JANUARY 31, 1903.] THE NORTHERN NIGERIA GAZETTE. 23 OFFICIAL

Re-direction of Postal Matter.

(1.) The principle of free direction which is adopted throughout the Postal Union for postal matter by letter, book, or sample post, does not exempt from additional postage postal matter which though fully prepaid for the first transmission, is re-directed to a country the postage to which is higher than that originally prepaid. But a fully paid letter or packet received in this Protectorate from abroad, and re-directed under these conditions will not be chargeable for re-direction unless the postage from the place of origin to the final destination is higher than the postage from the place of origin to this Protectorate. Letters originally posted unpaid, and letters or packets posted insufficiently paid, and subsequently re-directed, though not chargeable for re-direction, are subject to the ordinary charge of double the deficient postage on delivery.

REGULATION 6.
Re-direction of Postal matter.

(2.) Postal matter re-directed after delivery at the first address must be reposted in time for the next outgoing mail, otherwise it will be charged as unpaid postal matter. The same course will be followed in the case of any postal matter which may appear to have been opened.

Cases in which charges will be made.

All parcels sent by parcel post are chargeable with fresh postage if re-directed.

All registered postal matter on being re-directed must be handed to a Post Office official and not be dropped into a letter box as ordinary postal matter. If brought too late for the next outgoing mail a fresh registration fee as well as fresh postage will be required.

Re-directed registered packets.

Postal matter returned to the sender for rectification or completion of the address will not, when reposted, be treated as re-directed, but as liable to fresh postage.

Mixed Postal and Telegraph Services.

Persons desirous of having a communication forwarded by post to a place abroad from a Postal Telegraph Office at which it could be posted later than at the local office may have it transmitted as an inland telegram to such an office, and posted there.

REGULATION 7.
Mixed Postal and Telegraph services.

When despatching a communication by this means, it is necessary for the sender to prepay not only the telegram but also the amount of postage required for the transmission of a letter weighing ½oz. to the country of destination. The words "by post" will be written on the telegram by the sender and will be free of charge.

Closing of Mails.

The hour at which the mails other than the local mail in Cantonments will close will be fixed by a Postal Official in charge of a Post Office and posted on the notice board in front of the Post Office at least 24 hours before the time of closing. A circular will at the same time be sent to the High Commissioner (if at the station,) to the Resident, the Senior Military Officer, and all Heads of Departments, informing them of the hour of closing. Any postal matter received subsequent to the hour named (and not bearing a late-letter fee) will be treated as "posted too late for the mail."

REGULATION 8.
Closing of Mails.

After the hour advertised as the time for closing, and until within 5 minutes of the despatch of the mail, letters will be received at the post office on payment of a late letter fee of ½d. for every letter, to be paid in the form of an additional ½d. stamp affixed to the left hand top corner of the envelope.

Late letters must be posted at Post Office.

With the exception of the regular postal mail bags placed under the charge of the Master, or other person, by the proper Post Office authority, the officers, crew, and passengers on any vessel are prohibited from receiving any postal matter for conveyance which has not passed through the Post Office.

Post Office Hours in Cantonments

(1.) Post Offices in Cantonments will be open for the purpose of general work from 8 a.m. to 12 noon and 2 p.m. to 4 p.m.

(3.) All enquiries regarding Postal or Telegraph matters should be addressed to the Postmaster, Lokoja.

(1.) All postal matter should bear the full name and address of the sender in order to ensure its return in case of non-delivery. An undelivered inland letter bearing the full name and address of the sender printed or written upon the outside will be returned unopened. Other undelivered inland letters (except those addressed to persons who have left the Protectorate) will be opened in the General Post Office, and returned if possible to the senders; if they contain neither sender's address nor any enclosure of value they will at once be destroyed and no record will be kept of them. Letters found to contain articles of value will be recorded, and, if returned, or re-issued to a fresh address, will be registered and a fee of 2d. charged on delivery. Undelivered registered letters are returned free of charge. Articles of value which cannot be delivered to the addressee or returned to the sender will be retained at the General Post Office, Lokoja for six months and a notice will be inserted in the *Gazette*. If during that time no application is received for them they will be sold, and the amount credited to the Revenue. Gold, Silver, and precious stones will be retained for one year before being disposed of.

(2.) All postal matter other than ordinary newspapers addressed to Government Officials who have left the Protectorate will not be opened, but will be forwarded to whatever address may have been left for the purpose at the General Post Office. Letters will be liable to be treated in the ordinary way as undelivered postal matter if the addressee has left no address.

(3.) Non-Officials are recommended, before leaving the Protectorate, to communicate to the Postmaster Lokoja the addresses to which they wish their undelivered postal matter to be redirected. Otherwise such matter will be sent to the office of the Firm in England which employs them, or in default of any English Firm will be treated as undeliverable.

(4.) Letters for addressees who have died will be sent to the Administrator of the Estate who will return them to the senders.

(5.) Newspapers in default of any instructions by the addressee (in the column in the address book set apart for the purpose) will be sent to the Hospitals.

(2.) The Southern Nigeria Customs Officer hands over all ship's parcels for Northern Nigeria to the Forcados District Postmaster who includes these on a Parcel Post List, and hands them over to the Government Agent of Northern Nigeria for transmission with the mails to Lokoja. The Government Agent will give a receipt for them. Both ship's parcels and postal parcels may be sent by the Southern Nigeria launch if proceeding to Lokoja direct.

(3.) The Postmaster, Lokoja, will enter all postal and ship's parcels in a book kept for the purpose. He will sign entries "for consignee," dutiable articles being passed on Duty Bills of Entry and free goods on Free Bills of Entry. All free imports will have a declaration signed by the Importer claiming that the articles so imported are not for trade or re-sale. Parcels imported by different ships should be passed on different entries. Entries will also be passed for Government goods either on Dutiable or Free Forms, values being shewn but no duties collected, and on the face of the entries will be written in red ink the words "Exempted under "

Passing entries

(4.) Duty will be collected by the Postmaster before the parcel is delivered to consignee on all ship's parcels in accordance with the assessment on the two copies of the Parcels Bill, one of which he will retain and will forward the other to the Postmaster, Forcados. In the absence of an invoice, the parcel may be opened in the presence of the consignee and the duty will be paid on the appraised value of contents. If the consignee is not resident at Lokoja, and no invoice has been received from him by the Postmaster the latter will open the parcel in the presence of the O. C. Unit or Head of Department, and assess the duty which will be recoverable from the consignee before delivery, or may, by arrangement, be paid by the Officers' Mess on his behalf, or from any deposit lodged with the Protectorate for the purpose through his Mess.

