanted. A large quantity of Para seed has been distributed to Executive Officers for the creation of nurseries by Forest Guards to eventually increase the size of district plantations which will eventually become seed-distributing centres for rubber reafforesting favourable localities. The Para seeds sold to natives especially in the Opobo District will materially increase the size of their plantations with the active transplanting assistance of Forest Guards at District Headquarters. 5,430 toughened Para seedlings have been distributed to Executive Officers and

A large number of flowering, decorative, ornamental and shade plants have been distributed :—

Flowering	1,250
Decorative	1,100
Ornamental	220
Shade	1,750
TOTAL ...	4,320

5,430 Para Rubber trees and 1,350 Cocoa trees have also been distributed with 587 fruit plants.

1,350 Para seeds and 312 Cocoa seeds have been issued.

Over 1,000 Ponciana Regia have been planted along roads in Calabar.

There are 29 Nipa Palms on the opposite side of river doing remarkably well and 60 Sago palms in the Garden hollow in a flourishing condition.

With the exception of the Pomegranate, the introduced plants from the Straits Settlements are doing well.

The Stock Farm at Calabar has been closed owing to the adverse report of the Veterinary Surgeon on the Canary bull and cow for breeding purposes; both of these animals have been sold.

In the Oban District a collection of the flora of the country has been started and detailed drawings of over 700 varieties made so far as possible with fruit as well as flowers from which it is hoped that colour studies may be prepared later. In this work Mr. Talbot, Acting District Commissioner, has been largely assisted by Mrs. Talbot and Miss Dixon. These ladies have also made excellent marmalade from bitter oranges locally grown.

POST OFFICE.

Four more postal agencies have been established since the begining of the year, viz :—

At Oban, Ogoja, Abakaliki and Uyo, at which stamps and Postal Orders may now be obtained.

Savings Bank.—191 deposits representing the sum of £819 2s. were made, compared with 192 deposits amounting to £873 5s. 9d. during the half year ended 30th June, 1908, shewing a decrease of £54 2s. which is explained by the fact that a large sum of money deposited at the Treasury prior to the inauguration of the Savings Bank System, was transferred to the Post Office Savings Bank during 1908.

Withdrawals January to June, 1908 ... ... £ 17 15s. 7d.
„ „ „ 1909 ... ... £467 17s. 4d.

the latter item includes amounts transferred from this Province to the Western and Central Provinces.

Money Orders.—There has been a decrease in the value of Money Orders issued :—

Issued January to June, 1908 ... ... £5,658 6s. 5d.
„ „ „ 1909 ... ... £2,874 19s. 1d.

which is explained by the large increase in the sale of Postal Orders which are now preferred by the public to Money Orders.

Money Orders received during the half year of 1908 and 1909 amounted to £833 16s. 3d. and £274 14s. 11d. respectively.

There was a considerable increase in the value of Postal Orders issued :—

January to June, 1908 ... ... £4,974 11s. 10d.
„ „ „ 1909 ... ... £8,352 12s. 9d.

Postal Orders can now be purchased at every district in the Province except Aro-Chuku and Ahoada at which stations they will soon be introduced.

There is an increase in the number of Parcels despatched and received.

These figures refer to Calabar only which, if taken as a basis of calculation shews a considerable increase for the entire Province.

The Cash on Delivery system is becoming popular; the addressees with a few exceptions take delivery of the parcels and pay all dues without much trouble to this Office. 146 Cash on Delivery Parcels and Registered packets were received during the past half year and a revenue of £2 13 8d. realized from payment of delivery fees.

The Franking note system was also introduced at the beginning of the current year and it enables the senders of parcels posted in the United Kingdom to defray, at the time of posting, all Customs and other charges payable in Southern Nigeria and so effect a free delivery of the parcels to addressees.

TELEGRAPHS.

Clearing of telegraph lines in the Eastern Province has been actively continued to provide a uniform width of 100 feet under the supervision of the Telegraph Department and District Commissioners.

The heaviest work which had to be undertaken was on the Section between Calabar and Uwet the line passing through dense forest. The work accomplished may be summarized as under:—

SECTION.

Calabar—Odukpani.—Clearing widened to 100 feet.

Odukpani—Mbarakom.—Clearing widened to 100 feet and 6 feet patrol path made for 5½ miles from Odukpani and various bridges erected.

Mbarakom—Uwet.—Clearing widened to 100 feet and 6 feet patrol path made for 2½ miles.

Uwet—Brickfields.—Clearing widened to 100 feet.

Brickfields—Itu.—Clearing widened to 30 feet for 3 miles from Brickfields.

The Motor Canoe Service was maintained from Itu to the upper River throughout the Dry Season although difficulty was experienced of the Motor canoes being handed over for Military use, thus throwing work on one canoe. This should be obviated next year as by next the third motor canoe allowed for in 1908 will probably be available.

Messrs. Elder, Dempster & Company are now running a regular Transport Service. In addition to this Messrs. Miller Brothers, now hav powerful launch and large lighters and do their own transport. Furth African Association's S.S. "Ibeno" also runs to Itu fortnightly all the The bulk of cargo and passengers do not go beyond Itu. It will easily be that these outside firms carry much cargo and many passengers w otherwise be carried by Government craft.

