

## WASC website members' only content

**Some of our on-line material is available only to WASC members.** For example, material related to WASC activities – such as publications, accounts of meetings, displays, and WASC archives is members-only. Members-only file links are indicated with a **!** after the file description.

**If you click on such a link with a **!** you will be asked for a username and password, which only WASC members know.**

### Questions and Answers

#### ***I'm a WASC member: I've lost the username and password***

If you forget the username and password you will be able to find them on the hidden WASC members-only page. There's a link to that page in every WASC members' e-newsletter. Contact [paul@redsite.org](mailto:paul@redsite.org) if you still can't find it.

#### ***I'm a WASC member and having trouble logging in***

Look at the advice on the members-only page – as above.

#### ***I'm not a WASC member but I want to explore your site***

There are a lot of pages on the WASC website and they are all free-to-view. It is only some of the files that those pages link to which are members-only.

#### ***I'm not a WASC member but I want to look at a protected file***

You'll need to become a WASC member then! [https://www.wasc.org.uk/new\\_joining\\_WASC.html](https://www.wasc.org.uk/new_joining_WASC.html) gives details. A year's membership will cost you only £5 (2026).