Duties.

(5.) Entries when passed and completed will be forwarded by the Postmaster Lokoja, together with the amount of duty collected, to the Postmaster Forcados, at the end of each month. A statement showing any discrepancies between the Parcels Bill and the Bill of Entry should accompany the monthly list, together with any parcels which cannot be delivered owing to the death or absence of the consignee. If the duty on any parcels has not been collected they will be shown on the list with a certificate that they still remain in the custody of the Postmaster.

Transmission of Entries
and Duties.

(6.) The assessment referred to in paragraph (4) can usually be accepted as the true value of contents and as agreeing with the Customs Declaration Form posted on the parcels, but if there be any doubt as to the correctness of the value, or suspicion as to import of prohibited articles, the parcel can be examined, but only in the presence of the Importer who should be notified accordingly. Conditions applying to parcel post packages with regard to freight and size do not apply to ship's parcels. If small quantities of specific articles such as cigars, cigarettes, perfumes and tobacco, are imported in a parcel without the quantities being shown on the customs declaration form the parcel will be examined unless the consignee can state the quantity. In examining a parcel great care will be taken to avoid damaging it more than is absolutely necessary to estimate quantity.

Assessment of duties.

(7.) Packages containing prohibited articles will be confiscated, a note to this effect being made in the monthly list of entries, and a report made to the Secretary giving the reasons for the confiscation.

Prohibited articles.

Any person contravening any Postal Regulation shall be liable to a fine not exceeding five pounds.

Letters found to contain articles of value will be recorded and, if returned, or re-issued to a fresh address, will be registered and a fee of ad. charged on delivery. Undelivered registered letters are returned free of charge. Articles of value which cannot be delivered to the addressee or returned to the sender will be retained at the General Post Office, Lokoja, for six months and a notice will be inserted in the Gazette. Intermediate mails to Headquarters.

14. From Lokoja there will be (in addition to the fortnightly mails) a local intermediate mail to Zungeru. This will leave Lokoja by steamer to Egga and overland to Bida and Zungeru immediately after the intermediate English mails arrive at Lokoja.

Mail runners will be engaged from each place to the next as shown in the table. The mail men who have brought the mail will be allowed 24 hours rest, and will then return to the place at which they delivered the with the downward mail of the station at which they delivered the upward mail, together with all other letters which are awaiting down transport. Down mails received at any station will not be forwarded until the arrival of the mail men bringing an up mail, who will, as indicated above, take them down on their return journey. The same rules will apply to the mail service by canoe. Letter bags will not exceed 40 lbs in weight, and the mail men will be required to cover at least 20 to 25 miles per diem.

18. (a.) The canoes or mail runners employed in accordance with the foregoing fortnightly and intermediate services will be charged against the Postal vote. No other mails are debitable to this vote, and charges in respect of them will not be passed by the Postmaster or Treasurer.

August 31, 1904.] THE NORTHERN NIGERIA GAZETTE.

(b.) The Postmaster will be held personally responsible if vouchers are signed by him for payment in excess of what is properly expended on the payment of mail men by each station. Urgent despatches for the High Commissioner, which it is absolutely necessary should be forwarded without delay, will be charged by Residents against their political vote for this service, and should be sent as rarely as possible.

N.B.—The entire cost of an urgent despatch is chargeable against the office of origin, and Residents *en route* who make advances on the way-bill will quote that way-bill as their voucher, and will not debit their own vote.

(c.) The delivery of mails to an officer at a station other than a Postal station will usually be effected by the despatch of a courier, constable or soldier &c. in the permanent employ of the Government. In rare cases, where this is impossible, the charge will be debited to the special mail vote under head "Political."

(d.) The vote for "Special Mails" under the Postal estimates is solely at the disposal of the High Commissioner for the despatch of urgent letters or of telegrams from head of the line, and nothing will be charged against it without the prior sanction of the High Commissioner.

19. (a.) Every official before leaving the Protectorate will write his address in a book to be kept for that purpose at the General Post Office Lokoja; or, if unable from sickness or other cause to do so, he will send it to the Postmaster. Letters for officers who have left the Protectorate without registering their address, will, in future, be liable to be treated in the ordinary way as undelivered postal matter.

(b.) Whenever an officer (who is not at either Lokoja or Zungeru) is transferred from one station to another, the Head of his Department, if the officer is a civilian, and the Officer Commanding Unit, if the officer belongs to the Military Force, will notify the change to the Post Office at the time the orders are issued to him. Officers should also themselves acquaint the Postmaster with all changes of address, but telegrams on this subject cannot be sent free as official.

Parcel Post.

20. The Parcel post will be made up separately from the letter bags, and will be despatched by ordinary transport as soon as possible after receipt, and the letter post bags will never be delayed for them.

21. The postage to be prepaid on parcels to be sent by Parcel Post will be as follows:—

If addressed to places within the Protectorate.

Slips applying for a Second Advice.

The officer in charge of each office must see that his supply of books and forms does not become exhausted; he must therefore make application for a fresh supply in good time.

Method of issue.

39. When application is made for a Money Order the applicant should be handed a form (Inland Requisition form for orders payable in the Protectorate, Foreign Requisition form for orders payable outside the Protectorate) and requested to fill in the particulars of the order required.

(a.) The amount for which the order is required and the commission should be ascertained, and then an order and advice prepared.

(b.) The order should be handed to the applicant for transmission to the payee, except in the case of an order payable at places in Aden, Austria, (and its agencies in Turkey and the Levant), Belgium, Bosnia, Bulgaria, Chili, Congo Free State, Danish West Indies, Demark and Faroe Island), Dutch East Indies, Egypt, Finland, Germany, and German Possessions, Herzegovina, Holland. (The Netherlands), Hungary, Iceland, India and its agencies (except Ceylon), Japan, Korea, Luxemburg, Netherland (Holland), Norway, Portugal, (with Madeira and Azores) Roumania, Salvador, Servia, Siam, Sweden, Switzerland, Tunis, Uruguay.

For orders issued on these places a certificate of "issue" must be handed to the applicant instead of the order form. The order form and advice form with the application slip must be sent to the Money Order Office, Lokoja.