Under these circumstances it is improbable that the £5,000 estim year under "Receipts from Cross River Transport Service" will be real

Bonny-Opobo and Bonny-Akassa Transport Service have worked w extra work is thrown on the Bonny-Akassa Mail Launches through the home Mail Service.

The total number of passengers carried by the Bonny-Opobo Transp is as follows:—

	1909.	1908.
Passengers	1,114	483
	Tons.	Tons.
Cargo	219	25
Earnings	£236	£56

Bonny-Akassa Service:—

	1909.	1908.
Passengers	2,844	2,835
	Packets.	Tons.
Cargo	4,632	52
Earning	£612	£622

WATERWAY CLEARING.

The clearing of the Imo River was continued under Lieutenant January and February and most of the worst snags which had accumul the previous wet season removed between Akwete and Ihi which is as river is navigable, a distance of 150 miles from the sea. It takes trading c weeks from Opobo to reach Ihi during the dry season and over a month season.

The upper Sombriero River has been cleared by Lieutenant Henders 21 miles above Ahoada and is now navigable to this point by the larges all seasons.

The channel on the Otamini river is now cleared to within 6 miles of is navigable for large canoes as far as Omoka about 20 miles from its ju

With regard to health of prisoners in the Eastern Province, the Senior Medical Officer reports:—

"I may say on the whole the health of the prisoners" "is good, the food and water excellent and that the" "prisoners are kept clean and in a sanitary condition."

POLICE.

26. The authorized establishment was 386, as against 340 for the previous year, and the actual strength on the 31st December, 1909, 370. These numbers include one Assistant Commissioner on leave, one invalided, and one Assistant Commissioner under strength.

Including Provincial Headquarters, Calabar, the Force is distributed over 26 Stations. This shews an increase of 3 stations during the year, Itu, Oron, and Abak: at the two last named places however, the detachments consist only of two men at present.

Thirty extra constables were drafted to Abakaliki and Ikom to relieve the military garrisons at those stations.

292 men underwent the annual course of musketry, an increase of 196 over 1908. The target register shews the following results:—

Marksmen 9, 1st Class Shots 69, 2nd Class 37, 3rd Class 177. The average score was 45.

WEIGHTS AND MEASURES.

27. The Deputy Inspectors of Weights and Measures made inspections under the Ordinance in the Calabar, Cross River and Bonny Divisions. The total number of Certificates of Justness issued was 96, in respect of which the sum of £23 16s. 6d. was collected in fees, and paid to Revenue.

LICENSED PREMISES.

28. The various stores and shops licensed to sell spirits were generally well conducted, and the hours of closing carefully observed. Only 6 convictions for contravention of the Spirit Licence Ordinance were obtained throughout the Province during the year.

POST OFFICE.

29. No new post office was established in this Province during the year but provision has been made and arrangements practically completed for the opening of one at Itu.

Postal agencies now exist at all stations in the Cross River and a large amount of postal business transacted, the principal agencies being those at Ikot-Ekpene, Itu, Oron, Afikpo, Owerri and Eket.

30. There has been an increase generally in the exchange of correspondence during the year compared with 1908, the figures being as follows:—

		1908.	1909.
Despatched	Letters and Post Cards	202,258	208,713
	Other articles	14,658	16,189
Received	Letters and Post Cards	160,336	221,181
	Other articles	82,031	78,380

PARCEL POST.

		1908.	1909.
Parcels Despatched	Insured	125	118
	Ordinary	2,275	4,658
Parcels Received	Insured	521	550
	Ordinary	8,963	10,694

These items include correspondence exchanged between the United Kingdom, British Colonies and Internal offices.

31. A large number of "Cash on Delivery" parcels was received during last year but as the system was introduced at the end of 1908 a fair comparison cannot be made between the last two years; the figures for 1909 are given below:—

No. of C. O. D. parcels received	732
Trade Charges payable	£1,037 4s. 9d.
No. of C. O. D. parcels delivered	668
Trade Charge collected and remitted to England	£962 0s. 10d.
Amount of Revenue realized	£14 12s. 8d.

The system has been extended in this Province to Opobo and Bonny.

32. At the beginning of the year, the Franking Note system was introduced. It enables the senders of parcels posted in the United Kingdom to defray at the time of posting all Customs and other charges payable in Southern Nigeria, thus effecting a free delivery of parcels to addressees.

33. There is a decrease in the amount of Money Order business done during last year compared with 1908 which is due to the increasing preference for Postal Orders:—

	1908. £	s.	d.	1909. £	s.	d.
Value of Money orders issued	12,200	4	10	7,364	0	6
Value of Money orders paid	1,190	3	0	1,280	17	1

POSTAL ORDERS.

34. There has been a considerable increase in the value of Postal Orders issued and paid.

	1908. £	s.	d.	1909. £	s.	d.
Value of Orders issued	12,307	19	8	18,448	7	5
Value of Orders paid	1,833	16	5	3,696	3	11

During the year, Postal Orders were put on sale at the following stations, viz:—Oban, Ogoja, Uyo, Abakaliki, Aro-Chuku, and Okigwi.