(c.) The order form must be handed to the applicant in the case of orders issued on any other country, and the advice, with the application form attached, must be sent to the Money Order Office, Lokoja.

(d.) In the case of Inland Money Orders, the advice must be addressed to the Postmaster of the Paying Office, and posted by the next outgoing mail for that place.

(e.) If the remitter send a letter with the particlars required and the necessary amount by a messenger, the clerk must fill in an application docket and file it with the letter, and then issue the order.

(f.) If the applicant for a Money Order be illiterate, the clerk may fill in an application docket for him, but he will invariably get another officer to witness that the amount is correctly stated, and certify on the docket accordingly.

Instructions to issuing officer.

40. When preparing the Money Orders and Advices, care must be taken:—

(a.) That the number on the advice agrees with the number on the Money Order.

(b.) That the name of the issuing office is plainly written on the top of the forms.

(c.) That a clean impression of the date stamp is made in the space provided on both forms.

(d.) That the amount for which the order is issued is clearly stated in figures in the space provided at the top of the forms and in words in the body of the forms.

When an order is drawn for an amount that does not necessitate a figure or word being placed in each space, two lines must be drawn through the otherwise blank space thus:—

£	s.	d.	Pounds	Shillings	Pence
1	=	=	One	=	=

OFFICIAL

(e.) That the Surname and at least the initials of the Christian name be clearly stated in the Advice form. If the applicant has no Christian name, the name by which he is known will be stated in full.

(f.) That Money Order business is transacted at the place on which the order is drawn.

(g.) When issuing a corrected advice, stamps of the amount of the commission will be affixed to it, and cancelled with the pen.

41. No correction or erasure may appear on the face of a Money Order or Advice form; therefore, if any error is made when preparing the forms the clerk must write across the forms "Spoilt" and add his full signature. He must then prepare a fresh order for the applicant. These "Spoilt" forms must be entered in the Ledger thus "No..... Spoilt" and must be forwarded with the paid orders to the Money Order Office, Lokoja.

42. If the remitter desire that an order be paid through a Bank, two lines should be drawn across the face of the order and the words & Co. should be added thus "The relative advice should be crossed similarly. If the name of the particular Bank be added, payment will only be made to a representative of that Bank. The name of the remitter need not be furnished.

43. If the paying officer report any discrepancy between a Money Order and the Advice, or that an advice has failed to reach the paying office, a Second Advice form must be issued giving correct particulars. These forms must only be issued by the office that issued the original order, and they must bear the number of the original form.

44. Full particulars of each order issued must be entered in the Money Order Ledger. When a "Duplicate Order," or a "Corrected Advice" form, or a "Second Advice" form is issued, an entry must be made in the Ledger; thus "Duplicate" issued for No..... "or Corrected Advice issued for No....." or Second Advice issued for No..... as the case may be. No amount should appear in the cash column, after column; but the amount of commission charged should be entered in case of a Duplicate Order being issued. Care must be taken to file the slips for Money Orders required in the order in which the entries are made in the Money Order Ledger.

45. When an order is presented for payment, the clerk should see if he has the relative advice on hand, and, if so, he should verify the date, number, and amount, entered on the advice with those entered on the order; he should then ask the applicant to sign the order in the space provided, and he must see that the signature given agrees with the name of the payee entered on the advice. The applicant should then be asked to furnish the name of the remitter and if he do so correctly the order should be paid, provided that payment has not been deferred or the order crossed.

(a.) If payment has been deferred, the order must not be paid until the stipulated time has elapsed.

(b.) If the order is crossed "& Co." whether the relative advice is similarly crossed or not, payment must only be made to a person known to be in the employment of the Bank receiving it. When an order is presented by a representative of a Bank, the remitter's name need not be asked.

(c.) If the payee be illiterate, he must make his mark and must bring a witness with him, who will sign as witness; the witness must add his address to his signature.

46. When a notice is received from the remitter or payee requesting that the payment of an order be stopped, the advice of the order referred to should be endorsed "payment stopped," and the application

Void Orders.

47. Money Orders become void if not presented for payment within one year of the date of issue. The advices of Money Orders that have become void must be sent to the Money Order Office, Lokoja.

Second advice when required.

48. When an order is presented for payment and the relative advice is not on hand, or, if on hand, the amount does not agree with that stated on the order, payment must be refused, and the issuing office asked for a Second advice. Printed forms are supplied for applying for Second advice forms, but the payee should also be advised to communicate with the remitter. Second advice forms must not be applied for by telegraph unless the payee agrees to pay for the telegram.

Treatment after payment

49. Immediately after payment, the Money Order and Advice must be "date-stamped" in the proper spaces and initialed by the paying officer, and a proper entry must be made in the Money Order Ledger. Care must be taken to keep the Money Orders and Advices in the order they are entered in the Ledger; the Money Orders in one packet the Advices in another.

Transmission of accounts

50. At the end of each day the Money Order Ledger must be balanced up and copied on to the Money Order Account Sheet.
(a.) The account sheet and the paid orders must be forwarded to the Money Order Office by the next mail.
(b.) The Advices of the paid orders will be sent by the mail after that in which the relative orders are enclosed.

Responsibility of Postal Officer.

51. The Officer in charge of each office will be held responsible that these instructions are carried out at his office, and if any fraud is committed through his neglect, he will be liable for the amount the Revenue may lose thereby.

Postmaster to pay or collect commission.

52. The Postmaster will by each mail forward to offices of exchange outside the Protectorate a list of Money Orders payable by them, and will see that a payment of $\frac{1}{2}\%$ is made to them on the gross amount of such orders. He will similarly be responsible that a like sum is recovered from such offices of exchange and paid into the Treasury in respect of all orders payable in Northern Nigeria.

Postmaster responsible for cancelled order payments.

53. The Postmaster will not pay the amount of a cancelled order to the remitter until he has received advice that the original has not been already paid by the office of exchange, and he is personally responsible for the amount if this precaution is neglected.

Lists to be sent and received before payment.

54. The Advices of the Money Orders payable outside the Protectorate must be entered on lists and forwarded by the Postmaster to the Chief Money Order Office of the country in which they are payable. These lists must be numbered consecutively (commencing with No. 1 in each year,) and by the following mail a duplicate list must be forwarded. No orders will be paid until similar Advices are received from the chief office of the country issuing an order.

Remittances to cover balance deficit.

55. Remittances to cover the balance of the amount due for the orders must accompany each list, and, in the case of those remitted to the General Post Office, London, will be addressed to the Cashier; Advices being despatched separately to the Chief Examiner, General Post Office. Remittances to England will be in the form of an order on the Crown Agents; to the West African Colonies in the form of a Treasury Certificate.

AUGUST 31, 1904.] THE NORTHERN NIGERIA GAZETTE.

56. The Advices of Money Orders payable in foreign countries through England will be advised on the list for the London Office in red ink at the end of the ordinary list, and the full address of the payee must appear.

"Through" orders advice of U. K.

57. At the end of every month the Postmaster will prepare and forward to the Comptroller of the Money Order Office, London, a list of the Money Orders issued in Northern Nigeria on the United Kingdom for which authority has been received from the London Office to effect repayment to the remitters, and a list of orders (endorsing the relative advices) issued in the United Kingdom or Northern Nigeria, which have not been paid within the 12 months after the month of issue and have therefore become forfeited to the country of issue. When there are no transactions to report, "Nil" lists will be sent; similar advices will be received from London.

Transactions monthly by Postmaster.

58. Should it appear that Money Orders are used by mercantile men or others, either in the United Kingdom, or in Northern Nigeria, for the transmission of large sums of money, the British Post Office, or the Post Office of Northern Nigeria, as the case may be, may consider the propriety of increasing the commission, and of even wholly suspending for a time the issue of Money Orders.

Interference with mails.

65. If a Postal Officer on receipt of a mail bag finds that the seal has been broken or tampered with, he will place the matter in the hands of the Police, and will report the circumstances to the Postmaster.

Letter and parcel bills.

66. A "Letter Bill" on which will appear particulars of each registered letter despatched, will be enclosed in each mail. A "Parcel Bill" will also be enclosed, on which will appear particulars of the parcels despatched. These bills will be sent whether there are any registered letters or parcels despatched or not. They must be carefully filed by the Receiving Officer, so that they may be produced at any time.

If a registered letter or parcel is missing, and the Officer who should receive the bill on which such postal packet would be advised, fails to produce such bill, he will be held responsible for the missing article.

Postal Clerks to pay in surplus cash.

67. As soon as practicable after the receipt of the up mail, the Postal Clerk in charge at each out-station will prepare his surplus cash for payment to the Postal Officer. The various amounts will be entered on the back of the receipt in the spaces provided and the total will be entered in words in the body of the receipt.

Receipts to be forwarded.

68. The receipts will be prepared in duplicate, and a signature obtained on each. The original will be forwarded by the next mail to the General Post Office, Lokoja, and the duplicate retained for reference. These duplicate receipts will be carefully filed in date order, so that they may be produced when required.

Obligation to report mistakes.

69. Any irregularities in his cash accounts will be at once reported by the Postal Clerk in charge to the Postmaster through the local Postal Officer.

Stamp stock and accounts.

70. Only cash received in exchange for stamps will be placed in the stamp drawer; the value of the stock (stamps and cash) in this drawer will therefore never vary. The value of the stamp stock must not be changed without the sanction of the Postmaster. Before placing fresh supply of stamps in his drawer, the officer will withdraw cash equivalent to the value of the stamps, and pay it into the Treasury.

Current receipts and issues of stamps will not appear in the Cash Book, but, of course, money paid into Revenue from time to time on account of Postal receipts will so appear. The Postal clerk in charge will be held responsible that he does not run short of stamps of any particular denomination.

Receipt of Stamps.

71. When stamps are received from the General Post Office they will be accompanied by a form giving particulars of the stamps despatched. The Receiving Officer will, in the presence of a second officer (if two or more officers are employed at the station), check the stamps to see whether the correct amount is enclosed, and any discrepancy will be reported at once (by telegram where possible; if not, by letter marked "urgent.") The form, when checked, will be signed, amended if necessary, and returned by first post to Lokoja.

Change for Stamps.

72. The Postal Department is not compelled to give "change" to the purchasers of stamps, but Postal clerks are directed to do so whenever possible, and when no inconvenience to the Public Service will result.

Customs Ledger.

73. Each parcel on which Customs Dues are to be collected must be entered in the Customs Ledger, in the following manner:—

The parcels for delivery must be entered on the left hand side. The total amount as stated on the front of the bill will be entered on the right hand side (top line), and underneath will appear particulars of the parcels (advised on the bill) that are forwarded to other stations or returned undeliverable. A copy of the entries made for each mail will

OFFICIAL

be sent to the Postmaster by the return mail. Forms for this purpose are supplied. The Customs Ledger will be ruled in the same manner as these forms.

74. When an unpaid or insufficiently prepaid inland postal packet is posted at any office, the packet will be taxed "double the deficiency" and a "charge" docket will be prepared. The top portion of the docket will be forwarded with the postal packet (pinned to the letter bill), the other portion will be sent by the next mail to the Postmaster Lokoja. The total number of dockets sent by each mail will be entered on the Letter Bill.

When the Delivering Officer collects the charge he will affix postage stamps to the value of the charge to the docket and forward it to the Postmaster at once. When a letter is refused, or proves undeliverable for any reason, the docket must be sent with it to the Returned Letter Office, Lokoja.

75. All regulations made under the Post Office Proclamation 1900, at present in force, shall, as from the date of the publication of the Regulations hereinbefore set forth, be and are hereby cancelled and repealed.

THE NORTHERN NIGERIA GAZETTE. [JANUARY 31, 1906.

ORDER
UNDER THE POST OFFICE PROCLAMATION, 1900.

REGULATION 1 (c) is amended by adding the words Australia,
British New Guinea, Lord Howe Island, and Norfolk Island.

*Note. Postage on letters from Australia will be at the rate of
Two pence per half ounce.*

F. D. LUGARD,
High Commissioner.

18th January, 1906.

A CONVOY of stores in the charge of a Native Clerk and belonging
to a Commercial Firm was recently attacked by Pagans, and the
Clerk and a large number of carriers lost their lives. This outrage led
to reprisals for the recovery of the looted stores, and it is probable
that still further loss of life will be involved. Investigation of the
matter went to shew that the person in charge of the convoy had been
told by the Resident of the Province not to pass through the district in
question nor to camp there, but had disregarded these orders. The
High Commissioner therefore considers it necessary to promulgate the
following regulation with a view to the prevention of similar loss of
life in future.

Government convoys under G.S.O. No. 165 have already to proceed
under European escort. If any non-official should desire exemption
from this rule for good cause shewn he should apply to the High
Commissioner, through the Secretary, in ample time to allow of a reply
before the date on which it is desired that the convoy should start.

REGULATION UNDER
THE MASTER AND SERVANT PROCLAMATION 1902.

ON and after the first day of March next carriers and other trans-
port attendants whilst employed in the conveyance, within the
Protectorate, of merchandise and stores belonging to European
non-natives shall (unless authorised to the contrary by the High
Commissioner) be accompanied by and be in charge of a European.

Every employer who shall cause or permit merchandise and stores to
be conveyed contrary to this Regulation shall be liable to a penalty
not exceeding £20.

F. D. LUGARD,
High Commissioner.

EXAMINATION IN HAUSA.

THE High Commissioner directs it to be notified that Dr. W. R. Miller has been kind enough to offer to hold an examination (Higher and Lower Standard) in Hausa at Zaria, during the first week of November next.

Dr. Miller will hold no examination for

UNDER the provision of G.S.O. No. 119, the Honourable E. J. Stanley, 3rd Class Resident, Sokoto Province, passed the Lower Standard Examination in Hausa.

BOUNDARY BETWEEN NORTHERN NIGERIA (ILLORIN) AND SOUTHERN NIGERIA BETWEEN ODUNFA HILL AND THE TOWN OF BUDA EGBA.

THE boundary consists of a straight line running on a bearing of 155° 18' from a concrete pillar placed marked † between Belo's Village and Odunfa Hill to another concrete pillar placed close to the Ilorin-Ogbomoso road on the North side between Buda Egba and Gbebe and about 77 chains from Buda Egba.

The length of this straight line is about 30 miles. The boundary is marked by mounds about 5 feet in height in the centre of which are set pegs or boundary pillars. These mounds occur at every intersection of a road with the boundary and at some intermediate positions.

THE following report by the Assistant Forestry Officer, on the Government Economic Plantation at Lokoja, is published for general information:—

Sir, I have the honour to report the following on the Lokoja Plantation:—

"Out of the 25,000 Rubber trees (Funtumia Elastica) planted last year, covering an area of 80 acres, some 6,000 have died during the dry season, leaving about 19,000 trees; a certain percentage of trees are bound to die in a young plantation and taking into consideration the long spell of dry weather to which the young trees are exposed, I consider the result fairly satisfactory.

After the next rains these remaining trees should be strong enough to resist the long drought in future and should do well under the shade of the large forest trees.

Another 40 acres of this reserve has been cleared and this I propose to plant up at the commencement of the rains in July, also the 6,000 blanks caused by last year's trees dying.

There are in the nurseries the following seedlings.

6,000 Funtumia Elastica.
1,000 Castilea Elastica.
1,000 Para Rubber.

And a few Mango and Mahogany seedlings.

A large quantity of Rubber seed arrived from Lagos on the 28th instant, but I am afraid a large amount of it is spoilt owing to it getting wet on transit.

I propose to plant this seed in the nurseries and to clear some more of the reserve for planting, provided sufficient seedlings are produced from this seed.

There has been a good supply of water in the plantation up to the present time."

Assistant Forestry Officer.

CIRCULAR.
Downing Street,
30th August, 1909.

Sir,
I have the honour to inform you that His Majesty the King has been pleased to institute a Medal styled "The King's Police Medal," to be awarded to members of the Constabulary Forces and Fire Brigades throughout His Majesty's Dominions and in Territories under His Protection or Jurisdiction, in recognition of special and exceptional service, heroism, or devotion to duty.

Warrant and Regulations. 2. I enclose a copy of the Royal Warrant instituting the Medal and of the Regulations governing its award.

3. Members of all recognised Police Forces and members of all regularly organised Fire Brigades will be eligible provided that the services for which they are recommended satisfy the conditions of the regulations which are as follows:—

(a) Conspicuous gallantry in saving life and property, or in preventing crime or arresting criminals; the risks incurred to be estimated with due regard to the obligations and duties of the officer concerned.

(b) A specially distinguished record in administrative or detective service.

(c) Success in organizing Police Forces or Fire Brigades or Departments, or in maintaining their organisation under special difficulties.

(d) Special services in dealing with serious or widespread outbreaks of crime or public disorder, or of fire.

(e) Valuable political and secret services.

(f) Special services to Royalty and Heads of States.

(g) Prolonged service; but only when distinguished by very exceptional ability and merit.

4. It will be observed that the number of Medals to be awarded for service in His Majesty's Dominions beyond the Seas is not to exceed thirty in any one year.

5. There will be an annual award of this Medal, and any recommendations should reach this office by the 30th September in each year.

6. It is essential that every recommendation should specify the particular act of gallantry or special service, or record of service, in respect of which the candidate is recommended. Sufficient details should be given to enable a judgment of the case to be formed in comparison with others, and it should be borne in mind that mere long service in itself gives no claim to the Medal.

I have the honour to be,
Sir,
Your most obedient, humble Servant,
CREWE.

The Officer Administering
the Government of
Northern Nigeria.

THE following circular despatches from the Right Honourable the Secretary of State for the Colonies are published for general information:—

CIRCULAR.

Downing Street,
14th January, 1909.

Sir,

With reference to my Predecessor's Circular despatch of the 3rd of March, 1908, respecting the Commercial Convention between the United Kingdom and Bulgaria, signed at Sofia Treaty Series No. 31, 1908. Cd. 3781. 1905, I have the honour to transmit for your information a copy of a Parliamentary paper giving a list of the British Colonies, &c., which have acceded to the Treaty under Article XX.

You will observe that the Protectorate under your Government is included in the list.

I take this opportunity to enclose a copy of procès verbal between the United Kingdom and Bulgaria respecting Customs duties supplementary to the Convention.

I have the honour to be,
Sir,
Your most obedient, humble Servant,
CREWE.

The Officer Administering the Government of Northern Nigeria.

CIRCULAR.

Downing Street,
3rd March, 1908.

Sir,

With reference to my Circular despatch of the 29th of March, 1906, I have the honour to transmit for your information, a copy of a Commercial Convention, Final Protocol and Declaration between the United Kingdom and Bulgaria, signed at Sofia, on the 9th of December, 1905, the Ratifications of which were exchanged on the 26th of November, 1907.

2. I have to call your attention to the terms of Article XX. which provide that the stipulations of the Convention shall not be applicable to any Colony, Possession or Protectorate of His Majesty unless notice to that effect has been given within one year from the date of the exchange of the ratifications and for the withdrawal of any Colony, etc., from the Convention on giving twelve month's notice.

3. The question of the adherence of the Crown Colonies and Protectorates to Treaties of this nature, which since 1894 has not been governed by any definite principle, has for some time received my attention, and I consider that it is, as a general rule, desirable that all British Possessions should become parties to them. I have decided that in future the adherence of the Crown Colonies and Protectorates will be notified in the regular course, unless strong reasons exist in any particular case.

4. I therefore propose, on or about the 1st of September next, to request the Secretary of State for Foreign Affairs to cause the adherence of the Colony under your Government to this Convention to be notified to the Bulgarian Government, unless I am furnished in the meantime with a statement of your objections, if such exist, to this course. Any grounds for exception will receive full and careful consideration, but my decision will be taken with reference to the general requirements of the Empire as a whole, and not merely with regard to the exigencies of any separate part of it.

I have the honour to be,
Sir,
Your most obedient, humble Servant,
ELGIN.

The Officer Administering the Government of Northern Nigeria.

Copies of the Treaties may be seen on application at the Secretariat.

Provided that, at the date when the increment would in the ordinary course become due, the Head of the Department is unable to give this certificate, he may withhold it until the officer shall have completed a continuous period of twelve months approved service; and the increment shall thereupon become payable from the date of the certificate.
If the Officer shall thereafter continue to perform his duties satisfactorily, his conduct being also satisfactory, the Governor may, after such interval as he shall consider sufficient, but subject to the approval of the Secretary of State, increase the salary to an amount not exceeding that at which it would have stood if no increment had been withheld. CONDENSERS IN OUT-STATIONS.
TO prevent contamination of the distilled water it is advisable to shorten the distance it has to be carried as much as possible, and Condensers should therefore be erected in the most accessible position possible as regards the houses of Europeans, and to ensure adequate supervision as near to that occupied by the Medical Officer as convenient.
The loss of water in these Condensers is very small usually not more than one drum in six and consequently the labour required to carry the water to the Condenser is very little more than that employed in its distribution.

CIRCULAR.
Downing Street,
16th June, 1909.
Sir,
The question has recently been raised as to the period during which flags should be flown at half-mast in the event of the death of Foreign Sovereigns.
2. As it is desirable to adopt a uniform practice in this respect in all parts of the Empire, the matter was submitted to His Majesty the King for decision, and His Majesty has signified his pleasure that flags should be flown at half-mast on the day of the Sovereign's death and also on that of the funeral.
3. I have accordingly to request that on such occasions as indicated, this procedure may be followed with regard to flags on any public buildings in the Colony under your Government.
I have the honour to be,
Sir,
Your most obedient, humble Servant,
CREWE.

THE NORTHERN NIGERIA GAZETTE. NOVEMBER 30, 1910.

Parcel Post

COMPENSATION FOR LOSS OR DAMAGE.

1. It must appear that the loss or damage occurred in the post and did not arise wholly or in part by the fault of the Sender, as for instance, from insufficient packing, inadequate fastenings, loss of "tie on" label etc.

2. The compensation given will not exceed the value of the article lost or the damage sustained. The right is reserved of reinstating the contents of the packet instead of giving pecuniary compensation.

3. In the case of damage or loss of contents the packet should be retained for inspection as nearly as possible in the state in which it was delivered. If complaint be made that the contents of the packet have been abstracted, the cover must be produced. After the delivery of a packet has been effected no claim for compensation in respect thereof will be entertained.

4. In the case of Bank Notes, Money and Postal Orders, Cheques, Bonds, and similar documents, particulars sufficient for the identification must be furnished.

5. No compensation either for loss or damage is given in respect of a packet containing anything not legally transmissible by post or a packet not posted in the manner prescribed; or in respect of glass, crockery, greases, liquids or semi-liquids, colouring powders, eggs, fish, meat, fruit, or vegetables sent by Letter Post.

6. No compensation is given for damage to any packet (whether sent by Letter Post or Parcel Post) containing eggs, soft fruit, any liquid or semi-liquid, or articles of an exceptionally fragile nature.

7. No compensation is given for injury or damage consequential upon, i.e. indirectly arising from, the loss, damage, delay, non-delivery, or mis-delivery of anything sent by post.

8. Without prejudice to any of the preceeding rules, the Postmaster-General will, if he thinks fit, refuse to give compensation for loss or damage on any ground on which a common carrier might in like case claim exemption from legal liability.

9. The final decision upon all questions of compensation rests with the Governor.

10. In the Rules as to Registration and Compensation—the term "money" means and includes—(a) Coin. (b) paper money.

The term "Coin" means and includes coins of all kinds, whether or not current in Southern Nigeria or elsewhere.

The term "paper money" means and includes:—

(b) Money Orders and Postal Orders.

(c) Unobliterated postage or revenue stamps.

(d) Exchequer bills, bank post bills, bills of exchange, promissory notes, cheques, credit notes which entitle the holder to money or goods and all orders and authorities for the payment of money whether negotiable or not.

(e) Bonds, Coupons, and securities for money whether negotiable or not.

The term "Jewellery" means and includes:—

(a) Gold or Silver in a manufactured or unmanufactured state (not electro or other plated goods).

(b) Watches and Jewels, but not the works of a watch if of no intrinsic value.

(c) Diamonds and precious Stones; and

(d) Any article of a like nature which apart from the workmanship, has an intrinsic or marketable value.

AMENDMENT TO G.S.O. No. 3. PARA. 30. DUTY PAY.

An officer entitled to draw duty pay may, when incapacitated by illness, continue to receive duty pay for a period of 15 days, unless it has been found necessary to appoint an officer before the expiration of that period to perform his duties, in which case the officer so appointed will draw the allowance from the day of appointment inclusive.

AMENDMENT TO G.S.O. No. 48.

Delete the first four lines of para. 4 and substitute the following:—

"A return on the form prescribed (Reg. 3) must be sent in monthly to the Collector of Customs by every Resident showing the revenue collected: (a) By duties at frontier Customs Stations. (b) By duties on postal parcels."

ADDITION TO G.S.O. No. 72.

When the answers are returned to the examiner a certificate will be attached to each set of answers, signed by the Secretary or Cantonment Magistrate or by the officer deputed by them to exercise supervision over each candidate, to the effect that such supervision has been carried out and that the candidate has not had access to any books or notes during the examination, and has not received any assistance.

THE following Circular despatch received from the Right Honourable the Secretary of State for the Colonies is published for general information.

CIRCULAR.

Downing Street,
19th December, 1910.

Sir,

I have the honour to inform you that my attention has been called to the increasing frequency of applications for exemption from Colonial Regulation No. 46, respecting the acceptance by Colonial Officers of valuable presents.

2. That Regulation was based on motives of sound policy; and it must be obvious that it would be detrimental to the best interests of the Public Service if a regular practice of offering presents to public officers were established. Whether the presents came from official or unofficial sources there would be the same probability of the imputation of ulterior motives; and there would be a constant impression that officials were influenced by considerations other than those which alone should weigh with them in the discharge of their duties.

3. In these circumstances I desire it to be clearly understood that applications for exemption from the Regulation will not be entertained unless they are made in very exceptional circumstances.

I have the honour to be,
Sir,
Your most obedient, humble servant,
L. HARCOURT.

The Officer Administering
the Government of
Northern Nigeria.

104 OFFICIAL THE NORTHERN NIGERIA GAZETTE. MAY 31, 1911.

No. 719/1911.
IMPERIAL INSTITUTE OF THE UNITED KINGDOM, THE COLONIES & INDIA.
South Kensington, London, S. W.
15th February, 1911.

Dear Sir,
I now send you the following information relating to (1) the larvae, pupae and moths from the Experimental Cotton Farm at Ibi, Muri Province, Northern Nigeria, which you forwarded with your letter dated the 23rd December 1910, and (2) the fly hatched out from the pupa of one of the same moths, received with your letter of the 7th January 1911.

The moths have been identified at the Natural History Museum as *Sylepta derogata* Fabr. belonging to the family *Pyrulidae* and sub-family *Pyrastinae*. They have a very wide habitat extending from West Africa throughout Asia to Australia. The pest is well known in India, where it is termed the "cotton leaf roller," and some times does considerable damage, especially to young plants. The insect feeds on various plants chiefly of the order *Malvaceae*, such as cotton, *Hibiscus* sp. *Urena lobata*, and the hollyhock (*Althaea rosea*).

In India, the period of hibernation is commonly passed by insect as a resting larva rather than as a pupa. The pest can be checked by destroying the resting larvae between the end of one season and the beginning of the next by ploughing the land after the crop has been collected and before the moths emerge. Comparatively few individuals survive the period of rest and waiting, and hence the number of moths at first is very small.

The most effective method of treating the pest therefore, is to collect and destroy every rolled leaf with its caterpillar as soon as it is seen, from the beginning of the season. When a crop becomes badly attacked, the best mode of treatment is to apply Paris green or lead arsenate which may either be sprayed on to the plants or dusted on dry.

A full account of the habits and life-history of the pest is given by Maxwell-Lefroy in "Memoirs of the Department of Agriculture in India, Entomological Series, Vol. 11, No. 6."

The second specimen, the fly, has been identified as one of the parasitic Hymenoptera of the family Ichneumonidae, genus *Xanthopimpla*. It is at present impossible to determine the species.

Very little is known as to the particular insects attacked by the numerous species of the parasitic Hymenoptera in the tropics, but it is quite likely that *Sylepta derogata* is among the normal hosts of this species of *Xanthopimpla*.

I am,
Yours faithfully,
(Sgd.) WYNDHAM R. DUNSTAN.

EXTRACT FROM ANNUAL REPORT AGRICULTURAL DEPARTMENT BRITISH EAST AFRICA FOR 1909-1910.

THE method of tapping Ceara trees in British East Africa is briefly, as follows:—The loose bits of bark or other material on the trunks of the young trees are picked or brushed off, and in the case of older trees that have been previously tapped the whole of the loose bark is removed in sections or the unwound after the manner of a bandage. Various solutions can be used to coagulate the latex such as the juice of sour orange, lemon or lime, also vinegar

is found to be crude carbolic acid diluted to about 3% its bulk with water. The solution is rubbed on to a section of the trunk of the tree, as high up as the operator can reach, and immediately incisions are made in the bark at distances of from four to six inches apart. The implement most frequently used is an ordinary table knife having a sharp thin end. The latex quickly coagulates and is then either collected in balls, or wound round a stick like a rolling pin from which it is removed with a knife and has then the form of a fairly thin sheet. The rubber is washed in water to remove impurities and then placed in a cool airy place away from the sun to dry. It is much improved by being passed through a washing or "creping" machine and rubber growers in the Protectorate are now considering the importation of such machines.

524
CIRCULAR.
DOWNING STREET,
3rd August, 1912.
Sir,
I have the honour to inform you that the Army Council, in connexion with a recent case in which an Officer seconded for Colonial employment terminated his engagement with the Colonial Government prematurely, have suggested that some uncertainty may exist in the minds of officers in Colonial employment and of the Governments that employ them as to the date from which such officers may again become entitled to receive pay under Army Regulations.
2. The Army Council have therefore requested that Colonial Governments, and all officers of the Regular Army who may be holding or who may hereafter hold Colonial appointments, may be reminded that the issue to such officers of pay under Army Regulations cannot be resumed after the termination of their appointments from any date earlier than that of their disembarkation in this country on return, or (in cases in which passage to this country is not involved) that of their rejoining for duty a unit serving abroad; and that if an appointment is vacated under circumstances in which the return passage is not payable by the Colonial employer, the officer himself will be liable.
3. The Army Council further explain that too frequently is the cases of officers who resign their Colonial appointments—for example, as Aides-de-Camp to Colonial Governors—notification of their resignation does not reach the War Office until after they have actually arrived home. Such delay gives rise to a good deal of inconvenience, and at times to additional expense, since opportunities of absorption are often lost owing to the War Department being unaware that the officer's services are available. The Council therefore request that, in the event of a regular officer in Colonial employment desiring to terminate his appointment before the date up to which he has been seconded, a notification may be sent to the War Office as early as possible, in order that steps may be taken for his disposal, and that unnecessary inconvenience and loss, both to the officer himself and to the Imperial Government, may be avoided.
4. It is not intended that these instructions should affect the existing rules governing the incidence of the charge for pay as between Army and Colonial funds.
I have the honour to be,
Sir,
Your most obedient, humble servant,
L. HARCOURT.
The Officer Administering the
Government of Northern Nigeria.

Post Office Notice FURTHER to Notice No 70 January following a complete list up to November 10th

OFFICIAL THE NORTHERN NIGERIA GAZETTE.

NOVEMBER 30, 1912.

The Right Honourable Sir Edward Grey to the Lords Commissioners of the Admiralty *:-

Foreign Office, October, 18, 1912.

My Lords,

His Majesty being fully determined to observe the duties of neutrality during the existing state of war between Turkey and Bulgaria; Turkey and Greece; Turkey and Montenegro; and Turkey and Serbia; being, moreover, resolved to prevent, as far as possible, the use of His Majesty's harbours, ports, and coasts, and the waters within His Majesty's territorial jurisdiction, in aid of the warlike purposes of either belligerent, has commanded me to communicate to your Lordships, for your guidance, the following Rules, which are to be treated and enforced as His Majesty's orders and directions:-

Rule 1. During the continuance of the present state of war, all ships of war of either belligerent are prohibited from making use of any port or roadstead in the United Kingdom, the Isle of Man, or the Channel Islands, or in any of His Majesty's Colonies or foreign possessions or dependencies, or of any waters subject to the territorial jurisdiction of the British Crown, as a station or place of resort for any warlike purpose, or for the purpose of obtaining any facilities for warlike equipment; and no ship of war of either belligerent shall hereafter be permitted to leave any such port, roadstead, or waters from which any vessel of the other belligerent (whether the same shall be a ship of war or a merchant ship) shall have previously departed until after the expiration of at least twenty-four hours from the departure of such last-mentioned vessel beyond the territorial jurisdiction of His Majesty.

Rule 2. If there is now in any such port, roadstead, or waters subject to the territorial jurisdiction of the British Crown any ship of war of either belligerent, such ship of war shall leave such port, roadstead, or waters within such time not less than twenty-four hours as shall be reasonable, having regard to all the circumstances and the condition of such ship as to repairs, provisions, or things necessary for the subsistence of her crew; and if after the date hereof any ship of war of either belligerent shall enter any such port, roadstead, or waters, subject to the territorial jurisdiction of the British Crown, such ship shall depart and put to sea within twenty-four hours after her entrance into any such port, roadstead, or waters, except in case of stress of weather, or of her requiring provisions or things necessary for the subsistence of her crew, or repairs; in either of which cases the authorities of the port, or of the nearest port (as the case may be), shall require her to put to sea as soon as possible after the expiration of such period of twenty-four hours, without permitting her to take in supplies beyond what may be necessary for her immediate use; and no such vessel which may have been allowed to remain within British waters for the purpose of repair shall continue in any such port, roadstead, or waters, for a longer period than twenty-four hours after her necessary repairs shall have been completed. Provided, nevertheless, that in all cases in which there shall be any vessels (whether ships of war or merchant ships) of both the said belligerent parties in the same port, roadstead, or waters within the territorial jurisdiction of His Majesty, there shall be an interval of not less than twenty-four hours

* Similar letters to the Treasury, Home Office, Colonial Office, War Office, India Office, Scottish Office, and Board of Trade.

between the departure therefrom of any such vessel (whether a ship of war or merchant ship) of the one belligerent, and the subsequent departure therefrom of any ship of war of the other belligerent; and the time hereby limited for the departure of such ships of war respectively shall always, in case of necessity, be extended so far as may be requisite for giving effect to this proviso, but no further or otherwise.

Rule 3. No ship of war of either belligerent shall hereafter be permitted while in any such port, roadstead, or waters subject to the territorial jurisdiction of His Majesty, to take in any supplies, except provisions and such other things as may be requisite for the subsistence of her crew, and except so much coal only as may be sufficient to carry such vessel to the nearest port of her own country, or to some nearer named neutral destination, and no coal shall again be supplied to any such ship of war in the same or any other port, roadstead, or waters subject to the territorial jurisdiction of His Majesty, without special permission, until after the expiration of three months from the time when such coal may have been last supplied to her within British waters as aforesaid.

Rule 4. Armed ships of either belligerent are interdicted from carrying prizes made by them into the ports, harbours, roadsteads, or waters of the United Kingdom, the Isle of Man, the Channel Islands, or any of His Majesty's Colonies or possessions abroad.

The Governor or other Chief authority of each of His Majesty's territories or possessions beyond the seas shall forthwith notify and publish the above Rules.

216 Post Office Notices.

FROM time to time complaints are received from persons who have lost money, usually in the form of Postal Orders, during its transmission by post. As, in nearly every case, it transpires that had proper precautions been taken, the loss would probably not have occurred, officials and others sending money through the post should bear the following in mind:—

Money may be forwarded in two ways—

1. By **Postal** Order.
2. By Money Order.

Postal Orders—Should wherever possible contain both the name of the person to whom they are payable and the name of the office of payment. If the name of the office of payment be inserted, the risk of loss by theft is reduced to a minimum. Counterfoils should always be retained by the sender. Inability to quote the number of an Order renders it difficult, if not impossible, to make any useful enquiry regarding its disposal.

Money Orders—Involve slightly more trouble than Postal Orders but they are much safer, the possibility of loss in the Post being practically nil.

2. Class (A) will be included all accidents involving loss of life and serious injury to person or property.
- Class (B) all minor accidents which do not involve serious injury to person or serious damage to property, such as derailments, damage to line which would render passage of trains unsafe, bursting of points, engine failures or persons dying in railway limits from natural causes.

- (b) The Station Master will at once transmit these particulars by telegram to the nearest European Traffic Officer.
- (c) The Traffic Officer thus receiving the report will, in the case of Class (A) accidents, at once send copy of the report to the General Manager, the Superintending Engineer, the Traffic Superintendent, the Locomotive Superintendent, and all officials mentioned in the working Time Table, also, in the case of fatal accidents only, to the Political Officer in charge of the District in which the accident occurred and the Police Officer. The Medical Officer should be informed immediately of any serious injury to person.

Post Office Notice.

WITH a view to reducing unnecessary correspondence by telegram the mail services between the stations served entirely by the Railways have been increased and accelerated.

Mails are exchanged every two days between such stations as Lagos, Ilorin, Jebba, Zungeru, Minna, Baro, Kaduna, Zaria, and Kano, and it is suggested that with matters in which much detail is involved it is better to correspond by letter than by telegram.

All Officers are therefore requested to use the telegraphs only when the mail services could not give the desired despatch and to confine the use of the telegraph to those matters where extreme urgency makes it necessary.
